

The Mightiest Little Peasant Chapter 2323

“That’s right!”

Tang Hao nodded and said teasingly, “I’m afraid you can’t destroy the gate of fortune on your own, senior!”

“Good! Then just you wait, when the formation is broken, let’s see if you can still be stubborn!”

Ancient Emperor laughed sinisterly as he activated the divine cauldron again.

Then, his body flashed, and a clone walked out. It was completely red and covered in flames of various colors. The aura it emitted was actually at the seven tribulations eight thousand Blood Realm.

The four Hua Xing old monsters were shocked and speechless.

Just a clone was more powerful than them. As expected of an eight-tribulation venerable sovereign, his magical power was far from what seven-tribulation venerable sovereigns like them could compare to.

“Another one, 5000 blood!”

“What else? this one is of the metal attribute, and the one just now was of the wood attribute. Could it be that there are five of them in total, and they are the five-element avatars?”

Then, the four of them were even more shocked. From behind ancient Emperor, five clones appeared. Each of them had a different aura, but the lowest was at least 3000 blood. All five of them had merged with the five elements Dao.

“That’s right! It’s a five-element clone!”

Ancient Emperor glanced at the four of them and said proudly.

These five doppelgangers could be said to be his proudest technique. Before he entered the sage realm, he had already refined these five doppelgangers. In the next few thousand years, he had spent countless efforts to cultivate these five doppelgangers, which had become his strongest assistance.

Among the venerable sovereigns, his five clones were the strongest.

“You can’t even compare to a clone of mine, and you want to fight me? my divine power is beyond your imagination!”

Ancient Emperor laughed coldly and then shouted at his five clones, “Go!”

The five avatars looked solemn. Light flashed behind their backs and array flags flew out. They were also the five elements array flags.

They formed a formation and activated the power of the five elements, attacking the creation formation below.

The five avatars were all powerful. After forming the five elements formation, the power they released was more than ten times stronger. Every time they attacked, they could shake the light curtain.

“I have many more of such tricks!”

The devil Dao ancient Emperor waved his sleeve and a few black flags flew out. A monstrous evil Qi poured out from them and turned into millions of ghosts that pounced toward the formation.

These malicious ghosts were all in the Saint realm, and many of them were even at the seventh tribulation.

After all the ghosts had pounced, the devil Dao ancient Emperor waved his hand and another golden gourd flew out. The lid opened, and countless fire crows rushed out. There were a million of them, and they all rushed towards the light barrier.

Following this, the devil Dao ancient Emperor waved his hand, and all sorts of treasures flew out. These were all the fire spirits and spirit beasts he had collected and raised.

“Heavens!”

The four old monsters were dumbfounded.

Any one of these treasures would make these planet realm cultivators red with envy. However, there were dozens of them.

The foundation of this ancient Emperor was too terrifying!

“I think senior ancient Emperor doesn’t even need to do anything. With just these methods, he can destroy the array and destroy the gate of fortune!”

The four of them couldn’t help but exclaim.

“Back in the divine tomb, I’ve seen those venerable sovereigns in action. In terms of cultivation, they are not any weaker than this senior ancient Emperor. However, in terms of techniques and treasures, they can’t compare to this one.”

“That’s right. Even the master of numinous treasure path, who is known for his numerous treasures, doesn’t have as many means as this one!”

The two star transformation realm old monsters of the South Pole and the divine curse realm discussed.

They had seen the venerable sovereigns go all out, so they compared this ancient Emperor to the other venerable sovereigns. The result shocked them. In terms of techniques, this ancient Emperor was far ahead.

“Kid, how is it?”

After unleashing all his techniques, ancient Emperor looked at Tang Hao and sneered.

“I really couldn’t tell that senior had so many treasures!”

Tang Hao’s eyes darted around as he examined the treasures. He almost drooled.

Not to mention the fire crows, just the million Saint level ghosts were enough to make him drool.

These were All Souls. If he devoured them all, his primordial spirit would become even stronger and might even break through to the level of a half step to 8th tribulation.

Ancient Emperor was stunned. He thought that after showing off so many tricks, this kid would be afraid. But he didn’t expect that not only was this kid not afraid, but his eyes were also green with greed.

“Hmph! You don’t know your place!”

He roared in anger, “BOOM! Break this turtle shell and wash the gate of fortune with blood!”

In an instant, the fire crows, ghosts, spirit beasts, and puppets all howled and charged madly at the formation.

“Actually, senior, you have come at a bad time. If you had come a month or two earlier, you might have had a chance to destroy my creation gate. Unfortunately, you are one step too late!”

Tang Hao smiled. “That’s good. I’ll use you, an eight tribulation venerable sovereign, to test the power of the gate’s most powerful weapon!”

“The most powerful killing weapon? What’s that?”

“Wait, a killing weapon? Don’t tell me it’s that thing?”

The four people at the side were stunned and confused at first. Then, as if they thought of something, they revealed a look of horror.

“This ... This is impossible! I heard from Xu Heng that he had indeed found that killing weapon, but it was already badly damaged. Without a few decades, it would be impossible to repair it!”

“It hasn’t even been two years! How is that possible?”

They cried out in shock, their faces filled with disbelief.

Of course, they knew about the creation divine boat. However, they did not think much of it. That was because the divine boat was already damaged. More than half of it had been destroyed. Repairing it was very complicated. Even the ancient path of creation would have to spend close to ten years to repair such a huge divine boat.

With the current Foundation of the creation sect, it would take at least 50 years to completely repair it.

But now, it had not even been two years, how could it be repaired?

“A killing weapon? Was it a creation divine boat? Hahaha! How is that possible?”

Ancient Emperor didn't believe it either and laughed out loud.

But very quickly, his laughter stopped abruptly. His expression froze, and his eyes widened, revealing extreme shock.

Under his gaze, an unimaginably huge ship suddenly appeared in the sky above the mountain range. Its entire body was golden, and the light it emitted was like the sun, so bright that people couldn't look at it directly.

“Oh my God!”

On the side, the four planet realm old monsters raised their heads and looked at the huge ship that covered the sky. They were once again dumbfounded.
