

The Mightiest Little Peasant Chapter 2327

In the void, a huge ship was speeding.

The Golden battleship shone with a dazzling divine light. From a distance, it looked like a scorching sun that could be seen from billions of miles away.

“As expected of the divine boat of creation!”

At the bow of the ship, a red-robed old man stood next to Tang Hao. He looked around and sized up the giant ship, and could not help but exclaim in admiration.

This person was the great elder of the Vermillion Bird heaven.

Young master Fei Li didn't come alone. She brought half of the seventh tribulation elders of the Vermillion Bird heaven, along with Ling Zhanxu and a few elders of the Fusang celestial race. There were more than 30 seventh tribulation elders on the ship.

In addition to the 5th and 6th tribulation disciples and elders, the power of the divine boat of destiny was not as strong as the previous cannon. However, it was not afraid of the 8th tribulation.

“I heard that ancient Emperor was seriously injured by that cannon!”

“The power of this killing weapon is too strong!”

A few elders of the Vermillion Bird sky were discussing in low voices, and they were all shocked.

Three days ago, when the news reached the Vermillion Bird heaven, it caused a huge sensation in the sect. The impact was even greater than the incident in the divine tomb.

This was because the divine boat of creation was too famous. It was comparable to an immortal weapon.

Moreover, as soon as the weapon appeared, it created an incredible record and seriously injured an eight-tribulation venerable Emperor, which was the most shocking thing for them.

Previously, in their eyes, although the gate of fortune had become the number one in the eight desolates, they were still far from being comparable to the mantras of the heavens like them in many aspects. Thus, they still had a sense of superiority.

However, that shocking cannon shot woke them up. It made them realize that the current gate of fortune was no longer inferior to the mantras of the various heavens. They were qualified to be on equal footing.

This time, the great elder had personally led a team here to express his goodwill.

They wanted to make use of their eldest young master's relationship with the creation sect to firmly tie down this rising upstart.

“Elder lie, you flatter me. This divine boat of the gate of fortune is still far inferior to the celestial artifact of your Vermillion Bird heaven!” Tang Hao said with a smile.

“Al! Fellow Daoist Tang is too humble! Who doesn’t know that in terms of power, this divine boat of yours is even stronger than an ordinary immortal artifact? in the ancient times, when our thirty-three heavens saw this divine boat of yours, we had to avoid it.”

Elder lie said.

His words were not flattery. They were the truth. This divine boat’s ability was very heaven-defying. It could actually perfectly merge the power of everyone on the ship and then burst out a powerful force through the divine cannon.

This way, as long as there were more people on the ship, the power would be stronger, and the difference in strength could be made up with the number of people.

This time, the gate of fortune had gathered everyone’s strength and defeated an eight tribulation venerable Emperor.

“Speaking of fairy weapons, I wonder if there’s one among these fairy ruins!”

Tang Hao mumbled to himself as he looked into the distance.

With the divine boat of creation, he could withstand the 8th tribulation. However, it was still not enough. He still needed a true celestial artifact.

“That’s difficult. There are too few celestial artifacts in this world!”

Elder lie shook his head and said, “other than the 33 heavens’ orthodoxy, I don’t know of more than five true Immortal Weapons. Many eight tribulation venerable sovereigns don’t even have one.”

After a pause, he continued, “the place we’re going to this time isn’t the real immortal ruins. It’s just the ruins of a nine tribulation Supreme. Our ancestors of Vermillion Bird heaven have explored it before, but they didn’t go deep. There should be many treasures inside. We can find some pills or Supreme weapons.”

“It’s good to have medicinal pills or immortal medicine!” Tang Hao said with a smile.

This trip was for the sake of raising his cultivation.

The divine boat galloped forward as they conversed. Soon, they arrived at a ruin that was filled with broken pieces of stars. Tang Hao discovered a strong aura of an ancient formation on the periphery. The entire ruin was shrouded in an ancient formation.

In the ruins, he could still sense the aura of a restriction.

“It’s indeed a ninth tribulation. It might be one of the hundred Immortals!”

Ling Zhanxu said seriously.

“That might not be the case!” Elder lie shook his head. “The nine tribulations in history are not limited to the hundred Immortals. Before the hundred Immortals era, there were many more ancient nine tribulations. These were all people from the time when Pangu was just created.”

As the first elder of Vermillion Bird heaven, he knew many ancient secrets.

Ling Zhanxu nodded his head and did not say anything.

“These formations have been around for a long time, so their power has been greatly weakened. With our strength, we can break through them directly.”

Tang Hao examined the area, then steered the divine boat and charged forward.

If he had come alone, he would definitely be careful and search for the flaws in the formation before barging in. But with the divine boat in his hands, he had nothing to fear and directly ran over it.

The divine boat traveled for a distance and triggered the array. Suddenly, purple lightning appeared in the sky and struck the divine boat. However, they were all blocked by the light screen on the divine boat.

At this moment, the divine boat was equivalent to an 8th tribulation expert. It broke through the formation and rushed straight in. Wherever it passed, the restrictions were triggered one after another, causing lightning, flames, and frost to explode in the sky.

However, none of these could hurt the divine boat at all.

Soon, the divine boat entered the depths of the ruins and discovered a Palace.

Tang Hao fired a shot from the divine cannon at the front of the battleship. It broke through the divine light protecting the palace and rushed in.
