

The Mightiest Little Peasant Chapter 2357

“Daoist northcloud, are you really going to take out this piece of Starcore true gold to exchange for treasures?”

The crowd was in an uproar.

Everyone was shocked.

A treasure like the Starcore true gold was something that cultivators would never take out once they got their hands on it. Why did Daoist Northern cloud take out such a precious item? What treasure did he want to exchange for?

All of the cultivators were excited. They were already thinking about what kind of treasures they had that they could use to exchange for this piece of Starcore true gold.

Even Qing Yi Daoist, who had nine thousand blood, could not contain his excitement.

“Fellow Daoist northcloud, what a big move!”

Tai Yuan Taoist couldn't help but exclaim.

If he wasn't the host, he would also be fighting for this Supreme-grade divine material.

On the stage, Daoist North cloud smiled and said, “I got this piece of stellar core true gold by luck. It was born on my star. I've thought about it, but I don't have any use for it at the moment, so I wanted to take it out and Exchange it for some useful treasures.”

“A piece of Starcore true gold was born! What kind of luck is this!”

“This luck is too amazing! Why don't I have such luck!”

For a time, exclamations of shock could be heard from all around.

All the cultivators were envious and jealous.

“Fellow Daoist northcloud, what do you want in exchange? I have a lot of divine pills here, you can choose whatever you want!”

Yu Daoist of the purple sky heaven stood up and shouted.

With a wave of his sleeve, purple-gold Jade bottles flew out one after another. They were all divine elixirs from his collection.

“Fellow Daoist northcloud, I have many ancient formations here. Bewildering formations, killing formations, illusory formations ... Whatever formation you want, I have them all!”

Another Daoist stood up. He was an old senior of Emperor Xi heaven.

With a wave of his hand, sets of formation flags and sword formations flew out, dazzling the eyes.

“Daoist northcloud, just ignore them. The pills and formations they can take out are of little value.”
Immediately after, another person stood up and shouted.

This person had the appearance of a middle-aged man. He was dressed in white and had a handsome face. He was surrounded by a sharp killing intent.

“I have a set of inheritance here. It’s the inheritance of the battle immortal, one of the 100 Immortals in the ancient times. His cultivation techniques and cultivation experience are in it. With this inheritance, you will be able to cultivate smoothly all the way to the nine tribulations Supreme!”

“There are many secret techniques inside that can increase your combat strength. It’s definitely worth it!”

The man raised a Golden Jade slip in his hand and displayed it.

“It really is a Supreme artifact!”

All the cultivators looked at it and discovered the strong aura of a Supreme Being.

“It’s Bai Yi from The White Tiger heaven. No wonder he has the celestial of combat’s inheritance!”

A series of exclamations rang out from all directions.

Bai Yi was the God of War of The White Tiger heaven a few generations ago. He was extremely talented and almost unrivaled among his peers. He was the most dazzling figure of his era. In the current astral transformation realm, he was one of the top powerhouses.

“I’ve obtained the inheritance of the celestial warrior long ago. The reason why I’m able to reach my current cultivation level is because of this inheritance. I believe that it will be of great help to you, fellow Daoist Northern cloud!”

Bai Yi raised the Jade piece and shouted.

“The inheritance of the immortal of war!”

On the stage, Daoist North cloud mumbled, and his expression changed.

The faces of Daoist Yu and the senior from sovereign Xi heaven changed.

However, they were also helpless. Compared to the inheritance of the combat immortal, their treasures were indeed nothing.

The xiuzhe of the four sides also hesitated and didn’t dare to speak.

If he couldn't take out something better than the immortal of war's inheritance, it would be useless to ask for it, and he would even lose face.

"So, what do you think, fellow Daoist northcloud?"

Bai Yi looked left and right, and his mind settled.

This piece of Starcore true gold was in the bag!

At this time, in the corner of the crowd, Tang Hao was hesitating. He was considering whether to make a move or not. He had the inheritance of the poison immortal, one of the hundred Immortals. However, he did not know what Dao Daoist North cloud cultivated. If he did not cultivate the poison Dao, it would be useless even if he took it out.

After all, the path of poison was too sinister and not all xiuzhe were willing to cultivate it.

"This ..."

On the stage, Daoist North cloud muttered to himself, as if he was about to nod.

However, right at this moment, someone in the crowd stood up."Daoist northcloud, wait a moment!"

It was that old devil mu!

"As we all know, the ancient war immortal had an invincible body. I believe that the inheritance must have some cultivation techniques and secret techniques related to the body. As for you, fellow Daoist Northern cloud, I don't think you're good at the body, right?"

Old devil mu said in a clear voice.

Bai Yi's expression changed.

The people of the North Pole were indeed not good at the physical body, but were better at Daoist magic.

"The battle immortal's inheritance is good, but it's a pity that it's not suitable for you, fellow Daoist northcloud. I happen to have an inheritance that's suitable for you."

As he spoke, old devil mu raised his hand, and a Pearl appeared in his palm.

Lightning flickered within the Pearl, and it gave off the same Supreme aura as the Jade.

"This is ...?"

Daoist North cloud's eyes narrowed when he saw the Pearl.

"This is ... The Thunder immortal's inheritance!"

Old devil mu held the lightning bead in his hand and displayed it in all directions. "Compared to the inheritance of the combat immortal, this is the inheritance that is most suitable for you, fellow Daoist!"

"It's the Thunder immortal's inheritance! Great!"

Daoist northcloud said excitedly.

To him, the Thunder immortal inheritance was indeed more suitable.

"Hmph!"

Seeing this, Bai Yi snorted and sat back down, his face a little ugly.

He knew that he had no chance.

"How did this old monster get the Thunder immortal's inheritance?"

"Hmph! He must have killed some demon and snatched it! This old devil has killed countless young geniuses in the past, and many of our fellow 7th tribulation cultivators have also been killed by him. He has so many treasures on him, and he basically seized them all in this way."

The four sides were in a discussion.

Most of the xiuzhe had disdainful expressions. This old devil mu was vicious and vicious, and most of them disdained to associate with him.

Old devil mu had heard all these voices, but he didn't care at all.

"Fellow Daoist northcloud, do you want to trade?"

He looked at the stage and asked.

"I'll exchange!"

Daoist northcloud nodded.

If it was a private deal, he was of course afraid that the old monster would play tricks. But here, senior Taiyuan was in charge, so the old monster did not dare to play any tricks.

"Alright!" Old devil mu smiled and turned to look at Taoist Taiyuan. "I'll have to trouble senior Taiyuan!"

Taoist Tai Yuan nodded and went forward to take the Thunder Pearl and hand it over to Taoist North cloud. He then took the Starcore true gold and handed it to old monster mu.

"Many thanks!"

Old devil mu took the treasure and sat down, satisfied.

This piece of Starcore true gold was of great use to him, which was why he didn't hesitate to take out the Thunder immortal's inheritance to exchange for this treasure.

"This old devil ... Is also quite fat!"

In the corner of the crowd, Tang Hao secretly stared at the old demon. His eyes gradually brightened.

In his eyes, the old monster was no longer a human, but a moving Treasure Mountain.
