

## The Mightiest Little Peasant Chapter 2316

"I'm also a little uneasy!"

The white-robed elder, who was a star realm cultivator from the great void heaven, also frowned and looked worried.

If someone else had said so, he wouldn't have been worried at all. His star was hidden very well. Not only was its location extremely remote, but it was also set up with layers of great formations, perfectly hidden.

But this kid made him feel very uncertain.

This kid was too freakish!

He had never seen such a freakish young man since he started cultivating. What if this kid really had some evil method to find his star? what would he do then?

With this brat's ability, once he found a star, he could completely take it for himself or destroy it directly.

No matter what the outcome was, he could not bear it.

"Senior, don't worry. That kid was just trying to scare you." The cursed young master said loudly, "the void is so big. Where is he going to find it?" Wasn't this like fishing for a needle in the ocean! He just wanted to scare you away!"

"This ... Makes sense!"

The white-robed old man nodded slightly.

"Three seniors, you don't know how cunning and treacherous this Tang guy is. He's done a lot of things like swindling and cheating. You can't trust a single word he says!"

The cursed young master said angrily.

He recalled the time when the divine Spirit Scripture was snatched away. At that time, he, the night Lord and the rest were all played by this kid.

"That's right! This brat is extremely cunning. Three seniors, you can't fall for his tricks!" Daoist xuheng agreed.

He looked a little anxious. These three seniors were his biggest reliance now. If he wanted to contend or even kill that brat, these three seniors must stay. None of them could leave.

The three star realm cultivators looked at each other. The worry on their faces could not be wiped away.

After all, the stars were too important to planet realm xiuzhe like them. They could not afford to make any mistakes.

Moreover, the cursed young master had also said that the kid was extremely cunning, and no one could guess his true purpose. What if he wasn't trying to scare them away, but really wanted to make a move on their Xingchen? that was why he had done this on purpose to numb their senses.

If they just stayed here and let the kid search for them, he might really find them in a year or two.

What to do?

For a time, they were extremely conflicted.

"Three seniors, let's go back first and have a good rest. We'll take action after we find a few more seniors who have reached the Hua Xing realm. We must kill that kid in one fell swoop." Daoist Xu Heng said.

The three of them hesitated for a while before nodding.

Since they couldn't figure out the kid's true intentions, they might as well stay and observe for a while.

With that, the ship sailed upwards and entered the great void heaven.

"I don't believe that none of you will take the bait!"

In the panhuang city, Tang Hao watched the warship leave and chuckled.

"What should we do now, brother Tang?"

Beside him, young master Li pursed her lips and said in a charming voice.

"It's time to add fuel to the fire. Go back and tell the elders of your Vermillion Bird heaven to send more people to the outer realm. They have to make a big scene, and the bigger the better." Tang Hao said.

"Understood!"

Li gongzi immediately understood.

"Then I'll take my leave first!" Then, she bade farewell and turned into a divine light to leave.

"Let's go back!"

Tang Hao brought Zao Huazi and the others back to the gate of fortune.

Ling Zhanxu, Yu Shijie, and the others had all left halfway back to their respective clans. However, there were three people who stayed behind and returned to the gate of fortune with them. They were the three divine ancestors of the three firmaments.

“Please, the three of you!”

With great enthusiasm, Zao Huazi led the three of them into the main hall.

“You’re too polite, creation sect master!”

“This gate of fortune is much more magnificent than I had imagined. Look, it’s really extraordinary!”

After the three of them entered the gate of fortune, they looked around and exclaimed.

Tang Hao followed her into the main hall. He accompanied her for a while before returning to the cave abode.

The matter of the three of them joining the sect had been decided long ago. At the beginning, when creation master had approached them to discuss it, the three of them had already had this intention. However, they had not agreed, saying that they would consider it. However, on the way back, before creation master could look for them again, they had taken the initiative to come to them and said that they wanted to join the creation sect.

Naturally, Tang Hao was more than happy to have such a good thing happen. With the addition of these three people, the creation sect would have three more seven-tribulation Sir gods and their strength would increase significantly.

6th tribulation disciples were the main pillar of a sect, while 7th tribulation disciples were the top combat strength. The more such people there were, the better. Only then would the position of the creation sect be more stable.

After returning to his cave abode, Tang Hao sat down and activated his heaven’s eye. He peeked into the great void heaven and did not discover anything. Then, he retracted his heaven’s eye and took out all the gains he had obtained.

Two immortal herbs, six pieces of Green Phoenix flesh, and a bottle of green wood essence.

This was all he had gained.

“Why don’t we keep these two immortal herbs first ...”

Tang Hao muttered to himself.

Originally, he wanted to swallow these two celestial elixirs, but he didn’t expect to obtain six more pieces of blue Luan flesh. According to his estimation, these six pieces of flesh were enough to increase his HP by 1500. Therefore, he didn’t need to rush to swallow these two celestial elixirs.

“I’ll first absorb these six pieces of the blue Luan’s flesh, then go to the lower realm and give this bottle of green wood essence to senior locust tree. The sooner senior recovers his strength, the sooner I’ll be at ease.”

Tang Hao quickly came up with a plan.

To him, senior locust tree was the most important and the most solid backing. The Blood King and the silver God were all unreliable.

He immediately began to absorb the flesh of the blue Luan.

In seven days, he had devoured all the flesh and blood and refined all the spiritual essence within. He had successfully condensed more than 1600 drops of blood, and his cultivation level had reached 6600 blood.

Tang Hao's strength had also improved by leaps and bounds after he gained 1600 HP. If he were to encounter those three old monsters again, he would not be afraid even if he had to fight three of them at once. With the addition of the old lion, he would be able to fight them.

"It's time to go to the lower realm!"

Tang Hao immediately set off to the ancient wilderness. He passed through the passageway and returned to planet Qi Yuan as fast as he could.

This time, not only did he bring back the green wood essence, but he also brought back many treasures, all for the Kunlun Sect.

The great danger that the silver deity had mentioned gave him a strong sense of danger, so he wanted to increase the strength of the Kunlun Sect as soon as possible.

When he saw the old locust tree, Tang Hao did not mention the danger. He only left the essence of the green wood, then found horizon, the Taoist masters, and monk fantasy ocean. He gave them all the treasures and told them to cultivate hard.

After returning to Pangu, he waited for another ten days before his plan finally succeeded. Among the three Hua Xing old monsters, one of them finally could not take it anymore and took the bait.
