

The Mightiest Little Peasant Chapter 2253

“Let me see!”

Tang Hao opened the Jade scroll.

“It’s indeed the Nirvana Sutra. However, it’s incomplete. It only contains the most basic mental cultivation method.” A moment later, he withdrew his divine sense and handed the Jade slip back to young master Li.

“It’s really the “Nirvana Sutra”! That means this sect is the Nirvana sect!”

Li gongzi said.

She paused for a moment before continuing. “This sect is an inheritance from the ancient Zhen Wu orthodoxies. There are also some orthodoxies called the Nirvana orthodoxies. This orthodoxies is extremely ancient and is not inferior to my Vermillion Bird orthodoxies. They have a ‘Nirvana Scripture’ that once shook the ancient era and was extremely famous.”

“After the war in the ancient times, they followed Pangu like the other orthodoxies and founded the Nirvana sect. They were once glorious.”

“This sect ... Has a deep connection with me!”

Tang Hao looked around and sighed.

On his path of cultivation, the Nirvana Sutra had been the most helpful to him. It had saved his life several times. If not for the Nirvana Sutra, he might not have been able to reach where he was today.

“What a pity!”

Then, he sighed again.

This world had been abandoned for a long time, and the Nirvana sect had probably died out long ago. He could not do anything even if he wanted to repay them.

“Oh? What is the relationship between brother Tang and this Nirvana sect?”

Li gongzi was surprised.

“I’ve cultivated the Nirvana Sutra before, so I can recognize that this Jade slip contains an incomplete mental cultivation method.” Tang Hao said.

“I see!”

Li gongzi said in realization.

“It seems that brother Tang’s relationship with this sect is not ordinary!” Then, she sighed.

She had brought brother Tang here on a whim. She didn't expect that this place would have such a connection with him. It was too much of a coincidence.

Tang Hao sighed with emotion, then continued to explore with Master Li.

The further they went, the closer they were to the center of the ruins, and the more treasures they excavated. They also found a lot of fire essence in those Flaming Mountains. Tang Hao took action and collected them all.

With his current strength, even if it was a seventh tribulation fire essence, he could easily capture it with one hand.

"This aura is ..."

Suddenly, Tang Hao stopped in his tracks. His face was filled with shock.

Not far ahead, he sensed an extremely powerful fire element Qi.

"This is ..."

Li gongzi looked forward, and her pretty face also changed slightly.

"This aura ... Seems familiar!"

Tang Hao furrowed his brows when he sensed it again.

This aura, he had an unusually familiar feeling.

"That's right, it's the true Nirvana Qi!"

"Ah!" Tang Hao suddenly remembered something.

This aura was the aura of true Nirvana, which was exactly the same as the aura he had encountered in the land of Nirvana of the divine Phoenix in chaotic World Mountain.

"True Nirvana Qi? Could it be the true Phoenix nest?"

Li gongzi exclaimed in a low voice, and his expression suddenly became excited.

A true hou's lair was a peerless treasure land!

"It shouldn't be wrong!"

Tang Hao was excited.

When he was in the Nirvana land of chaotic World Mountain, he had obtained the essence left behind by the Nirvana of a true Phoenix. His cultivation had soared and he had broken through the bottleneck in one go. There must be better treasures in the true Phoenix nest in front of him.

The two of them immediately sped up.

Soon, a huge Valley appeared in front of them. In the middle of the valley stood an ancient tree that was thousands of feet tall.

The wood was bare without a single leaf. It was completely red and exuded a scorching aura.

“This is ... Phoenix perch wood!”

Li gongzi exclaimed in a low voice, with a look of surprise on his face.

“What a big one!”

“Wow!” Tang Hao exclaimed. He was extremely happy.

This Phoenix-dwelling wood was a Supreme-grade divine material. The hardness of the wood surpassed most gold and iron. It was the best of all wood.

Moreover, this tree was extremely rare and only grew in the habitats of real phoenixes and real phoenixes. Even a small branch was worth a city. However, the one in front of him was a Phoenix-dwelling tree that was thousands of feet tall.

This time, they struck it big!

“What is this?”

After a long while, Tang Hao finally shifted his gaze away from the Phoenix-dwelling tree and swept it across the valley.

Under the Phoenix perch wood, he discovered some kind of crystal. It was Scarlet gold in color and extremely dazzling. It also emitted a shocking immortal Qi, like some kind of spiritual essence.

“It should be a Phoenix marrow crystal. It’s a true Phoenix, condensed from the blood essence of a true Phoenix. It contains a great amount of energy and is a Supreme-grade spiritual essence!”

