

## The Mightiest Little Peasant Chapter 2315

“Snatching the stars?”

Tang Hao was surprised when he heard that. It was a bold idea.

“Is that feasible?”

Tang Hao did not know much about the secret skill of planet summoning, so he did not know how feasible brother Li’s plan was.

Young master Li said: “as long as we can find their stars, I have the confidence to snatch it. The only difficulty is how to find these three stars.”

“The place where the stars are formed is usually located in a remote area. Some of them will set up layers of formations to hide the stars so that no one can find them. They won’t disclose their exact location.”

“In the various orthodoxies, even the Daoist Masters don’t know the locations of those planet realm cultivators. It wasn’t easy for each of the three orthodoxies to find one. It wasn’t easy for us to find these three planets either.”

Tang Hao nodded slightly. It was not easy to find a hidden star in the vast void.

The void was too big!

Moreover, there were many dangerous places in the void, unlike the lower realm’s starry sky, where one could move freely.

“However, no matter how difficult it is, it’s worth a try. Brother Tang, you don’t know how precious such a star is. Even if an ordinary individual cultivator reaches the thousand Blood Realm and obtains the star transformation secret technique, he can’t cultivate it because he still needs a treasure to transform into a star.”

“Oh? What kind of treasure?”

“Growing soil!” Li gongzi said word by word, “only by possessing this soil of breath can one create the core of a star, and from there, condense an entire star. And this treasure is related to the legendary divine item, the soil of breath.”

“The soil of breath was too rare. Even in ancient times, it was rarely seen. Therefore, some powerful people thought of a way to add other materials and refine a small piece of soil of breath into a large piece of soil of breath.”

“This piece of growing soil was obtained by the thirty-three heavens and divided equally. Every orthodoxy got a portion. Once someone can advance to the thousand Blood Realm, they are qualified to receive a small piece and use it to turn into a star.”

“All these years, the orthodoxies have used up a lot of them. There aren’t many left. Every piece used will be one less piece.”

“Moreover, even with the growing soil, it will take a long time to condense a complete star. As long as we can snatch their star, not only will we save on the growing soil, but we can also save a hundred years.”

Tang Hao pondered for a moment after he heard that.

To him, this star was not of much use. He did not need to transform into a star. Using the star transformation secret skill to increase his cultivation was too slow.

However, snatching the stars of these three old monsters was equivalent to raiding their homes. It would undoubtedly be a heavy blow to them and take revenge.

“These three old monsters almost caused me to die. If I don’t take revenge, how can I take this lying down?”

Tang Hao mumbled to himself.

It was not his style to not take revenge!

Not only did he want to take revenge, but he also wanted to take revenge ruthlessly.

“This star must be snatched!” Tang Hao said.

Li gongzi nodded and said: “I will discuss with the elders. In this regard, they may be more experienced. They can also send many disciples to help.”

Tang Hao shook his head. “That’s too much trouble. It’s like looking for a needle in a haystack. It’ll be years before we can find it.”

A few years was too long for Tang Hao. He could not wait.

“Then what should we do? If we want to find those three stars, we can only rely on this.” Li gongzi frowned and said, “do you have a better way, brother Tang?”

“Naturally, we’ll let the three old monsters lead us there.” Tang Hao smiled.

“You’re saying ... Track them?” Li gongzi was stunned, “but they may not go back. This time they failed to kill you, but they will not give up. They will plan to attack again.”

“At this time, we need to spread some fake news to scare them. The three old monsters will definitely take the bait.” Tang Hao grinned.

When it came to tricking people, he was the best.

“I can try!”

Li Gongzi hesitated for a moment and nodded.

“Go! Let’s turn around and go meet them!” Tang Hao turned around and beckoned to Zao Huazi. He told him to change direction and speed up.

He had to meet the three old monsters before they returned to thirty-three heavens.

“Yes!” Zao Huazi responded and immediately urged the ship to catch up at the fastest speed.

In front of Emperor Pan City, they finally caught up with the great void heaven’s warship.

“It’s this kid again!”

On the great void warship, Xu Heng, young master divine curse, and the others turned their heads, and their expressions changed as they cursed out loud.

“What? you won’t let me come to the city? Does this city belong to you three orthodoxies?” Tang Hao said with a smile.

“Hmph! Don’t be so smug, Tang kid! You were lucky this time, but you won’t be so lucky next time!”

“F \* ck!” The cursed young master with a livid face.

“If you hadn’t mentioned it, I would have almost forgotten. This time, it’s all thanks to these three seniors. If it weren’t for them, I wouldn’t have taken the risk to participate in the battle of the eight tribulations and wouldn’t have such a great harvest.”

As Tang Hao spoke, he cupped his hands at the three Hua Xing old monsters at the bow of the ship.

The three old monsters’ faces were cold and their eyes were gloomy.

How could they not hear the ridicule in this kid’s mouth?

“That’s right, three seniors, are you going back? If you stay here for too long, your cultivation will be delayed.” Tang Hao said.

“You don’t have to worry about that!”

The purple-armored old monster Hua Xing snorted coldly.

“Oh, really? I’m just worried that you’ll delay your cultivation. Also, I’m afraid that if you’re gone for too long, something might happen to your stars. That would be bad.” Tang Hao said.

Hearing this, the three old monsters’ faces changed.

“Seniors, don’t be so excited. I’m just saying. I believe that with the three seniors’ abilities, you’ll definitely hide the stars well and no one will find them.” Tang Hao waved his hand and smiled.

“I still have things to do, so I’ll be leaving first. See you again!”

After that, Tang Hao instructed Zao huaizi to drive the warship to the front of panhuang city and then into the city.

“This kid ... Is too arrogant!”

The star realm cultivator from the South Pole flicked his sleeves and snorted in anger.

He had never been humiliated like this before, and it was by a young kid!

“Three seniors, don’t be angry. We’ll be able to take care of this brat sooner or later.” Daoist Xu Heng said.

Only then did the three’s expressions ease up a lot.

But then, they seemed to have thought of something, and their faces turned ugly again.

“That brat can’t really be thinking of taking our few stars, right?”

The South Pole’s star realm cultivator said.

“This ... It’s hard to say!” “Yes.” The Almighty with the divine curse hesitated.”Although I don’t believe that the kid can really find it, I don’t know why, but I just feel a little uneasy.”

As he said that, a worried look appeared on his face.

He looked at the city, then raised his head and looked at the void above his head. He was more and more worried.
