

## The Mightiest Little Peasant Chapter 2411

Tang Hao was relieved after learning about the sect's situation.

For now, he didn't need to worry about the gate of fortune. In the future, he would have to worry about Kun Lun.

Not long after, the gate of fortune would have thousands of 7th tribulation experts. After these 7th tribulation experts had absorbed the flesh and blood of the 8th tribulation beasts that he had obtained from the xuanhuang tower, many late-stage 7th tribulation experts would be born. They would be enough to guard the gate.

Kun Lun was still too weak in comparison.

He had descended to the lower realm several times and brought many treasures with him. However, due to the environment of the lower realm, the strength of the Kunlun Sect could not be compared to that of the creation sect.

"Let's go through the Tribulation first!"

Tang Hao pondered for a moment. Then, his body flashed and he left the creation Hall.

He urged ye Xi to tear the void several times and rushed to the North Sea.

The eighth lightning tribulation was too big, so he couldn't go through it in the eight desolates land. He could only go through it in the sea.

Although he had his old enemies in the North Sea, the old flood Dragon and the desolate evil demon Thearch, Tang Hao was not too worried. This was the lightning tribulation. As long as the lightning tribulation struck, the two old men would not have enough time to hide. They would not dare to come and cause trouble.

He stood in the sky above the ocean, and with a shake of his body, a bright immortal radiance shot up into the sky and into the clouds.

The next moment, the sky changed dramatically. Clouds rolled and lightning flashed.

Soon, a huge vortex of lightning was formed.

The power of this lightning tribulation far surpassed that of the seventh tribulation. The entire sea region was covered in lightning and filled with the terrifying pressure of the lightning tribulation.

"Someone's going through a tribulation!"

"What tribulation is this? How can it be so terrifying?"

Panicked screams kept coming from all directions of the sea.

Many figures came out of the sea. They were all xiuzhe that had been cultivating in the cave dwelling in the sea. They had all come out when they sensed the terrifying presence of the Tribulation lightning.

When they came out to take a look, they were almost scared to death. They had never seen such a terrifying tribulation!

“I’ve seen the power of the seventh tribulation, but it’s far less powerful than this one. Is this the eighth tribulation?”

“No way? Someone is going to undergo the eighth tribulation?”

They looked from afar and were shocked.

“I’m afraid it’s divine Lord Tang!”

Someone guessed.

There were only a few people in Pangu who could pass the eighth tribulation. Other than the star transformation old monsters of the thirty-three heavens who had returned, there were only divine Lord Tang and Liu heihu of the Liu Clan left.

The people of thirty-three heavens definitely wouldn’t come here to undergo tribulation. They had a special place to undergo tribulation, so it could only be one of the remaining two.

They watched from a distance for a while before retreating, not daring to stay here.

“Eh? This was ... The aura of the lightning tribulation! Someone’s going through a tribulation!”

At this moment, within the demon Thearch’s lair in the depths of the North Sea, old demon desolate evil’s mind stirred as he sensed the commotion in the distance.

“Damn it, it’s that stinky brat!”

Old demon huang xie activated his demonic eyes and looked at the sky. When he saw clearly, his face turned a little hideous and twisted.

Wasn’t the person undergoing the Tribulation that damned brat?

The moment he saw this kid, he was filled with anger.

This kid was too detestable!

He had tricked him time and time again, and even set him up in the black and yellow tower. If it wasn’t for this kid, he would have recovered from his injuries and ruled the world.

“You brat, just you wait!”

He cursed hatefully, lay back in the immortal coffin, and closed his eyes.

A ball of light was floating in front of his chest. Strands of gossamer-like xuanhuang Qi were drilling out of the ball of light and entering his body.

He was using a secret technique to borrow the power of the black Yellow ancient Qi to recover his strength.

In the outside world, above the North Sea, after a moment of preparation, the first lightning tribulation fell.

Tang Hao's expression changed when he looked up.

Was this lightning tribulation ... For humans?

He almost cursed out loud.

This bolt of lightning didn't look like a lightning tribulation at all. It clearly looked like it wanted to kill him.

"No wonder true immortal Shangyang said that the stronger the immortal body, the more powerful the Tribulation lightning will be. My chaotic immortal body is special to begin with, and it's definitely one of the most Supreme immortal bodies. Now that I've added in a wisp of xuanhuang ancient Qi, it's even more heaven-defying."

Tang Hao recalled what Shangyang Zhenren had said in the ethereal immortal Palace and came to a realization.

He was somewhat regretful. If he had known earlier, he would have absorbed the black Yellow ancient Qi after the tribulation. This way, at least it would reduce the difficulty of the lightning tribulation.

"Forget it, I've already refined it. Fortunately, I'm prepared!"

Tang Hao said to himself.

He had already made preparations for this Thunder tribulation and had collected a large number of wood element treasures. At this moment, there were tens of thousands of wood element treasures in his immortal execution king ring. They were all high-grade tribulation weapons. With these tens of thousands of wood element tribulation weapons, he was confident that he could survive this Thunder tribulation.

"Let's resist a few first!"

He didn't use a wood element treasure first, but directly took the attack.

The lightning tribulation would get stronger towards the end, so he had to save all the Tribulation weapons for the end.

Tang Hao could not withstand more than ten attacks. His skin was torn and his flesh was torn. Even with the Nirvana Scripture's recovery effect, he could not recover in time.

At this time, he used the wood element tribulation weapon. Every time the Tribulation lightning came, he would throw out ten to weaken the power of the Tribulation lightning. Then, he would rush up to resist the lightning. This way, the pressure on him was reduced a lot.

However, as the Tribulation lightning became stronger, he needed more tribulation weapons. In the end, he threw out hundreds or even thousands of them.

Tang Hao's heart ached when he saw the Tribulation weapons explode and turn into dust.

This lightning tribulation was too wasteful!

"We've finally passed!"

When he threw out all the wood element tribulation weapons in the ring of light, he finally withstood the last bolt of tribulation lightning and successfully passed the eighth tribulation.

After the lightning tribulation dissipated, a light fell from the void. It was the pure Qi of heaven and earth, helping him to transform his physical body.

Soon, not far above his dantian's sea of Dao, an immortal aperture was opened. Once the immortal aperture was opened, the immortal essence in his body immediately surged and gathered in the immortal aperture.
