

The Mightiest Little Peasant Chapter 2342

"It's a Supreme artifact!"

Tang Hao was surprised.

The Golden armor on Ling Zhanxu's body was a Supreme artifact. Judging by its aura, it was even stronger than his Taiyi mind-clearing armor.

The Taiyi mind-clearing banner was refined by immortal Chang Liu, and it was a product of the hundred Immortals era, which was even longer.

"I'm quite lucky!"

He smiled.

Among the many clans, the Ling clan was the closest to him, and his relationship with Ling Zhanxu was also the best. Seeing Ling Zhanxu happily receiving a treasure, he was also sincerely happy.

Ling Zhanxu already had one of the Ling clan's Supreme weapons on him. It was the Golden Dragon battle spear, the Ling clan's inheritance treasure, and also the only supreme weapon. Now that he had obtained the Supreme armor, his combat power would undoubtedly increase by a lot.

"This old monster Ling is really lucky!"

"Al! Why don't I have such luck!"

Many of the seven tribulations were annoyed and envious.

"Hahaha! Don't blame me for your bad luck!"

Ling Zhanxu laughed, extremely pleased with himself.

At this moment, he felt that his luck had reached the peak of his life. He had never been so lucky before. In the ruins that had been searched countless times, he could still pick up a treasure, and it was even a Supreme battle armor.

His luck was so good that he could not believe it.

"Fellow Daoist Ling, congratulations!"

Elder lie stepped forward and congratulated him.

He studied the armor while he was at it and couldn't help but exclaim, "this armor is extremely ancient, and the refining technique is very advanced. Even I can't understand it. It's very likely that it was made by a true immortal! Even if he isn't, he probably has a true immortal to guide him!"

When Ling Zhanxu heard this, he was even more delighted.

“Ah! Old monster Ling, how did you find it?” The Group of Seven tribulations surrounded him and asked curiously.

“It’s at the bottom of this Lake. There are a lot of ruined tribulation weapons. I searched around but couldn’t find anything useful, so I kept digging down. When I was about 300 meters into the mud, I touched this treasure. At first, I thought it was useless. I didn’t expect it to be a perfect supreme weapon.”

Ling Zhanxu said excitedly.

Today’s matter could be bragged about in his clan for many years.

“I’ll go and look for it!”

All the cultivators were excited and rushed into the lake to search.

However, it was obviously futile. They had already dug ten thousand feet into the ground, but they still hadn’t found anything of value. They were all abandoned tribulation artifacts. Their materials had decayed and lost their spiritual Qi. They had no value at all.

They refused to believe it and began to search carefully. After three days, they did find some eighth tribulation treasures and a broken supreme weapon. However, none of them could compare to Ling Zhanxu’s treasure.

Three days later, everyone returned to the ship and left the place.

Their next destination was a Supreme immortal’s cave.

In the cave, they found a large number of treasures, godly medicines, pills, tribulation weapons, and cultivation techniques. After distribution, they were all happy.

Tang Hao estimated that the resources he obtained this time could increase his HP by about two hundred.

Then, they moved on to their next target. This time, they gained nothing.

In the next two months, they ran around and finally explored all the locations on the list. Their harvest was quite good, and they returned with a full load.

The cultivation of every seventh tribulation expert had increased by a large margin. The creation sect disciples on the ship had also received a large amount of resources, and their cultivation had also increased.

After leaving the last location, they embarked on their return journey.

“Let’s absorb all these medicinal pills and immortal medicines first!”

Tang Hao sat in his cave abode and organized his gains.

The three celestial elixirs he got from the divine tomb could increase his HP by more than 1000. He had also collected two celestial elixirs this time. With the many elixirs, he could increase his HP by more than 2000.

After absorbing all of it, he could stabilize his HP at 9000.

He made some preparations and began to absorb. First, he refined the five immortal herbs one by one, then absorbed them, and then absorbed the medicinal pills.

His body was filled with immortal Qi at all times. The mother blood kept splitting and producing new drops of immortal blood.

In the meridians of his whole body and the sea of Dao in his dantian, the immortal blood of chaos was swimming everywhere. The amount of immortal blood was so great that it began to affect his own blood. The blood flowing in his body also began to carry a trace of chaotic aura.

Even his bones and body were starting to be affected.

This was the sign of Nirvana!

When the immortal blood in his body reached 10000, he could try Nirvana and transform his immortal body.

Tang Hao opened his eyes a few days later.

All the spiritual essence had been absorbed.

The amount of immortal blood in his body had reached more than 9100, and his strength had soared again.

At this realm, he was truly unrivaled among the seven tribulations! Even if it was an old monster with ten thousand blood, he was not afraid at all. He was confident that he could defeat him.

"900 hp left, it'll be soon! I need to quickly gather wood element treasures to prepare for the Tribulation."

Tang Hao got up and went to the deck.

After a few days of sailing, the divine boat had been on the road for almost 33 days.

"How much blood do you have, Tang kid?"

Ling Zhanxu asked in surprise when he saw him.

After a few days of closed-door cultivation, the aura on Tang Wulin's body had become more and more unfathomable.

“Nine thousand!”

Tang Hao said with a smile.

Hiss!

All the cultivators on the ship sucked in a cold breath.

Nine thousand health points!

This cultivation level was truly a little frightening!

Ling Zhanxu was a little depressed. He had been feeling smug before, but he had gained a lot this time. Not only did he get a supreme weapon, but his cultivation also increased by a few hundred points, and his strength had improved by leaps and bounds.

But now that he saw this kid, his joy was gone, leaving only depression.

“It seems that Pangu will have another young venerable sovereign soon!”

Elder lie laughed heartily.

Now that the Vermillion Bird heaven had joined forces with the gate of fortune, the stronger fellow Daoist Tang was, the happier he would be. Once fellow Daoist Tang advanced to the eighth tribulation, the Vermillion Bird heaven would have two venerable sovereigns.

The rest of the cultivators laughed in joy.

“Thousand health?”

Tang Hao chatted with the cultivators for a while. When he went to find Little Phoenix, he found out that Master Li’s cultivation had reached thousand blood.

“The elder gave me all the celestial medicine!” Li gongzi said.

“Oh,” Tang Hao said and nodded.

Last time in the divine tomb, he also got one in the Vermilion Bird heaven. This time, he got another one. With the other elixirs, the harvest was not small. It could easily raise brother Li’s cultivation.

As for Yu Shiwan, her cultivation was already quite high, and she had gained quite a lot from this trip. Her cultivation was close to 1000 hp.

“Congratulations!”

“Congratulations,” Tang Hao said.

At this time, the divine boat had already arrived thirty-three days ago. Not far away, Emperor Pan City was faintly visible in the clouds.

“I’ll go to Emperor Pan City first and buy something. Why don’t you wait here for a while?” Tang Hao said to the group of cultivators.

“Let’s go too! I’m going to shop when I’m free!”

“Yes, I haven’t been to Emperor Pan City in a long time. I want to walk around and buy something!”

The cultivators said.

Pangu city was the best trading place in Pangu world, and there were many treasures there. They would come here for a stroll sometimes. Since they were going the same way, they naturally wanted to go there.

“Alright!”

Tang Hao nodded. He let Zao Huazi guard the divine boat while he flew out and landed in front of Emperor Pan City.
