

The Mightiest Little Peasant Chapter 2296

Somewhere in the eight desolates, a figure was sitting on a barren mountain.

Under the cold moonlight, the figure looked lonely and lonely.

“Al!”

He raised his head, looked at the sky, and sighed deeply.

The face that was illuminated by the moonlight was filled with melancholy and melancholy.

“How did this happen?”

His brows furrowed, and a look of confusion appeared on his face.

Even now, he still could not understand how things had turned out like this. How did that Tang guy reach 3000 HP in just a dozen years?

“It’s so F * cking evil!”

After thinking for a long time, he still didn’t have any clues, so he could only curse angrily.

Then, he revealed a melancholic expression and sighed.

In just one day, he had experienced the ups and downs of life. He had fallen from the peak of his life to the bottom of the valley. This feeling was simply too F * cked up!

At this moment, he felt that he had lost his goal in life.

No matter how hard he tried, he just couldn’t win against that Tang guy. What was the point of him working hard then?

“No, I can’t be so dispirited. I, Liu heihu, have suffered a lot in the past, but I’ve survived it!”

After sighing for a long time, Liu heihu suddenly sat up. He straightened his back, and his face glowed with a new light.

Liu heihu was nothing but a tough guy who refused to admit defeat.

In the past, there had been bigger blows than this, but he had still pulled through and lived well!

“I have 100 hp and he has 3000 HP. It seems like the difference is huge, but it’s actually nothing. As long as he doesn’t reach the eighth tribulation, I have plenty of opportunities to catch up with him!”

“Besides, I’m not alone anymore. I have an eighth tribulation as my backer. I’m still more powerful than this guy!”

Liu heihu thought for a while and his confidence came back.

That's right! What was there for him to be dispirited about? he still had an 8th tribulation expert backing him up. As for that Tang guy, he had nothing. The blood Emperor from before was nowhere to be seen. It was said that he was being hunted down by the great void sect master!

Liu heihu had a much stronger backer.

Moreover, this eighth tribulation was not an ordinary person. He was an ancient figure and was much more powerful than the blood Emperor.

"I'm so stupid. I have such a powerful backer, but I don't need it. With that old man's help, I'll dare to dig any grave. As long as I can dig out a few immortal pills, I'll be rich. If I don't have immortal pills, I can use Immortal Weapons. I'll beat the sh * t out of that Tang guy with a few immortal pills!"

Liu heihu fantasized and laughed.

"Let's do this, dig the immortal grave!"

The more Liu heihu thought about it, the more excited he became. He jumped up impatiently and rushed toward the east Sea.

"Did Liu heihu come?"

A few days later, Tang Hao came out of the cave abode and heard about the incident from Master of Fortune.

He wasn't surprised that Liu heihu went to the gate of fortune. What surprised him was that Liu heihu had a hundred blood cultivation as soon as he came out of seclusion.

"It seems that he has accumulated a lot of treasures over the years!"

Tang Hao's eyes glowed.

Liu heihu had an extraordinary luck and was good at stealing treasures. He had always carried a lot of treasures with him.

"He ran away after hearing that you had 3000 HP!"

Said Zao Huazi happily.

Tang Hao also smiled.

"This Liu heihu is also a monster!" Said Zao Huazi with a sigh.

Liu heihu was quite famous in the past, but he wasn't the best. There were many more geniuses who were more brilliant than him, such as the geniuses of the Jiang clan and the Yao clan.

But now, these geniuses were nowhere to be seen. On the other hand, Liu heihu had broken through the seventh tribulation and reached the hundred blood level, becoming one of the few powerful figures in the eight desolations.

If not for elder Tang, Liu heihu would have been the most powerful genius in the eight desolates.

"Isn't that so!"

Tang Hao smiled.

This Liu heihu had always been a strange existence. Back then, out of all the monstrous geniuses in Qiyuan, only he and Liu heihu managed to walk out of it.

"He ... Will there be any problems?"

Said Zao Huazi hesitantly.

"Don't worry!"

Tang Hao said with a smile.

Liu heihu and him had some grudges, but it was not a life-and-death feud. It did not matter. Besides, he was confident that he could keep his opponent under control.

"That's true! Now that the Liu Clan is on our side, he won't act rashly!"

After pondering for a while, Zao huaizi felt relieved.

After sending off Zao Huazi, Tang Hao took care of the herb garden and the Buddhist Kingdom. He had been busy repairing the divine boat and had no time to care about other things.

Then, he inquired about the news from all sides.

Just as he had expected, the Yuchi race on devil Dao mountain hadn't made any moves. They clearly knew that they couldn't deal with him and were waiting for the devil Dao ancient Emperor.

On the other hand, there were some movements in the great void heaven and the divine curse heaven. After he contacted young master Li, he found out that these orthodoxies were all contacting their seniors.

"As expected!"

Tang Hao was not surprised.

When young master Li told him about the secret technique of star transformation, he realized that there were old monsters of star transformation in these orthodoxies.

However, according to young master Li, these old monsters were not easy to find. Once they turned into stars, the cultivator would fall into a deep sleep. Moreover, the place where they turned into stars was extremely hidden and difficult to find.

“These old monsters all have thousands of HP. They might even have close to 10000 HP. They are indeed a threat!”

Tang Hao was on his guard.

He asked young master Li to help him and continue to pay attention to the movements of these orthodoxies.

On the Yao clan’s side, there seemed to be some movement. There was news that the Yao clan’s ancestor was preparing to become an alchemy God in order to rope in Saints from all over the world and strengthen the Yao clan’s power to fight against him.

“If he really succeeds, with the title of Pangu’s first alchemy God, he can indeed attract many old monsters.”

When Tang Hao heard the news, he even considered whether he should become an alchemy God in the near future.

However, after thinking about it, he still gave up. It was not easy to become an alchemy God. His top priority was to repair the divine boat.

With the divine boat, he would not be afraid of the 8th tribulation.

And assailing the alchemy God Realm was not of much help to him.

He then inquired about the situation in the North Sea. After there was no movement, he was relieved.

He peacefully went into seclusion and continued to repair the divine boat.
