

The Mightiest Little Peasant Chapter 2317

A figure came out of the South Pole Mountain Gate.

“No! I still have to go and take a look. If something really happens, it’ll be too late!”

He mumbled, his face full of worry.

During this period of time, he had been feeling a little uneasy. Moreover, as time passed, this sense of uneasiness in his heart became more and more intense.

He’d heard that the Vermillion Bird had sent out a large number of people into the outer-realm void. Even though the Vermillion Bird didn’t state their purpose, even a fool could tell that they were helping that Tang kid.

Who didn’t know about the relationship between that brat and the Vermillion Bird sky?

That girl from Vermillion Bird sky was in cahoots with that kid.

With the help of the sky of Vermillion Bird, the chances of that kid finding the stars would be greatly increased, which was why he was so uneasy.

The other two could still sit still, but he couldn’t. He had to go back and take a look to ensure the safety of his star.

“I’m just going to take a look and make sure everything’s fine!”

He mumbled and was about to turn into a divine light and leave.

Suddenly, he seemed to have thought of something. His body paused, and his eyes vigilantly swept around.

He had also considered that this was a trap set up by that kid in order to deceive the three of them so that they would take the initiative to lead the kid to find the stars.

“I’m fine! Maybe I’m just overthinking it!”

He took a closer look and heaved a sigh of relief when he did not find anything unusual.

“Hmph! Even if that brat is trying to trick me, it’s futile. With my void Divine Art, who in this world can grasp my whereabouts? that brat can’t even touch my tail!”

Then, he stroked his long beard and smiled smugly.

He had always been very confident in his void super power. Even if he wasn’t the first Pangu, he was definitely the second. Even those eight-tribulation venerable emperors wouldn’t be able to track him down.

That brat did have a Nightingale, which was also a void Cardinal treasure. However, this treasure was only suitable for escaping and assassinating. It was not suitable for tracking. Thus, he was not worried at all.

Then, he jumped up, turned into a divine light, and flew into the outer space.

After entering the void, he began to shuttle through the void frequently, hurrying towards the place where he had hidden his star.

After he left, a ripple appeared in the void near the South Pole Mountain Gate, and two figures stepped out. They were Tang Hao and young master Li.

“Let’s go!”

Tang Hao activated his heavenly eye and scouted out the location of the South Pole old monster.

Li gongzi nodded. With a wave of his sleeve, he took out her eight tribulations boat and sailed in the direction pointed out by Tang Hao.

The position of the old monster kept changing, and the speed was extremely fast. Young master Li pushed the speed of the treasure boat to the extreme, and then he could keep up.

In order not to be discovered, the two of them did not dare to get too close and kept their distance.

“This old man is really working hard!”

Tang Hao wanted to laugh when he saw the old man painstakingly change his position in an attempt to hide his tracks.

This old monster would never have imagined that he had such a pair of magical heavenly eyes. Once he was targeted by this pair of heavenly eyes, no matter how he changed his whereabouts, it would be in vain.

After ten days of tracking, the old monster finally stopped.

“It was indeed a false alarm!”

He looked at the void in front of him and heaved a sigh of relief.

He had hidden his star in this void, covered by layers of formations. The formation was not broken, which meant that the star was still here.

“This place is so remote. It should be hard for the people of Suzaku to find this place. Furthermore, normal cultivators can’t see through the formation and find my planet.”

He muttered to himself for a while and felt more at ease.

“However ... Although I’m fine for now, I can’t continue like this. I have to find an opportunity to get rid of that kid! If he is allowed to continue growing, he will definitely be a great threat to the South Pole!”

The next moment, he frowned and his expression became serious.

As long as that brat didn’t die, he wouldn’t be able to cultivate in peace, and his planet would still be in danger.

“A few days ago, the great void heaven said that they had contacted a planet realm senior. There is hope for them to invite him. With him joining, the situation will turn for the better. However, it is still not enough to get rid of that kid. They need to get at least three or four more Dao friends.”

He pondered for a moment before leaving.

Tang Hao and young master Li walked out of the void after he had gone far away.

“Over there!”

Tang Hao activated his heaven’s eye and scanned the empty space in front of him. He discovered the star that was hidden by layers of formations.

This star wasn’t very big and couldn’t be compared to the five great sage planets in the lower realm’s starry sky. According to the classification of the stars in the lower realm, it was the size of a medium-sized star. However, in terms of spiritual energy, it far exceeded the five great sage planets.

“One, two, three ... Good Lord, there are a total of thirty-six layers of formations!”

Li gongzi also activated his spiritual pupils and saw the star clearly.

“Thirty-six isn’t that many!”

Tang Hao smiled. In his eyes, these formations were as good as non-existent. With his current attainments in the Dao of formations, he could break them easily.

He was not in a hurry to make a move. Instead, he carefully studied the thirty-six formations and waited for the old monster to return to the South Pole. Then, he made his move and broke all the formations at the fastest speed, revealing the star again.

“Brother Tang, please! It won’t be too late for you to give this star to me after you’re done using it. ”

Li gongzi said.

The two of them had already agreed that after they obtained the star, Tang Hao would use it for a period of time before giving it to Vermillion Bird heaven.

Tang Hao nodded. Then, a golden light flashed above his head, and the Golden origin core clone stepped out and swept toward the star in front of him.
