

The Mightiest Little Peasant Chapter 2368

In the void, a large ship sailed over.

On the ship, a total of 18 figures stood still. They were Daoist nanshou, Daoist xuqi, and the others.

They had been on their horses since they came out of the Longyuan planet and rushed straight to this place.

“It’s right in front!”

Daoist nanshou stood at the bow of the ship and pointed ahead.

At this moment, his expression was somewhat excited. Ever since he had lost the star, he had not had a Day of Peace. Every day, he thought about how to get the star back. Now, he could finally get his wish.

“Fellow Daoist nanshou, you don’t have to worry. With the two masters here, we’ll definitely be able to break the formation and take back the star!”

The old monster from the cursed sky looked at him and comforted him.

“I’m not worried. I’m just excited.” Daoist nanshou laughed. As he spoke, he turned around and glanced at the two old men standing on one side of the warship.

Both of them were famous array Masters. One of them was Luo, a master of xihuang heaven. His array skills were so high that he was even better than Pangu. With him, it was impossible to break the array.

The ship sailed for a while more and stopped.

“The two masters are in the void in front of us!”

Daoist nanshou said to the two array Masters.

The two old men nodded and walked to the bow of the ship. Divine light shot out from their eyes as they swept the front.

Daoist nanshou stood at the side, looking apprehensive.

Even though he knew that the two masters could definitely break the formation, he still couldn’t help but feel nervous.

The newly arrived old monsters from the three great orthodoxies also looked towards the void.

Along the way, Daoist nanshou and the others were all talking about how high the monstrous genius surnamed Tang’s attainments in the array Dao were. They had tried countless times and found many masters, but none of them had been able to break the array set by the monstrous genius. Therefore, they were all a little curious.

In their hearts, they were all suspicious. It was one thing for a young genius to have such powerful cultivation, but how could he be so powerful in array Dao as well?

However, their expressions changed when they saw it.

Many of them were also proficient in array Dao, but after looking around, they couldn't even find the location of the great array. It could be seen that the array Dao of that demon was indeed powerful.

Soon, they gave up and looked at the two masters at the bow of the ship.

If he wanted to break the formation, he would have to rely on these two masters.

"This array ... Is interesting!"

At the bow of the ship, the two masters stared at the void in front of them and murmured.

Then, their eyes shone with a divine light as they began to investigate more carefully.

About an hour later, they retracted their gazes.

"Two masters, how is it?" Daoist nanshou said frantically.

The two masters did not speak. They looked at each other and could see the shock in each other's eyes.

The formations in front of them were of extremely high standards, almost the same as them. One of the formations was so powerful that even they couldn't see it clearly, which shocked them greatly.

One had to know that they were all people of the level of old antiques. They had been immersed in the array path for many years before they had this level of attainment. However, how could a kid who was less than a hundred years old have such deep attainments?

This was truly unbelievable!

The elder on the left who was wearing the clothes of Emperor Xi heaven hesitated for a moment and said, "These arrays are very powerful. One of them is so powerful that even I can't see through it. I have to go in and study it myself to have a chance of breaking it!"

"That's right! These formations are not easy to break. It will take some time!"

Another Grandmaster also said, his expression somewhat grave.

Hearing this, all the cultivators on the ship were shocked.

These two could be said to be at the peak of the array path. If even they said it was difficult to break, it could be seen how powerful these great arrays were.

"So you're saying that it can still be broken?"

Daoist nanshou said anxiously.

“Of course! It’ll just take a little longer, maybe a few days.” The Grandmaster of Emperor Xi heaven, Daoist Luo, nodded.

“That’s good!”

Daoist nanshou heaved a sigh of relief.

It would be fine as long as they could break it. A few days would be enough. That brat should not be able to detect it. Even if he did, it would be fine. They had more people. Eighteen Hua Xing old monsters. How could they not be able to deal with that brat?

That kid’s cultivation was 5000 to 6000 blood. The reason why he was so terrifying was because of the creation divine boat. However, there were huge restrictions on the use of the creation divine boat. It could only be used with a large number of people.

Back when he had blasted the Dao devil ancient Emperor, the entire fortune sect had been standing on top of him. Together with the various guest elders and helpers, it was only with the combined power of millions of people that he was able to injure the Dao devil ancient Emperor.

And that kid couldn’t possibly bring so many people with him, so he wasn’t worried. Even if that kid came, the 18 old monsters could drive him away.

“Seniors, let’s begin!”

Daoist nanshou bowed and said, “after breaking the array, I’ll have to trouble the two masters to help set up a few more arrays to prevent that little demon from coming to snatch it again. Of course, you’ll be rewarded. My South Pole will definitely prepare a reward that will satisfy the two masters.”

“Alright!”

The two masters nodded.

In fact, if Daoist nanshou had not said anything, they had also been prepared to set up some great formations, because they wanted to see how capable that monster was and whether he could break the great formation that they had set up together.

Then, the two of them flew out of the ship and raised their hands, shooting out beams of divine light into the void ahead.

In the next moment, ripples appeared in the air.

The ripples continued to spread, and finally, they connected.

“This is a level of concealment array, and it’s a top-notch one. It’s very powerful, so you can’t find it!” Daoist Luo laughed. With a light stroke of his finger, the ripples were dispersed, and a huge star appeared in front of everyone.

All the cultivators on the ship exclaimed in surprise.

“As expected of master Luo!”

Then, they began to flatter him.

“That’s great!”

Daoist nanshou was extremely excited.

“The next formation is the most troublesome one. Even I can’t see through it. It should be a maze!” Master Luo pointed to the front and said, “as long as we can break this array, the rest is simple.”

“I’ll have to trouble you, master!” Daoist nanshou said respectfully.

“Let’s go in!” Master Luo nodded at him, then looked at the master beside him.

“Alright!” The master nodded, his expression somewhat excited.

He was very interested in this mysterious formation and couldn’t wait to go in and explore it.

The two of them flew forward together. A moment later, the void in front of them rippled and swallowed them up.

“I hope the two masters can break the array successfully!”

The rest of the old monsters stayed on the ship and waited.

Time passed by slowly, and it was exceptionally long.

The short two days felt as long as two hundred years to Daoist nanshou.

He stood at the bow of the ship and looked at the star, growing more and more anxious.

When the third day passed and there was still no movement, the cultivators were shocked. They didn’t expect the array to be so powerful that even a top array master like master Luo had to spend so much time.

On the fourth day, there was finally some movement. There were ripples in the void in front of them and master Luo walked out.

A moment later, another master also came out.
