

The Mightiest Little Peasant Chapter 2319

After setting up the formation, Tang Hao left with Master Li.

His first clone remained there, fusing with the stars and absorbing the energy in the void to raise his cultivation.

This clone would only be able to come out of seclusion and truly help him after more than ten years.

“The cultivation of my two avatars has been stabilized, but my main body has not. I have 6600 blood now, 3400 blood to reach the ten thousand Blood Realm. It will not be easy to fill this hole.”

Tang Hao sat on the boat and pondered.

He was still not satisfied with his cultivation speed.

The silver God’s words had been worrying him.

He didn’t know when this so-called drastic change would come, so he was particularly anxious. He wanted to improve his cultivation as quickly as possible and reach ten thousand blood as soon as possible before attempting to break through to the eighth tribulation.

If possible, he still wanted to attempt the ninth tribulation ...

Because the silver God had said that even with his realm, he might not be able to escape from this change. Therefore, only by breaking through to the ninth tribulation would he have more confidence in facing this change.

However, it was not easy to raise his cultivation. He had many opportunities in the past, which was why his cultivation had risen so quickly. Whether it was the flesh and blood of the chaos tribe or the treasure of the path of creation, they were both hard to come by.

He still had two immortal herbs on him, but he didn’t plan to devour them now. It wouldn’t be too late to devour them when his HP was almost 10000.

“Two immortal herbs can at least produce 400 to 500 drops of blood. In other words, I’ll have to collect enough spiritual essence to produce 3000 drops of blood.”

Tang Hao furrowed his brows.

3,000 HP, that was 12 pieces of blue Luan’s flesh. Where was he going to find that?

Last time, he had borrowed the power of Emperor Xu Yuan to obtain six pieces of blue Luan flesh. It was impossible for him to pluck a single hair from an eight tribulation beast with his own power.

“Why don’t we drag a group of venerable sovereigns and trick those bastards again?”

Tang Hao’s mind began to race.

“No! After what happened last time, those bastards won’t fall for it again. Plus, with their relationship with the silver God, they’ll probably hide in their own nests for the next few years and won’t dare to come out again.”

However, Tang Hao soon shook his head in disappointment.

It was impossible to fight those ancient beasts again in the next few years, so he had to find another way.

“Does brother Tang have any troubles?”

Seeing him frowning, young master Li took a sip of tea and smiled.

“Naturally, it’s cultivation!” Tang Hao said.

Li gongzi was stunned and somewhat stunned.

“Tang Hao, do you think that you’re not fast enough?” Her beautiful eyes widened in disbelief.

Brother Tang’s cultivation base was already monstrous enough. How could he be faster?

Tang Hao nodded and told him what the silver God had said.

After hearing this, Master Li’s face also became a little dignified. She knew that the words of a person at that level would not come from nowhere. This so-called drastic change was most likely true.

“I’ve never heard of such a saying before. However, the elders in the sect and the Dao master might know something. I’ll ask them when I get back and see if they know anything.”

Li gongzi said.

“If brother Tang really wants to improve your cultivation quickly, there are still ways. In this void, there are actually many relics and dangerous places, including some immortal ruins. If you can explore them, you will definitely gain something.”

“There are many records of such places in the ancient books of my Vermillion Bird heaven, but all of them are extremely dangerous, and there are often no chances of survival.”

After a pause, young master Li continued.

Tang Hao’s brows furrowed even more when he heard that.

In this void, there were indeed many places like this. There were many rumors about immortal tombs and divine tombs, but these places were too dangerous for him. Even with the devil Dao ancient Emperor’s abilities, he was still trapped in an immortal ruin. If it was him, he would have died.

“But I don’t recommend you to go, brother Tang. If you really want to go, you must be fully prepared.” Li gongzi said.

Tang Hao nodded and fell into deep thought again.

“Speaking of that devil Dao ancient Emperor, it’s already been more than a year. I’m afraid it won’t be long before he breaks free. The most important thing now is to solve this problem!”

“With my current strength, it’s not a problem for me to escape if I encounter him alone. However, I’m afraid that he will reach the gate of fortune. With the gate of Fortune’s current strength, it’s too difficult to stop an enraged venerable sovereign.”

“Although those venerable sovereigns owe me a favor, I’m afraid they won’t risk their lives for him. If we want to stop him, we have to rely on ourselves and my divine boat of creation!”

Tang Hao quickly came up with a plan.

The most important thing now was to repair the divine boat of creation. After more than a year of repair, the divine boat had been mostly restored. According to his estimation, it would be completely restored in another eight or nine months.

By then, this ancient path of creation’s super killer weapon would be able to reappear in the world and display its divine might. He would then truly not be afraid of the eighth tribulation.

Moreover, with the divine boat, he would have the strength to explore those dangerous immortal tombs and divine tombs.

At that time, he would definitely be able to find many opportunities to help him break through to the ten thousand Blood Realm.

“Brother Li, I wonder if you can sort out those locations and make a list for me. I want to wait for a while, and when I’m stronger, I’ll go and explore.”

“This ... Is fine, but you must be careful, brother Tang. You must not rashly charge in.”

Li gongzi hesitated for a moment, but still agreed.

When she returned to the Vermillion Bird sky, she compiled a list and gave it to Tang Hao.

After obtaining the name list, Tang Hao sat in the Vermillion Bird heaven for a while before returning to the creation peak. He needed to repair the divine boat of creation as soon as possible.
