

## The Mightiest Little Peasant Chapter 2113

Three years passed by in the blink of an eye.

Three years ago, the night race's Holy Son had been killed and the primogenitor's armor had been taken away.

But now, not many people mentioned this matter.

As for Tang Hao, not many people mentioned him anymore.

"He won't appear again. He will only dare to come out after a few decades or even a hundred years when he has caught up with the night patriarch's cultivation!"

Everyone in the world had such an idea.

Even the people of the hundred clan Alliance gradually gave up on their search. In the past, they could be seen from time to time in the sky above the eight desolates, but now, they could not even see a single person from the hundred clan Alliance.

On the other hand, the night race had not given up and were searching with all their might.

The great void heaven was the same as the night race.

"Still no news?"

In the great void heaven, in the great void Hall, elder Xu Heng flipped through the messages sent by all parties and revealed a look of disappointment.

It was still the same as before. There was no news of that kid at all.

In these three years, that kid seemed to have completely disappeared.

"The gate of fortune is being closely monitored, so it's impossible for him to return. However, where did he go after not returning to the gate of fortune for three years? If he's always been active, it's impossible for there to be no trace of him. "

"Could it be ... He has already started to coagulate?"

"But this is also not very possible. He is clearly also looking for blood. During the treasure falling ceremony, he once unintentionally revealed that he was looking for God spirit blood and Buddha blood. He obtained God spirit blood from the fu sang clan, but he still lacked Buddha blood."

"And in this world, there is no such thing as Buddha's blood! How could he possibly find it?"

Elder Xu Heng pondered.

These questions had been bothering him for the past three years.

If that brat wanted to find the Buddha blood, he couldn't keep quiet all the time. There had to be some clues, but now there was no trace at all. Could it be that he had given up on looking for the Buddha blood and had settled for the second-best option, condensing ordinary immortal blood?

"It's possible! If that's the case, where is he in closed-door cultivation?"

As elder Xu Heng thought about it, his brows furrowed again.

Pangu world was so large that it was difficult to find a person, not to mention that the boy was not an ordinary person. He was extremely smart and cunning, so it was not easy to find him.

"However, I don't need to worry. If this kid congealed ordinary immortal blood, he won't be a threat at all. When the eldest young master comes out of seclusion, he can easily defeat him with the power of the immortal blood of no beginning."

"Ordinary immortal blood can't even withstand a single blow from Supreme blood like the No beginning immortal blood. That kid is basically crippled!"

"If he has not reached the blood solidification realm, that would be even better. The eldest young master has been in closed-door training for three years and everything is going smoothly. After a while, he will probably succeed in the blood solidification realm and come out of his training. At that time, he will go to sovereign Xi heaven and ask for the ruler of sovereign Xi. He will calculate the kid's whereabouts and kill him in one fell swoop. He will wash away the shame of the great void heaven!"

When he thought of this, elder Xu Heng's brows finally relaxed.

He then glanced at the eldest young master's secluded cultivation, stroked his long beard, and smiled in relief.

As long as the eldest young master could refine the immortal blood of no beginning, everything would be fine.

"No beginning immortal blood was created by no beginning immortal venerable. It was also the method he relied on to become famous. In ancient times, he used this blood to command the wind and the clouds. Later, he became the head of the hundred Immortals and his name shook the world."

"When the young master is able to cultivate this blood, it will definitely shake the entire Pangu continent. The 33 heavens will be shaken as well. By then, the reputation of the great void heaven will definitely soar, and it will be above the likes of Emperor Xi and Emperor Yan."

As he thought about this, he laughed even more heartily.

In the blink of an eye, another half a year had passed.

On this day, on the great void divine mountain, in a dusty cave abode, a loud explosion suddenly rang out.

The cave door exploded, and divine light rushed out.

This strange phenomenon alarmed countless great void sect disciples.

“What’s that?”

When they looked over and saw where the divine light had come from, they were all stunned.

Then, they all revealed ecstatic and excited expressions.

That place was clearly the cave where the eldest young master was in seclusion!

Now that the cave dwelling was open and divine light shot into the sky, didn’t this mean that the eldest young master had come out of seclusion?

Whoosh! Whoosh! Whoosh!

In the next moment, in the sky above the cave dwelling, many figures appeared. They were all elders of the great void heaven.

Their faces were filled with anxiety and excitement as they stared at the entrance of the cave.

There, he heard the sound of footsteps.

Young master Taixu stepped forward with his hands behind his back. His eyes were bright, and his body exuded an unparalleled sharpness. Endless celestial light bloomed from his body, illuminating the area.

In the immortal light, there were huge shadows flashing. They were huge beasts. There were fire phoenixes flying with their wings spread, golden divine apes roaring at the sky, and even true dragons soaring in the clouds.

Nine types of divine beasts, nine different auras, all existed on his body at the same time.

“This is ... No beginning immortal blood!”

“Hahaha! Success! Success! That’s great!”

The group of elders were first stunned, then ecstatic.

This was the legendary immortal blood of no beginning!

The Supreme blood that was refined from the fusion of nine types of Supreme blood!

“That’s great!”

Elder Xu Heng was so excited that his entire body was trembling.

“Where ... Is that Tang guy?”

Young master Taixu shouted as he walked out of the cave and looked around.

His expression was cold, and his eyes were filled with a shocking killing intent.

He had been waiting for this day for a long time.

The defeat at the ancient deity plateau, the defeat at the sky ROC mountain, and the humiliation of being played by that fellow for a long time. He would take revenge for all of them.

“Young master, don’t be anxious!”

Elder Xu Heng laughed heartily as he walked forward.

“For the past three years, that guy has been hiding and has never shown himself. I guess he’s in the blood solidification realm, and what he’s condensing is probably just ordinary immortal blood, not worth mentioning.” He said.

Hearing this, young master Taixu snorted in disdain.

He didn’t care whether it was ordinary immortal blood or not, because no matter what kind of blood it was, even if it was a special immortal blood, it couldn’t be compared with his immortal blood of no beginning!

“I’ve already planned it. As soon as young master comes out of seclusion, we’ll immediately go to xihuang heaven. The people of xihuang heaven owe us a favor, and this time, we’ll make use of it. We’ll ask them to take out the ruler of xihuang and find out where that kid is.”

Elder Xu Heng said.

“Alright!”

Young master Taixu nodded.

“Hmph! Tang kid, let’s see what you’re going to use to fight me this time! I’ll wash away all the humiliation you’ve given me this time!” Then, he mumbled, and his handsome face revealed a ferocious expression.

“There’s no time to waste! Let’s go and get this done as soon as possible!”

Elder Xu Heng said as he led the way to Emperor Xi heaven.

“Alright! Kill that kid as soon as possible to avoid any more trouble. After killing him, we can spread the news that young master has refined the immortal blood of no beginning. That’s the only way to create a sensation.”

All the elders nodded.

They smiled happily and followed him to Emperor Xi heaven.
