

The Mightiest Little Peasant Chapter 2082

In the past few days, the eight desolates had been in an uproar.

The aftermath of the treasure falling ceremony was still ongoing.

Everyone's attention was focused on the mysterious Supreme martial artist. The ancient books and legends of various clans were dug out to investigate the identity of this mysterious Supreme martial artist.

"I think he must be longevity immortal venerable, one of the 100 Immortals. However, he's very mysterious and there's not much information about him. I only know that he has a close relationship with reincarnation immortal venerable."

Soon, the identity of this Supreme martial artist was revealed.

People had studied all kinds of legends and finally confirmed that this person was most likely the ancient longevity immortal venerable.

"Logically speaking, all the Supreme beings of Pangu field should have disappeared. How can there still be some left?"

Some people were suspicious.

In the ancient times, there were indeed many supreme beings in Pangu world, but later, these supreme beings all disappeared. It was said that it was because of a Great Tribulation, but not many people knew the specific reason.

All these years, it had always been common knowledge that there were no Supreme martial artists in the world. Why did another one suddenly appear?

"He doesn't necessarily have to be a true Supreme martial artist! I'm saying that he might be longevity immortal venerable, but he might not be the true body of a Supreme."

Some people guessed.

However, this was only a guess. No one knew what was going on.

Some people began to investigate why the Supreme martial artist had to guard the reincarnation Lake for so many years.

"It must be because of love!"

"This is such a touching and touching love story! And that string of bells is the proof of this love!"

And so, various versions of love stories began to spread.

This love that spanned ten thousand years and would never change even if they died had touched countless people and became a story that was told for a while!

In the eight desolates, there was a new trend. Before becoming Dao companions, one had to visit the reincarnation Lake and make an oath at the lakeside to become Dao companions.

Suddenly, the lakeside of the reincarnation Lake became more lively.

Tang Hao had heard about it.

He just smiled, finding it interesting.

In this half a month's time, he had been wandering around, trying to find out the whereabouts of the Buddha blood.

At the same time, he was also paying close attention to young master Taixu's situation. Every day, he would open his heaven's eye to take a look at the great void heaven.

However, he didn't gain anything. Young master Taixu had been staying in the great void heaven to reforge his immortal abode, and the elders of the great void heaven didn't do anything. Clearly, they hadn't found out the whereabouts of the Supreme blood.

Tang Hao was not in a hurry. He patiently searched for the Buddha blood.

During this time, news about the Liu Clan came. It was said that there was a shocking phenomenon in the ancient country of the Liu Clan, which shook a desolate land.

This news also caused a sensation.

During the treasure falling ceremony, the genius of the Liu Clan had once obtained a five-colored crystal source with an ancient cultivator sealed inside. Many people had discussed whether the ancient cultivator was still alive and what his cultivation level was.

Now that such a phenomenon had occurred in the Liu Clan, everyone couldn't help but think of the crystal source.

"The crystal source must have been activated, and the ancient cultivator inside came back to life!"

"That phenomenon was extremely shocking. The celestial light turned into a huge pillar of light and shot into the sky. Everyone in the waste realm could see it. It can be seen that the ancient cultivator's realm must be very high. He might even be an eight-tribulation venerable Emperor!"

Everyone was discussing it.

Many clans paid special attention to the Liu Clan. At the same time, they were also extremely envious.

The Liu family was not considered a first-class family yet, but they had been reviving in recent years. They had been very lucky. During the ceremony of the blood source, they had two top geniuses. One was a divine body from the ancestral star, and the other was Liu heihu, the son of the blood source.

Because of this incident, the Liu Clan had become very popular.

Of the two geniuses of the Liu family, one of them was well-hidden and rarely showed her face. The world only knew that she was an unparalleled beauty.

The other was hard to explain.

Although this Liu heihu was a scourge, his talent and strength were unquestionable. Among the ten thousand races' monstrous talents, he was firmly ranked in the top three. His luck was also good, as he had inherited the inheritance of the thief immortal.

His cultivation had also reached the peak of the 6th tribulation and he had even obtained a drop of the ROC king's blood essence from the heavenly ROC mountain. He was not far from the 7th tribulation.

When he reached the 7th tribulation, with the help of that ancient cultivator, the Liu Clan would rise to power.

Tang Hao was not too surprised when he heard the news.

"This brother Liu is quite lucky!"

He muttered.

That ancient cultivator must have come from a powerful background. He had been sealed for 10000 years and was released by the Liu Clan. Even if he didn't join the Liu Clan, he would be grateful. Whether it was Liu heihu or the Liu Clan, this was a great opportunity.

He wasn't too worried about this. The Liu Clan had long been kicked out of the hundred clan Alliance and had fallen out with the night clan.

The hundred races all thought that he was in cahoots with Liu heihu.

His relationship with Liu heihu wasn't shallow either. Furthermore, bingyao was also in the Liu family.

To him, it might be a good thing for the Liu Clan to grow stronger.

He wandered around and sent out countless split souls and split bodies to search the area again. He even went to further places to investigate carefully, not letting go of any clues.

However, the whereabouts of the Buddha blood were still unknown.

He had tried to track down the whereabouts of the remnants of Buddhism, but to no avail.

Ever since the war between the immortals and Buddhas, the remnants of the dipamkara temple and the Tathagata divine sect had disappeared without a trace, leaving no trace on Pangu land.

“It’s difficult!”

Tang Hao heaved a long sigh. He was a little depressed.

If even the great void heaven elder said that there was no more Supreme level Buddha blood in the world, then this hope was really a little bleak.

This trip took another half a month.

It had been more than a month since the end of the treasure falling ceremony.

Finally, there was movement from the great void heaven.

On this day, Tang Hao opened his heavenly eye as usual and peeked into the great void heaven. He saw young master Taixu leave the palace and head to the great void divine mountain to meet the elders.

After spying for a period of time, Tang Hao was already familiar with the situation of the great void heaven. He recognized most of the elders. This elder’s name was Xu Heng, and he was one of the more than ten seventh calamity cultivators of the great void heaven.

The great void sect was too huge and had millions of disciples. Usually, the sect master didn’t care about anything. Recently, the sect master had been chasing after the blood Emperor in the outer region void and didn’t have time to care about the sect’s matters.

Thus, all matters of the great void heaven were handled by this elder Xu Heng.

He was naturally the one in charge of finding Supreme blood’s whereabouts.

“Elder Heng, you’ve called me here in such a hurry, do you have any news?”

Young master Taixu said excitedly.

“Hahaha! That’s right, there’s news that they’ve found traces of Supreme blood.” Elder Xu Heng said.

“That’s great! Where is he?”

Young master Taixu was a little impatient.

“Young master, don’t be anxious!” Elder Xu Heng smiled and said, “this time, it’s in the East Sea, the East Sea ruins! It’s said that there’s the blood of ancient gods there!”
