

The Mightiest Little Peasant Chapter 2314

Tang Hao had nothing to hide about the origin of the silver God, so he explained it in detail.

“So there’s such an origin!”

When numinous treasure Dao master and the others heard this, they were greatly amazed.

Their attitude also became more enthusiastic. The relationship between little friend Tang and that God was deeper than they had expected.

“You’re so lucky, little friend Tang! With this layer of relationship, the people who want to touch you will have to think twice!” Numinous treasure Dao master laughed.

As he spoke, he glanced at the void warship.

The great void, the divine curse, the three heavens of the South Pole ... He was well aware of their grudges with little friend Tang.

“And that group of animals. Did you see that bird just now? it ran away so quickly that it didn’t dare to cause trouble for our young friend Tang!” Emperor Xu Yuan stroked his long beard and laughed.

Originally, little friend Tang had ruthlessly scammed the flat-feathered bird and collected so much flesh and blood, so the flat-feathered bird would definitely not let him go. But now, he escaped faster than anyone else. It was obvious that he was afraid of that God.

“Hahaha!”

The group of venerable sovereigns laughed.

Looking at this scene from a distance, the xiuzhe from all four sides were slightly envious.

Being able to chat and laugh with so many eight tribulation venerable sovereigns was something that many people dreamed of!

“That’s right, seniors, this is a small gift from junior, I hope you can accept it!”

A moment later, Tang Hao took out the Jade bottle that contained the green wood essence and poured out twenty-one drops.

The seven venerable sovereigns here had three drops each.

“How ... How can this be?!”

Seeing the green wood essence, the venerable sovereigns were stunned and envious at first, but then they waved their hands in a hurry.

They were well aware of the value of these drops of essence. They were unparalleled divine items and they wanted them. However, they felt a little embarrassed. They were venerable sovereigns, all of them with high status. How could they take something from a young junior?

“You can’t do this!”

Emperor Xu Yuan looked at the few drops of essence and almost swallowed his saliva. However, he still gritted his teeth and refused.

If it was in private, he would have accepted it long ago, but now, in front of so many people, he really couldn’t accept it.

“Ai! Seniors, you’ve also put in a lot of effort this time, so you can’t return-handed. Please accept this little gift!”

Tang Hao took out a few more Jade bottles, filled them with the essence, and stuffed them into the venerable sovereigns’ hands.

“Aiya! Little friend Tang, you’re too polite! How can I accept this! But ... Since little friend Tang is so insistent, I’ll be disrespecting you if I don’t accept it. I’ll accept it reluctantly!”

“Little friend Tang, you’re so enthusiastic that I’m embarrassed not to accept it. Don’t worry, I won’t accept it for free. Don’t! Alright, I’ll let you remember this favor and return it in the future.”

The venerable sovereigns pretended to decline, but they still accepted it. Even venerable golden scales could not resist the temptation.

They were more enthusiastic after receiving the gifts. Emperor Xu Yuan was almost calling Tang Hao his brother.

“Little friend Tang, ah, I’ll be leaving first. If you have time, come to my Xuyuan mountain for a cup of tea!”

Before he left, Emperor Xu Yuan gave Tang Hao a token that allowed him to enter and leave Mount Xu Yuan.

This Xuyuan mountain was the same as the devil Dao mountain. They were both venerable sovereign cave abodes in the vast void.

“Little friend Tang, if you’re free, come visit our spirit treasure heaven! There are many treasures in the spirit treasure heaven!”

Numinous treasure’s master was the last to leave. He looked at Tang Hao with admiration.

This young man was indeed extraordinary. Not only was he talented in cultivation, but he also knew how to conduct himself well. One had to know that the green wood essence was a peerless divine item. No ordinary person would give it away after obtaining it.

He knew that if he got it, he wouldn't give a single drop away. This thing was too precious to him, and he couldn't bear to give a drop away.

However, this young man took out 21 drops at once. This was a huge sum.

"I will! I will!"

"Okay," Tang Hao replied with a smile.

After sending off the venerable sovereigns, Tang Hao headed toward the crowd and met up with Master Li, Yu Shimin, and the others.

"Congratulations, fellow cultivator Tang!"

Before Tang Hao arrived, a group of thousand-Blood Warriors came up to him and congratulated him.

They were all envious. Although they had some gains this time, it was far from being comparable to fellow Daoist Tang. The best they had received was a stalk of immortal medicine, but fellow Daoist Tang had not only received two stalks of immortal medicine, but also six pieces of Green Phoenix flesh and blood, as well as the essence of the green wood Divine Spirit.

More importantly, he had received a favor from the seven venerable sovereigns, which was much more than a simple treasure.

"Hmph! This guy ... What's there to be proud of!"

"Damn it!" The cursed young master cursed angrily on the void warship not far away.

Daoist Xu Heng's face was also extremely gloomy. They had prepared for this operation for a long time and had even invited three senior Hua Xing. They had thought that this lineup would be enough to kill this brat. However, in the end, not only did they not kill this brat, but they had also given him a great opportunity.

And the appearance of that God made him even more worried.

"Let's go! Go and bring the three seniors back!"

He shouted and steered the ship towards the three star realm cultivators.

"This brat ... I'll deal with him in the future!"

The three of them stared at Tang Hao for a moment, then flicked their sleeves in frustration and boarded the warship.

Then, the ship started to move and left.

In the crowd, Tang Hao raised his head and watched the warship leave.

He furrowed his brows and fell into deep thought.

“Brother Li, how much do you know about those three old monsters?” After a while, he turned around and looked at Li Gongzi.

“Not many!” Li Gongzi shook his head, his expression solemn, “this time, the great void heaven has done a good job of keeping it a secret. I did not manage to find out any information beforehand ...”

“By the way, brother Tang, I have a very bold idea. I wonder if brother Tang is interested in it?”

Suddenly, she seemed to have thought of something, and her beautiful eyes brightened.

“Oh? What is it?”

Tang Hao was surprised.

“It’s inconvenient here, we’ll talk about it when we get back!” Li Gongzi smiled at him and blinked playfully.

After sending off the people from the various heavens, Tang Hao brought Zao Huazi and the others out of the underground cave and returned to the gate of fortune.

“Brother Tang, do you know that the star transformation secret skill is to create a star with a divine power, then merge one’s divine body and primordial spirit into the Star and become one with it? this is the so-called star transformation.”

“The stars can continuously absorb the energy of this world, and the cultivators can absorb the energy of the stars and turn it into their own celestial core power. This efficiency is more than a hundred times faster than the cultivation of the cultivators themselves.”

“In today’s world where immortal Qi is declining, this is the only way to break through to ten thousand blood.”

Young master Li sized up Tang Hao and smiled bitterly.

Of course, brother Tang is an exception. Without using the star transformation secret technique, you’re probably the first one in thousands of years to reach the blood Realm.

Tang Hao nodded, but he was still confused. He did not know what Master Li’s bold plan was!

Young master Li’s expression turned serious. He continued: “generally, when cultivators start to transform into stars, they will not easily stop. Even if they stop, the stars they create are still there. It’s just that their original body has been separated from the stars.”

“My plan is to find their stars and make them my own.”
