

The Mightiest Little Peasant Chapter 2198

“Quick, take a look. Where is this Dragon burial Valley?”

Jiang zhengdao grabbed Tang Hao’s hand and asked anxiously.

Ling Zhanxu and the rest also looked at him with bright eyes.

Tang Hao looked at the scroll again, and his brows furrowed.

“It does mention the location of the Dragon burial Valley, but ... It’s not in the eight desolates land ...”
Tang Hao said hesitantly.

“He’s not in the eight desolates?”

Jiang zhengdao and the others immediately cowered.

“If it’s not in the eight desolates, where is it?” Ling Zhanxu asked in confusion.

“Over there!”

Tang Hao raised his hand and pointed at the sky.

“The outer region of the void?”

Ling Zhanxu was stunned at first, but he quickly came to a realization.

Then, his expression changed.

Jiang zhengdao and the others did not look too good either.

The outer region of the void was a chaotic place. It was extremely dangerous and very few seventh tribulation experts dared to set foot there.

“So the Dragon burial Valley is in the void outside the region. No wonder no one has discovered it after so many years ...”

“I’ve been to the outer space once. It’s not like the eight desolates. Not only is the immortal Qi thin, but it’s also full of danger!”

Their expressions turned grave.

If the Dragon burial Valley was in the eight desolates, they wouldn’t be worried at all. However, it just so happened that the Dragon burial Valley was in the extremely dangerous void outside the region. This was a little troublesome.

Tang Hao furrowed his brows. He was worried.

Very few people had ever been to the outer space. It was very mysterious. It was said that the outer space was vast and even bigger than the eight desolates. There were many ancient relics and even tombs of ancient true immortals and gods.

For a seventh tribulation, it was a dangerous place. Only an eighth tribulation venerable Emperor could come and go freely.

The Blood King and the great void sect master were currently in that void.

“Hey! There are so many of us here, what is there to be afraid of?”

“That’s right. This is the Dragon burial Valley, a peerless land of treasures. No matter how dangerous it is, we must give it a try!”

Very quickly, their expressions became excited and fervent again.

“Can you confirm the specific location and take us there, Tang kid?”

Jiang zhengdao asked Tang Hao.

“No problem!”

Tang Hao nodded.

“Then let’s go!” Jiang zhengdao urged, somewhat impatient.

He took out a big ship and called everyone to board it. Then, it started and rushed up into the sky.

“Senior Jiang, take a look. The coordinates recorded here are based on the 33 heavens. As long as we follow this direction, we will be able to find the Dragon burial Valley.”

Tang Hao took out a piece of paper, drew a simple map, and handed it to Jiang zhengdao.

“We’re quite lucky this time. There weren’t any obstacles and we managed to grab the treasure easily!”

“Hahaha! With our strength, who can snatch it from us! Our only opponent, the night race, is not here. Naturally, it is extremely easy.”

The elders began to chat and laugh at the side.

Tang Hao smiled in relief when he heard that.

This time, they were quite successful.

“The night race should be here by now. Maybe they didn’t make it in time, and that’s why I’ve taken the treasure so easily. They’re definitely not willing to give up. Maybe they’ll track me down. Let me see where they are now!”

Tang Hao pondered for a moment, then activated his heavenly eye and peeked.

A moment later, his expression changed and he exclaimed in a low voice, "Not good!"

"What's the matter, Tang kid?"

Ling Zhanxu asked in surprise.

"It's the night race!"

Tang Hao retracted his heavenly eye divine power. His expression turned grave. "They were one step too late just now. We snatched the treasure first, so they went after that old monster, symbol Dragon."

"The old monster Rune Dragon is from the flood dragon clan and has even swallowed a real Dragon before. He's very proficient in the ancient language of the dragon clan and has already memorized the location of the Dragon burial Valley. That's why he threw the scroll out so easily."

"Now, he has been captured by the night race. They will soon know the location of the Dragon burial Valley."

When Ling Zhanxu and the others heard this, their expressions changed drastically.

"Hurry up! Speed up, we must find the Dragon burial Valley before they do!"

They were all anxious.

If the night race was one step ahead of them, then all the treasures inside would be gone.

Jiang zhengdao immediately gritted his teeth and madly urged his celestial core power to rush toward the outer-realm void.

Soon, the warship soared into the sky.

The Trayastrimsa heaven was at this height.

Beyond that was the outer region void.

Tang Hao rushed into the void and looked around. There was nothing but endless vastness and darkness. When he sensed again, the immortal Qi in the surroundings was pitifully thin.

It was impossible to cultivate in this void.

The warship turned into a stream of light and sped into the void.

Along the way, it was basically empty. Occasionally, they would come across some ruins that were floating there quietly, with only broken walls and ruins.

Sometimes, they would also encounter some corpses and broken tribulation weapons floating in the air.

Further ahead, many stars appeared, but they were all dead stars. They were lifeless, without even a trace of spiritual energy.

“Many of these stars were created by ancient mighty figures as their own cave abodes. However, they were all abandoned later on, and they ended up like this.”

“These have all been patronized by people, and there’s nothing left on top.”

Ling Zhanxu pointed at the stars as he introduced them to Tang Hao.

Tang Hao wasn’t surprised. Creating a small planet with the divine power of the ancient nine tribulations was no problem. But for a sacred planet like Donglin, the divine power of the nine tribulations was not enough.

“We’re almost there!”

After travelling in the void for two days, they were finally close to their destination.

“According to the location recorded on this scroll, the Dragon burial Valley is not far ahead.”

Tang Hao said as he pointed at the sky.

The ship slowed down.

Everyone on the ship activated their spiritual pupils and magical eyes to look forward.

“Look, there’s a void vortex over there! Could that be the entrance to the Dragon burial Valley?”

Suddenly, Yushi min seemed to have discovered something and shouted.

“It’s possible!” Jiang zhengdao nodded and steered the warship toward the vortex. Then, everyone sent their avatars or puppets into the vortex.

“That’s right! This is the place!”

After a while, the results came back, which made them very happy.

On the other side of the whirlpool was a vast land. It was obviously where the Dragon burial Valley was located.

“The night clan is coming! Let’s go in quickly!”

Tang Hao activated his heavenly eye and looked around.

The night race had already found out about the Dragon burial ground from the old Demon Seal Dragon. They had entered the void long ago and had been following behind them.

“Let’s go!”

The ship started moving and went straight into the vortex.

After passing through the vortex, a vast, ancient land appeared in front of Tang Hao and the others. On the land, there were countless tall mountain ranges that stretched for thousands of miles, like giant Dragons entrenched on the vast land.
