

The Mightiest Little Peasant Chapter 2218

In the vast outer space, a large ship was flying.

On the ship, Tang Hao stood at the bow of the ship, and behind him stood Ling Zhanxu and the others.

“This no beginning immortal venerable was the head of the ancient Immortals. In that era, human geniuses were born in large numbers and countless world-shocking figures emerged, but none of them could compare to this no beginning immortal venerable.”

“If he’s the bright moon, then the other monsters are just fireflies!”

“What Grand Yan immortal venerable, what Changliu immortal, what ROC Demon King, they all pale in comparison to this no beginning immortal venerable. He’s the most powerful man of that era, a legend of that era!”

Jiang zhengdao said in a clear voice.

“In that era, people called him the existence closest to true immortality. They thought that he was the most likely to break through the Saint realm and become an immortal!”

“However, tens of thousands of years have passed, and the ancient Immortals and even all the existences of the nine tribulations have disappeared. This no beginning immortal venerable has also disappeared without a trace. No one knows whether he has fallen or has really turned into an immortal.”

“However, there are many legends about this no beginning immortal venerable, among them, there are five legends of empty tombs.”

“It’s said that no beginning immortal venerable once built five fake tombs for himself and hid one of his treasures in each tomb. The great void heaven has the sacrificial refining method of no beginning immortal blood, so he must have found a fake tomb and obtained it from it.”

“Now you say that the night Lord and the others are looking for a treasure without beginning. Then, this treasure must be hidden in the remaining four virtual tombs.”

Upon hearing this, Ling Zhanxu and the others nodded.

“I’ve also heard of the legend of the No beginning false tomb!”

Yu Shiyan frowned and said, “I don’t think there are four fake tombs left. There might only be one or two left. I heard that not all of the five fake tombs have treasures. Some of them are empty. Someone dug one a long time ago but didn’t find anything.”

“I see!” Jiang zhengdao was stunned. “I’m not sure about that. After all, it’s just a legend.”

“Not only does that empty virtual tomb not have any treasures, it is full of danger. At that time, a group of seven tribulations went in, but half of them died inside, and the losses were heavy!” Yushi min’s tone was grave.

“That’s natural, after all, it’s a tomb set up by Wushi immortal venerable!” Ling Zhanxu said, “but our top priority is to find one before our opponents. Who cares if it’s empty or not.”

“That’s true!” Yushi Yan nodded.

“As far as I know, no beginning immortal venerable has a lot of treasures, one of which is the Dao Bell, the great Dao Bell. It’s his most powerful treasure, which is more powerful than all the Supreme weapons.”

“Moreover, this treasure is not only powerful. It also has a divine power that can suppress the void. Even ye Xi can’t escape from the suppression of this Bell.”

“I think the treasure that the night Lord and the others are looking for is this Dao Bell. This Dao Bell is hidden in one of the empty tombs.”

Jiang zhengdao said.

“The great Dao Bell! This is a good treasure!”

Ling Zhanxu’s eyes brightened, and the others were also excited.

They had all heard of the great Dao Bell. It was once known as the number one treasure below the celestial artifact!

“This void is too big. It’s too difficult to find A Grave!”

Then, they looked at the void in all directions and frowned.

This void was boundless, where could he find a tomb? This tomb might not be in this void. Just like the Dragon burial ground, it was in a small world and only a small entrance was left in this world.

“Try your best to find it! We can’t let the night Lord and the others get the great Dao Bell first, or else that Tang kid will be in danger!” Ling Zhanxu said.

“Alright!”

“No matter what, we have to try!”

Jiang zhengdao and the others nodded and said resolutely.

The reason why they had joined forces was because of Tang brat. They were betting that he would grow up and become a peerless giant. Anything that threatened Tang brat must not fall into the hands of the opponent.

“Seniors, there’s no need to be anxious!”

Tang Hao smiled and said, “it’ll be best if we can find empty tomb before them, but it’s fine if the night Lord and the others find it first. I’ll know immediately, so don’t worry.”

With that, a light flashed above Tang Hao’s head. His golden primordial spirit flew out, followed by countless split souls.

These split souls scattered in all directions and began to search.

“Good! Let’s make our move!”

Ling Zhanxu and the others all unleashed their techniques and began to search.

Countless split souls, divine senses, and treasures searched the void thoroughly, not letting go of a single corner.

Along the way, they encountered many ancient sites. Most of them had already been searched, and occasionally there were some that were still intact. They searched them and had quite a lot of gains.

Two months passed just like that.

That day, they continued their search as usual. Suddenly, Yu Shixuan seemed to have discovered something. She opened her eyes as she sat cross-legged on the deck.

“I’ve found something!”

She exclaimed in a low voice.

Tang Hao, Ling Zhanxu, and the others opened their eyes and looked at her.

“In that direction, there’s a star Fragment with a historical site on it. It’s a little strange, as if there’s a mark left by Wu Shi.” Yushi min stood up and pointed into the distance.

Everyone’s spirits were lifted as they stood up and steered the ship away.
