

The Mightiest Little Peasant Chapter 2225

“Double layers with twelve petals ... The power of my Red Lotus true fire is not only comparable to the purple void Heavenly Fire, but it has even surpassed it by quite a bit!”

“I wonder if the other six islands have the same killing formation. If I can devour more, my primordial fire will become even stronger, crushing the Vermilion Bird fire and the great void fire to become a true Supreme primordial fire.”

Tang Hao muttered to himself.

He looked around, but he was thinking about the other ten terminal formations.

“However, that senior said that the seven islands have different ten extreme formations, so the chances of the same killing formation appearing are very small. Even if there is, it might not be the purple sky Fire.”

Tang Hao furrowed his brows when he thought about that.

“Forget it, it’s more important to break the formation. The night Lord and the others will arrive soon. We don’t have much time!”

After a while, Tang Hao shook his head and abandoned the thought.

“Congratulations, Tang kid!”

Ling Zhanxu and the others stepped forward and congratulated him. Their expressions were filled with envy.

They could tell that this Tang kid had obtained another great fortune!

“Seniors, this is all thanks to you. This junior will remember this kindness!” Tang Hao said as he bowed.

If it weren’t for the seniors helping him block it, he wouldn’t have been able to easily collect the fire essence, and he wouldn’t have had such a great fortune!

“Hey! What are you saying!”

“You’re treating me as an outsider!”

Jiang zhengdao and the others laughed.

“Let’s go! We need to hurry!”

Under Jiang zhengdao’s lead, the group moved forward and entered the third killing formation.

This was an illusory formation.

Tang Hao had never been afraid of illusory formations. His most powerful ability was his primordial spirit, and he had a pair of heavenly eyes that could see through all illusions. No illusion could fool him, and he could break them easily.

He was the first to walk out of the illusory formation. He waited on the ancient path for a long time before he saw Ling Zhanxu and the rest coming out one after another.

When the last person came out, it was already four hours later.

They rested for a while and continued forward.

The fourth killing formation was also an illusory formation, but it was more difficult. This was because it was a heart demon formation that could shake a cultivator's Dao heart and create a heart demon in their heart. Once they were hit by it, there was a risk of Qi deviation.

Even if Tang Hao's Dao heart was as solid as a rock, it would not be easy to break through.

He took out all kinds of calming treasures and took out a few bottles of pills. He swallowed a few of them and tried his best to keep his spiritual altar clean.

It took him more than four hours to walk out of the killing array.

This time, he wasn't the first. Senior Shi Qing of the Shi clan had come a little earlier than him.

After him was Yu Shiling.

As the divine ancestor of the Yushi clan, Yushi Jie was quite famous among the seven tribulations. She was quite powerful, and her cultivation level was much higher than Ling Zhanxu's. Tang Hao was not surprised to see her.

After another ten to ten hours, everyone safely walked out of the formation, and Tang Hao was relieved.

As he stepped into the fifth killing formation, he saw a vast ocean in the middle.

"It's the water element killing formation. Fellow Daoist rain master, your good fortune is here!"

The cultivators looked around and turned to Yu Shixuan.

The fifth killing formation was obviously the same as the second fire killing formation. It was filled with water Essence, formed by all kinds of rare water. The rain master clan was best at water Daoist magic, so the water Essence was the most useful for her.

Yushi min looked around, and her eyes lit up.

"I'll help you collect some!"

Tang Hao said with a smile.

To him, these water essences weren't of much use. He might as well give them all to fellow Daoist rain master to increase her strength.

"I'll have to trouble you then, Daoist Tang!"

Yu Shiyan replied.

"You're welcome!"

Tang Hao smiled. He took out a Jade bottle and began to collect the water Essence. Jiang zhengdao and the others took out defensive treasures to block the water Essence's attack.

Yushi Xuan took out a blue gourd and started collecting as well.

The two of them worked together, and they were able to collect all the water Essence in less than two hours. Tang Hao also found the formation flags and put them into his pouch.

After stepping out of the killing array, everyone rested for a moment before continuing forward.

At this moment, a streak of light flew over from the void.

It was a large ship with many figures standing on it.

The one in the lead was a handsome young man in golden armor.

He stood at the bow of the ship, and two beams of divine light shot out of his eyes, constantly scanning the void.

This was the night patriarch and his group. After they heard the bell, they followed the sound of the bell and chased after him.

"There's something strange up ahead!"

Soon, the cursed young master saw the Daoist temple in the distance.

"Those two words ... Are no beginning! Hahaha! We've finally found it. It can't be wrong. This is one of the five fake tombs, and also the one that hides the great Dao Bell. "

The night patriarch and the others looked over and were overjoyed.

For this treasure, they had searched all over the world, but to no avail. Now, the heavens had actually sent this treasure to their eyes!

As long as they could obtain this treasure, they would be able to easily kill that brat and end everything.

"That kid ... He won't be able to jump around for long!"

The corners of old demon Xue Yin's mouth twitched as a sinister smile appeared on his face.

"Let's go!"

The cursed young master couldn't hold it in any longer, and he waved his hand excitedly as he shouted.

The ship sailed away and stopped in front of the Taoist temple.

"That's the entrance!"

As soon as they entered the Taoist temple, they found the void passage above the yellow mud tomb.

"The sound of the bell has already spread throughout the entire world. The 33 heavens must have been alerted as well. I think it won't be long before the forces of the various orthodoxies arrive to snatch the Dao Bell. We have to get it as soon as possible."

"There are already people inside. I don't think they're any powerful figures, so there's no need to worry. If they manage to get the Dao Bell in advance, we'll just snatch it."

The night Lord said.

"Hmph! I don't think they would dare to fight with me for the treasure!"

"Hmph!" The cursed young master snorted.

"Hahaha! Maybe we don't even need to do anything. Just our formation alone is enough to scare the people inside to death!"

Li Changhe and the others laughed and flattered.

Then, they filed into the passage.

Not long after they entered, another divine light swept through the void. It was a few white-robed elders. They were tall and strong, and their expressions were cold and stern. They exuded an aura of might without being angry. On their robes, there was a tiger head symbol.

This was the symbol of White Tiger heaven.

These people were the 7th tribulation elders of The White Tiger heaven.

"It's this Taoist temple. The first treasure without beginning is inside!"

They looked at the Taoist temple with excitement.

They rushed over, entered the Taoist temple, and rushed into the passage.

Soon, more divine lights swept over continuously. The East Pole, the Vermillion Bird heaven, the purple void heaven ... These orthodoxies arrived one after another.

Behind them were the various races from the eight desolates.

For a time, dazzling divine light could be seen everywhere, one after another, in an endless stream.

The originally deathly silent void suddenly became unusually lively.
