

The Mightiest Little Peasant Chapter 2335

“Senior, junior has nothing to ask about cultivation.”

Tang Hao said, scratching his head.

“Oh?” Shangyang Zhenren raised an eyebrow and laughed. “Young man, you must have extraordinary talent to be able to leave the ancestral land and come here. However, you can’t be arrogant because of this. You must know that there’s always a sky beyond the sky ...”

“This old man only wanted to remind you because you are a descendant of Kun Lun. If it was someone else, this old man wouldn’t be willing to do it. I would just erase their memories and send them away.”

“I know!” Tang Hao nodded and said sincerely, “but, I really don’t have anything to ask.”

Shangyang Zhenren frowned, a little displeased.

This young man was too arrogant!

“You haven’t encountered any difficulties since you started cultivating? Or a bottleneck?”

“This ... I don’t think so. Everything is going quite smoothly.”

Tang Hao thought for a moment and replied.

His cultivation journey had been quite smooth. Although there were some bumps, he overcame them quickly.

The corner of Shangyang Zhenren’s mouth twitched.

F * ck! This kid’s tone was really F * cking big!

He cursed silently.

In the past ten thousand years, he had seen many monstrous talents, but none of them were as arrogant as this kid.

“You ... How many years have you been cultivating?”

Shangyang Zhenren looked at Tang Hao from head to toe with suspicion in his eyes.

This kid’s age seemed a little off ...

He was too young, so young that he could not believe it.

“About forty years!”

Tang Hao said after some calculations.

" 40 ... 40?"

Shangyang Zhenren's eyes widened, and he was a little speechless.

It seemed that he was not mistaken. This kid was really so young. However, this was too unbelievable!

He had cultivated all the way to the later stage of the seventh tribulation in over 40 years. This speed was extremely shocking even in his era.

Out of all the monsters he had seen over the years, this kid was definitely the fastest.

In fact, he wouldn't have been surprised if this kid was born and raised in Pangu, but he just had to come from the abandoned ancestral land.

Wait, ancestral land?

Oh right, I remember that there are many good things in the ancestral land. Could it be that this kid has obtained one of them, which is why he has become so monstrous?

That's right! It must be like this!

He pondered for a while and quickly came up with a reasonable explanation.

"Hahaha! As expected of the descendant of an old friend! You're indeed gifted and intelligent!" He laughed out loud and dissolved the awkward atmosphere.

Then, he looked up again and sized up Tang Hao.

"Tsk tsk! This physical body was not ordinary! It has actually gathered several auras, including the Qi of a true dragon, the Qi of a golden ROC, the Qi of Buddhism, and the Qi of a God. It's wonderful!"

"Your blood, eh? Why was it so strange? I've never seen such a strange blood ..."

As he looked, he couldn't help but be surprised.

This kid's body and the immortal blood he had condensed were both very strange, especially the immortal blood, which had all five auras of immortal, Buddha, God, devil, and demon. It was simply unprecedented.

Who on earth could have created such a peculiar immortal blood?

"A! This immortal mansion of yours ..."

Before he could come to his senses, he discovered something even stranger.

This kid's immortal mansion was also extraordinary.

When he looked into the immortal mansion again, his mouth was wide open and he was stunned on the spot.

That ball of golden light in the immortal abode ... Could it be that legendary thing?

Was this kid crazy?

Why did he practice this?

That's strange! Since he had managed to pull out such a thing, how could he have cultivated until now and not been struck to death by a bolt of lightning?

"Oh! This is the self!"

Tang Hao said calmly as he pointed at his dantian.

He knew that this thing of his was very frightening. Back then, when the white-robed Supreme martial artist had seen it, he had also been extremely shocked.

However, he didn't expect that even a true immortal would be so shocked.

"Why ... Why ... Why are you practicing this? Don't you know that this thing is very dangerous?" Shangyang Zhenren said.

"I know! But since I've already practiced it, I can't do anything about it. I can only seal it." Tang Hao said with a bitter smile.

He couldn't do anything about this true self for the time being. Once the seal was removed, the world-ending lightning tribulation would come. Furthermore, that white-robed Supreme martial artist had said that this thing would be very useful in the future and would be very powerful.

"Then ... Keep it sealed and don't unseal it. Once you unseal it, you're finished, unless ..."

As he spoke, Shangyang Zhenren looked hesitant.

"Unless what?"

Tang Hao was surprised.

From what he said, there seemed to be a solution.

"Unless you can find the inheritance of that senior!" Shangyang Zhenren said solemnly.

After a pause, he explained, "this is a path that goes against the heavens. There aren't many people cultivating it now, but there were many in the ancient times. The cultivators at that time liked to go against the heavens. They were different from the rest, but only a few people managed to cultivate it."

“However, all of them are world-shocking figures. The senior I’m talking about is the most famous and the most powerful one. He once cultivated this Dao to the highest level and has unparalleled combat strength. People call him the sky-destroying immortal Emperor!”

“Heaven ... Destroying immortal Emperor?”

Tang Hao was shocked by the title.

Then, he wanted to curse. F * ck! Immortal Emperor? I’m only at the 7th tribulation, where do you expect me to find the inheritance of an immortal Emperor?

Aren’t you scamming me?

“This immortal Emperor ... Is truly unparalleled. In the two great battles back then, he killed countless Dragon counts and even Dragon counts at the same cultivation level. He was known as an unrivaled war god.” Shangyang Zhenren reminisced.

Tang Hao grinned. ‘It’s none of my business no matter how awesome this immortal Emperor is,’ he thought.

“It’s a pity that there were too many opponents. Even someone as powerful as sky-destroying immortal Emperor was exhausted in the end. He burned the last of his life force together with the other Almighties to become an unbreakable barrier that will protect this world forever.”

Shangyang Zhenren said with a sigh.

“Senior, do you know where this immortal Emperor’s inheritance is?” Tang Hao asked.

“I don’t know! After that battle, this old man only had a trace of my true spirit left. How could I know about this?” “But don’t worry,” Shangyang Zhenren mumbled. “The inheritance must be hidden somewhere. Many mighty figures left their inheritances behind before they died.”

Tang Hao grinned again.

The world was so big, where was he going to find it!

Moreover, he had never heard of anyone who had obtained the inheritance of a true immortal. At most, it was a Supreme inheritance. Where did all these inheritances go?

“Young man, don’t be anxious. Look for it carefully. You’ll definitely find it. As long as you find it and cultivate this Dao to perfection, you’ll be as invincible as senior exterminate the heavens.” Shangyang Zhenren said.

“Junior will definitely work hard!”

Tang Hao smiled wryly.

“Young man, your aptitude is very outstanding. In terms of cultivation, this old man has nothing to guide you, so I’ll guide you on how to cross the Tribulation! Looking at your cultivation level, I reckon that you’ll be going through the eighth tribulation soon.”

Shangyang Zhenren said after studying Tang Hao.

“Senior, please enlighten me!”

Tang Hao immediately sat up straight.
