

The Mightiest Little Peasant Chapter 2414

“The third tribulation ...”

Tang Hao glanced at the two and shook his head.

It was only a tribulation, so he naturally didn't take it seriously.

“Woof! You're quite stubborn!” The Prince sneered.

He didn't believe that the person in front of him was at the 3rd tribulation stage. After all, only great Qin had such a powerful expert on the central sacred planet.

Tang Hao glanced at him and furrowed his brows.

He didn't like this guy. He was too frivolous, domineering, and didn't even have a good eye for people. He was also impulsive.

“Who are you?”

Tang Hao said coldly.

“Who? Do you think you can question me? Men, quickly take him down!” The Prince was furious and shouted at the two three-tribulation saints.

“Yes!”

“Yes, sir!” The two men responded. They released their auras and pounced on Tang Hao from both sides.

“You guys don't recognize me either?” Tang Hao was surprised.

The two men were startled. They paused in their movements and looked at Tang Hao with confusion.

From this person's tone, he seemed to be related to great Qin and wasn't someone who had barged into the palace to cause trouble, but they didn't know him.

“Hmph! Who Do You Think You Are that we have to know you?” The Prince sneered, “no matter how powerful you are outside, once you're in the great Qin Palace, you'll have to hide your head.”

“What are the two of you doing? trespassers are challenging the dignity of the great Qin imperial family. If we don't punish them severely, how are we going to warn the rest of the world?”

“Yes! The eighth prince!”

The two of them hesitated for a moment before nodding their heads.

In the past few years, although the great Qin had dominated the sacred planet and become the first divine dynasty, there were still many people who did not accept it. From time to time, there would be people who would challenge the dignity of the great Qin imperial family. Things like forcefully breaking into the Imperial Palace had happened a few times before.

“Then why aren’t you moving!”

The eighth prince was a little anxious.

However, he was afraid that this guy would run away. It could be said that it was a great merit to catch such a trespasser. It could please his father, and he might be able to suppress his opponents and seize the position of Crown Prince.

The two third tribulation cultivators moved and pounced toward Tang Hao again. They threw a punch at him together.

A third tribulation saint’s strongest point was their body. In this realm, they usually fought with their bodies.

“Do you have to force me to act? You were blind, so I’ll punish you a little!” Tang Hao sighed helplessly.

“Hmph! Your Excellency’s tone is very big!”

When the two heard this, they were furious.

They were three-tribulation saints, after all. They were the best in the universe, and there were only a few who could surpass them. However, in the eyes of this guy, they seemed to be not worth mentioning. This made them a little angry.

At that moment, their bodies trembled, and their auras became sharper.

Tang Hao did not even bother to move when he was faced with the two punches. He only raised his eyes and glanced at them.

In an instant, the two charging figures stopped and froze.

“What ... What’s going on?”

The eighth prince was stunned.

Why did the two of them stop?

“What are you guys doing?” He shouted angrily, thinking that the two had stopped on purpose.

However, the two of them had difficulties to speak of. How could they have stopped by themselves? they were clearly fixed in place. Their entire bodies were bound by a terrifying force, and they could not move at all.

They were even more terrified. After all, they were three-tribulation saints. Even a four-tribulation Saint couldn't stop them like this. It would probably take a five-tribulation Saint to do it.

Moreover, this guy clearly didn't do anything. He just glanced over and froze them, which was even more terrifying. With just a glance, he froze two third tribulation cultivators. How terrifying was his realm?

Where did such a person come from in this starry sky?

They looked at the white-robed young man in front of them, and their bodies gradually began to tremble. They were extremely terrified.
