

## The Mightiest Little Peasant Chapter 2243

Bang!

There was a loud bang.

A red godly ape from the ancient ape sacred mountain was smashed by the gods Palace. Its huge body exploded and blood and flesh splattered everywhere.

The next moment, the flesh and blood were absorbed by the formation hidden in the mountains, turning into the purest essence that Tang Hao swallowed.

“Oh my God!”

All the cultivators around were dumbfounded.

Those giant beasts were all powerful existences at the seventh tribulation. However, they had all fallen one after another and died here.

What shocked them even more was that the flesh and blood of these beasts seemed to have been devoured by Tang shenjun. His aura was rising rapidly and becoming more and more shocking.

Every time a giant beast died, his aura would increase by a few times.

“This is crazy! This is crazy!”

All the cultivators muttered in shock.

No one would have thought that things would turn out like this!

In their opinion, after breaking through the outermost formation, the creation gate would be destroyed and divine Lord Tang would have to escape.

However, they did not expect that not only did divine Lord Tang not escape, but he also triggered the immortal Meridian under the mountain of fortune. He turned the defense into an attack, catching the night Lord and the others off guard. Then, he launched several killing tribulations and began to slaughter the entire tribe of untainted land.

“His target is the wilderness tribe!”

Very quickly, some xiuzhe came to their senses and exclaimed.

At that moment, they finally understood why divine Lord Tang had not left!

That was because his target had been the wilderness tribe from the very beginning!

The flesh and blood of the untainted tribe were Supreme treasures. Ordinary cultivators did not dare to covet them. However, divine Lord Tang was different. He was not afraid of the untainted tribe at all.

Previously, at Mount creation, he had cut off the flesh and blood of many ancient monsters of the untainted land and devoured them.

After that, the untainted clan had strengthened their defenses, and he could not make a move. But today, the untainted clan had delivered themselves to the door, and the seven tribulations of the major clans had almost turned out in full force.

Furthermore, the battlefield was at Mount creation, divine Lord Tang's territory. He had already set up countless arrays and was waiting for these ancient monsters!

"This is like pulling chestnuts from the fire!"

"This is crazy!"

After the cultivators understood this, they were all filled with shock.

This plan was a little crazy!

If it were them, they would not even dare to think about it. They would have fled the moment they heard the news. They would not dare to take such a risk like divine Lord Tang.

In this battle, Tang shenjun's opponents were not only the untainted clan, but also the Alliance of more than 50 clans. In addition, there were experts from the three great orthodoxies. If he was not careful, he would die Here.

"He seems to have succeeded!"

"No! Not yet, he has to be able to escape safely to be considered a true success. If he can't escape, he'll still die and all his efforts will be in vain!"

The cultivators discussed.

They looked at the figure standing in the air, shrouded in immortal radiance and as bright as the moon. Their eyes were filled with shock and awe.

No matter what the outcome of today's battle was, this person's courage and pride were enough to make them admire him.

"Damn it!"

"Not good!"

At this time, the night patriarch and the others also realized Tang Hao's purpose and their expressions changed.

They had never thought that this kid would be so bold!

"Stop him!"

"I can't let him continue!"

The night patriarch, young master divine curse, and the others roared hoarsely, their expressions twisted and crazed.

Their hearts were burning with anxiety.

This guy's cultivation base had long reached the realm of more than 30 drops of immortal blood. With that strange immortal mansion, the combat power he erupted with was comparable to that of a hundred blood expert. If he was allowed to grow further and reach the true hundred Blood Realm, how terrifying would his strength become?

In the ancient cities of the various races, the elders madly activated their celestial core power and poured it into their ancestral weapons.

The incarnations of the ancestor's blood expanded a little more, and their power became even stronger.

At the same time, they began to activate the ancient city. They activated the killing formation set up in the ancient city and blasted it down.

"Damned brat!"

"Stop!"

The group of ancient monsters were even more furious.

They roared madly and pounced toward the figure, wanting to tear him into pieces.

"You're looking for death!"

"Die!" Tang Hao shouted. His eyes opened wide and shot out two beams of terrifying divine light.

He raised his palm and pressed it down. The gods Palace above his head came crashing down, smashing a green Luan that was pouncing at him. It staggered and fell to the ground.

In the next moment, he lifted his palm slightly and pressed it down again. The gods Palace smashed down again.

Bang Bang Bang!

A series of earth-shaking explosions rang out.

The blue Luan's flesh and blood burst open, turning into a meat paste.

Then, Tang Hao's divine will moved. Streams of immortal Meridian Qi gushed out from under his feet and blasted the giant beasts that were pouncing on him from all directions, sending them flying.

He was in the middle of the mountain range, and there was an endless stream of immortal Meridian Qi under his feet. At this moment, he was almost invincible.

He kept summoning the killing tribulations and summoned the gods Palace to continue his massacre.

More and more ancient beasts died here. Their flesh and blood were absorbed by the formation and turned into pure essence, which was then absorbed by him.

50 drops of blood, 60 drops of blood ...

The amount of immortal blood in his body was skyrocketing.

Soon, the number of drops of immortal blood had broken through one hundred.

This also meant that he had truly advanced to the realm of hundred blood.

In Pangu, there were quite a number of seventh tribulation cultivators, tens of thousands of them. However, among them, there were only a few hundred hundred hundred hundred blood cultivators.

At this moment, in terms of cultivation, he had already surpassed most of the seven tribulations.

His cultivation continued to rise.

After reaching hundred blood, his combat strength had soared. Even without the formation, he could easily kill those ancient beasts. Now, it was even easier to kill them, and his cultivation level rose faster.

“Human brat, stop!”

Suddenly, a loud shout came from the sky.

A Golden-winged ROC swooped down, spreading its wings and pouncing over.

“Get lost!”

Tang Hao looked up and said coldly, “I don’t want to slaughter your ROC clan for the sake of senior ROC King. If you know what’s good for you, you’d better get lost!”

“You ... What a big tone!”

The great ROC let out an angry roar.

He was not an ordinary 7th tribulation expert. His cultivation was comparable to a human thousand blood expert.

He let out a shrill cry, and the divine light on his wings suddenly brightened. As he flapped his wings, two beams of divine light shot out from his wings, bombarding the figure below.

“Hmph!”

Tang Hao was not afraid. He activated the gods' Palace with all his might and blasted it upward.

BOOM!

The Golden divine light collided with the immortal Palace and exploded into a boundless brilliance.

The next moment, the divine light disappeared, and the immortal Palace only trembled a little.

When the ROC saw this, it was shocked. Its full-powered attack had been easily blocked by this human brat.

“Not good! Hurry up and run!”

He immediately realized that as long as he was in the formation, he would not be able to defeat this kid. It would be futile for the untainted clan to continue fighting. They could only allow this kid to slaughter them.

He scuttled up and called for the members of the ROC clan to escape.

Tang Hao did not stop them. After all, he had obtained the king ROC's divine halberd and had some ties with the ROC clan. It would not be good to kill them all.

However, Tang Hao did not hold back at all for the other primeval bloodlines. He activated another great formation and trapped them all in it, then continued to kill them.

His aura continued to surge, and soon, it broke through from 100 immortal blood to 200, then 300 ...

” 500 hp!”

After a long time, he swallowed the essence of a divine ape and condensed two more drops of immortal blood in his body, successfully advancing to the realm of five hundred immortal blood.