Li gongzi said excitedly.

“It’s similar to the Dragon blood Crystal.” Tang Hao said.

“This item is even more precious than the Phoenix perch wood. Just a small piece of Phoenix marrow crystal is enough for me to condense a drop of Vermilion Bird immortal blood.” Li gongzi landed and looked at the Phoenix marrow crystals all over the ground, and said happily.

“Then I’ll have to congratulate brother Li first!” Tang Hao cupped his hands and smiled.

"It's all thanks to you, brother Tang. If it weren't for your help, I wouldn't have been able to reach this place and discover this treasure land." Li Gongzi said, "by right, I'll give you half."

"There's no need for that!"

Tang Hao waved his hand and refused.

Compared to him, young master Li needed these spiritual essences more. Besides, this place was the trial ground of Vermillion Bird heaven, and it was young master Li who brought him here. If there was any treasure, it should belong to Vermillion Bird heaven.

"Just give me half of that Phoenix perch wood!"

Tang Hao said as he pointed at the ancient tree.

"Alright!"

Seeing Tang Hao's determined tone, Master Li did not argue.

She descended and began to collect the Phoenix marrow crystals.

"Eh? What is this?"

A moment later, she cried out in surprise. Tang Hao turned around and saw a strange object inside the Phoenix marrow crystal that she had dug out. It was wrapped in the crystal and could not be seen clearly, but he could vaguely make out that it was a round object.

"This ... Is an egg?"

After peeling off the outer layer of crystals, the two of them looked again and were stunned.

The object inside was clearly an egg, a perfectly round, pure gold egg!

"It ... It can't be ... A true Phoenix's egg, right?"

The two of them looked at each other in disbelief.

"It can't be wrong!"

Tang Hao touched it.

The egg that was found in the true Phoenix nest, which was still wrapped in the Phoenix marrow crystal and carefully protected, what else could it be other than a true phoenix egg?

Looking at the egg, the two of them laughed bitterly.

True phoenix egg, this name sounded very powerful, but this thing was the same as a true dragon egg, it actually didn't have much use and was very useless.

This was because it was too difficult for top creatures like true phoenixes and true dragons to grow. No one could afford to raise them now.

Even if they could hatch the egg, so what? there was no way to raise it.

"Brother Tang, do you want it?"

Li Gongzi laughed bitterly and looked at Tang Hao.

Even though her Vermillion Bird sky was rich, she couldn't afford to raise a true hou!

"This ... is of no use!"

Tang Hao looked at the egg for a long time before he finally uttered a curse.

True phoenixes and true dragons were just useless things in his eyes. In the lower realm, he still had a little Golden Dragon, which was also a true dragon, but he didn't want to raise it at all.

"Forget it! Forget it!"

Seeing that Master Li had no intention of adopting him, Tang Hao could only say helplessly.

"Consider it as repaying the Nirvana Sutra!"

Tang Hao mumbled to himself. He stepped forward and put the egg away.

After collecting all the Phoenix marrow crystals in the valley, the two of them put away the Phoenix perch wood and split it half each. Then, they left the valley and continued their search. They had gained quite a lot.

It took them several days to thoroughly search the place.

This time, their harvest was not small. All kinds of tribulation weapons, medicinal pills, and cultivation techniques were piled up, not to mention treasures like the Phoenix perch wood and the Phoenix marrow crystal.

According to Tang Hao's estimation, the spiritual essence that Master Li got this time was enough for her to condense sixty to seventy drops of immortal blood and easily advance to the realm of hundred blood.

"It's good to have a good background!"

Tang Hao was quite emotional. He had also gone through a lot of trouble to advance to the realm of hundred blood, but Master Li could reach hundred blood so easily. It was really unfair.

“It’s all thanks to your blessing, brother Tang!”

Li gongzi pursed her lips into a smile and said in a delicate voice.

“I’ve obtained such a great opportunity this time. I have to go back and cultivate in seclusion. I’ll come to you when I come out!”

“Alright!”

After the two returned to Pangu, they parted.

Tang Hao wanted to return to the sect, but he suddenly stopped as if he had remembered something.

“Oh right, how could I have forgotten about the mine in the North Sea!”

He thought of the ice sea divine iron ore in the depths of the North Sea.

At that time, he went with young master Li and only dug a little.

“I can’t waste such a good thing!”

“I’ll go with you,” Tang Hao mumbled. He changed direction and headed toward the North Sea.
