

## The Mightiest Little Peasant Chapter 2126

"I've never heard of this Hu tribe!"

"A mere core dares to be so arrogant? what a joke!"

The group of han clan disciples laughed even louder.

"How can someone like him compare to our Saint? in terms of strength and status, our Saint is ten times, no, a hundred times stronger than him!" There were even disciples who took the opportunity to flatter.

Han Shifeng smiled arrogantly.

Although it was a little exaggerated, it was not wrong. As the Holy Son of a clan, his status was naturally extraordinary. Compared to the core of any clan, his status was one level higher, let alone this small, unknown clan.

"Since it's just a core, this guy's strength must not be very good. He must have used some kind of illusion to scare away the evil Python!"

He thought to himself, and the contempt in his eyes grew.

In han Shifeng's eyes, this guy was just a small character. He didn't even care about him.

However, the more ordinary this guy was, the more unwilling he was.

He was the Holy Son of the Han clan. How could he lose to such a piece of trash? In what way was this guy better than him?!

He squinted his eyes and stared at that guy with killing intent.

"It's good that this guy stays. We might be able to take the opportunity to kill him. As long as we do it well, the HU tribe won't find out." He thought to himself, "if I can't kill him here, I'll ask the elders to cripple him when he goes to the Han clan!"

At the thought of this, the corner of his mouth twitched and a cold smile appeared.

"Alright! We should go! Hurry up and find the Emperor artifact!"

Soon, he restrained his killing intent and his expression returned to normal. He shouted at the Han clan disciples.

"By the way, Hu, you have to follow closely. If you're alone and swallowed by those fierce beasts, it's not my han clan's business!" Then, he looked at Tang Hao and laughed mockingly.

In an instant, a burst of laughter erupted from all directions.

“Eh? What about the blood crocodile? Why did it disappear?”

At this moment, a disciple noticed the blood crocodile that had disappeared.

“I saw it go back to the lake just now. It probably thought it couldn’t win against our Saint and didn’t want to be snubbed, so it ran away!” A disciple replied.

“I think so too. How powerful is our Saint? how can a mere beast be his match?”

All the disciples laughed and their expressions relaxed.

Han Shifeng looked into the lake and did not think much about it. He also thought that his strength had intimidated the blood crocodile and forced it away.

“Let’s go!”

His figure moved, and he took the lead to sweep forward.

As he swept forward, his gaze swept around, but he was looking for traces of fierce beasts.

Only when they fought and the situation became chaotic would he have the opportunity to kill that Hu fellow.

“That B \* tch is quite lucky. Just as she was about to suffer, an old flame appeared and saved her!”

In the crowd, a few female disciples were gathered together. Their faces were filled with unwillingness.

He was so close to seriously injuring that B \* tch.

“If only they had really run away just now!” A female disciple said regretfully.

If they had really eloped, the nature of the matter would be quite serious. The two of them would be caught and punished by the clan. However, they didn’t want to leave and even said that they wanted to go to their han clan.

In this way, that slut wouldn’t receive any punishment. At most, it would be that Hu guy who would be unlucky.

Although there would be a good show to watch, it would be far from enough for them.

“I don’t believe that Hu has the ability to save her every time!”

Han ruyu snorted.

The palm in her sleeve trembled, and she took out another elixir and gently crushed it.

The powder fell and scattered when the wind blew.

“Not enough! It’s far from enough!”

After crushing one, she took out a few more and crushed them all.

Just now, one pill had only attracted one fierce beast. She wanted to attract more fierce beasts over. The more chaotic the situation was, the greater her chances.

“Where are the beasts? Where is he?”

At this moment, Han Shifeng was also searching, his eyes shining as he looked around.

Previously, he did not want to encounter any fierce beasts at all. But now, he could not wait for those fierce beasts to rush over.

However, after walking forward for a while and passing by several forests and lakes, he did not even see the shadow of a fierce beast.

The ancient forests and lakes were unusually quiet.

“That’s weird! Why isn’t there any movement?”

Han Shifeng felt a little strange.

In such a large lake, could it be that there wasn’t even a single 6th tribulation beast?

Just now, in a short while, they had already encountered a few, but now, after walking for so long, they had not even encountered a single one.

As far as the eye could see, their area was terrifyingly quiet, but in the distance, there were sounds of fierce fighting. It was the sounds of people from other races fighting with fierce beasts.

“How come they can meet him, but I can’t?”

Han Shifeng was puzzled.

The group of Han clan disciples also sensed it and were all confused.

Han Ruyu was even more confused.

What was going on?

She had already used a few pills, but in the end, she was told that there were no fierce beasts here?

She looked around and saw the mirror-like lakes. She suddenly felt like vomiting blood.

It turned out that she had wasted all her efforts on those pills. One had to know that those were not ordinary pills, but high-grade Saint level ancient pills. She had spent a lot of money to get them from an auction, and only such pills could confuse the minds of 6th tribulation beasts and make them go berserk.

“Al! Look, there’s movement in the lake over there. ”

After flying forward for a while, a disciple suddenly pointed at a Lake in front of them and shouted.

Han Shifeng focused his eyes and was immediately invigorated.

There were indeed waves rolling on the lake, as if there was a huge object swimming in the lake.

“Let’s go and take a look! This place was close to the center of the grotto-heaven, so perhaps the Emperor artifact was here! We have to look carefully!”

Han Shifeng thought about what to say and then led the way.

“There it is!”

Han ruyu looked over and was amused.

If there was a fierce beast, then it would be easy to deal with. As long as there was another pill, it would become violent.

It would be even better if there were also some in the surroundings.

If three or four ferocious beasts came together, she would have the opportunity to make a move.

The group of disciples seemed to have noticed something as well. With a tacit understanding, they all rushed over in that direction.

“Yes, yes! Search carefully!”

“Yeah! Maybe it’s right here!”

They shouted.

“It’s a big guy!”

When they got closer and saw the outline of the lake, both han Shifeng and han ruyu were overjoyed.

It was also a crocodile, but it was bigger than the blood crocodile from before. Its strength must be more powerful.

Immediately, they increased their speed and headed in that direction.

However, as they approached, the figure in the lake actually sank, and the movement on the surface of the water quickly disappeared. By the time they flew to the front of the lake, the surface of the lake was so calm that not even a single wave could be seen.

“What ... What about the crocodile?”

“How did he disappear?”

They sent their divine senses into the lake, but there was no sign of the giant crocodile.

They stood there in a daze, looking at the mirror-like surface of the lake. They were all dumbfounded.
