

## The Mightiest Little Peasant Chapter 2416

“Brother Qin, long time no see!”

Tang Hao took a few steps forward and cupped his hands at the Qin Emperor.

“Al! Please don ‘t!”

The Qin Emperor hurriedly called out. In the past, the two of them had similar cultivation levels, which was why they could call each other brothers. Now, this person was several levels higher than him. He couldn’t accept being called Brother Qin.

“It’s really him!”

The two consecrators standing to the side trembled, and their faces revealed extreme shock.

Just now, they had vaguely guessed it, and now that they heard it, they were even more certain that this was the legendary figure who had once shaken the starry sky, exalted immortal Tang.

They only felt a chill down their backs and a wave of fear.

What kind of person was exalted immortal Tang? He was already the strongest person in the starry sky decades ago. After cultivating in the upper realm for so long, his cultivation must have reached an extremely profound realm. In front of such a person, their tribulations were nothing!

“He’s actually back ... I wonder what his cultivation base is now?”

“Such elegance. As expected of the former number one cultivator in the starry sky!”

They raised their heads and looked at the white-robed figure. Their eyes were filled with excitement and reverence.

The eighth Prince’s face was getting paler and paler.

He knew that his future was completely over. If he provoked this person, he would never be able to gain his father’s favor again and ascend to the position of Crown Prince.

“Brother Qin, you don’t have to be so polite!”

Tang Hao smiled and sized the Qin Emperor up again. He nodded and said, “fourth tribulation! Not bad!”

Ascending to the fourth tribulation meant that one would have a long lifespan.

“I’ve just broken through. How about you? I can’t even see you clearly!” The Qin Emperor smiled. He studied Tang Hao for a while, his face filled with curiosity.

The last few times he met brother Tang, he also felt that brother Tang was unfathomable and could not see through his cultivation base. But this time, the feeling was especially strong. He could not see through this person's strength.

"Don't tell me it's the seventh tribulation?"

He said to himself.

The last time they met, this person seemed to be at the 6th tribulation, so he should be at the 7th tribulation now! This was incredible. It was said that even above them, seven tribulations were existences as rare as Phoenix Feathers and Qilin horns. They were all Masters of a clan or sect leaders of a large sect.

Such a person was enough to shock an area.

"I just advanced to the eighth tribulation!"

Tang Hao smiled at him and said calmly.

"What? E-e-e-e-e-eight tribulations?"

After hearing this, the Qin Emperor couldn't help but tremble as if he had been struck by lightning.

His eyes suddenly widened, and his eyeballs almost popped out of their sockets. His face was filled with disbelief.

The seventh tribulation was already somewhat inconceivable, but the eighth? How was that possible?

How many years has it been since brother Tang ascended?

For some xiuzhe, a few short decades was just a snap of the fingers. It was already difficult to go from the first to the second tribulation, let alone going from the second to the eighth tribulation!

This ... Was simply impossible!

However, looking at the figure in front of him, he had to believe it.

"Eight tribulations? Heavens!"

The two priests at the side also widened their eyes and exclaimed in disbelief.

Then, they trembled all over and revealed extremely excited expressions.

For them, the eight tribulation powerhouses only existed in ancient legends. They had never seen one with their own eyes. It was a great honor to be able to admire the elegant demeanor of an eight tribulation Almighty at such a close distance.

"E-e-e-e-e-eight tribulations?"

The eighth prince muttered to himself. He couldn't understand how powerful the eighth tribulation was.

This was because the eighth tribulation was too far away for him. It was too illusory.

"Mother! The eighth tribulation!"

When he thought about it and understood what was going on, he shuddered, his eyes rolled back, and he fell straight down. He had fainted.

"You useless thing!"

The Qin Emperor turned around and scolded angrily.

"Men, drag him away!" He shouted to his left and right, and guards immediately came up and carried the unconscious eighth prince away.

Looking at the eighth prince, the two consecrators at the side couldn't help but shake their heads.

This person was completely crippled.

Even if he had already become the Crown Prince, he would probably be crippled if he provoked immortal Tang. Not to mention that he wasn't the Crown Prince yet. He was just one of the princes who had quite the power.

There were at least a dozen princes in great Qin who were like this, and they did not lack one.

"This unfilial son ... Let's not talk about him. Let's go into the palace and catch up!"

The Qin Emperor turned around and laughed at Tang Hao.

Tang Hao nodded and followed him into the hall.

This time, he came to the central sacred planet because he had a favor to ask of the Qin Emperor.

It was impossible to select talents from the central sacred planet and the surrounding galaxies and migrate them to the Kunlun sacred planet without the help of the great Qin divine dynasty.

The two of them reminisced for a while, then Tang Hao told them the purpose of their trip.

"Migration? That's a good thing. The upper realm is full of immortal Qi, and the people of this realm dream of going there, but there's no passage there. However, according to what brother Tang said, the number of migrants seems to be quite large?"

The Qin Emperor said after some deliberation.

“The more the better!” His sacred planet, Kunlun, was huge. It was the size of a super-large planet in the lower worlds. Most importantly, under the transformation of the embryo of heaven and earth, the immortal Qi on the planet was abundant. It could easily accommodate ten billion cultivators.

Therefore, he gave a brief introduction to the planet.

“There’s such a mystical star?”

The Qin Emperor was somewhat fascinated.

“Then I’ll immediately mobilize the people and select all kinds of talents from the entire central astral. They’ll migrate with you!” The Qin Emperor said excitedly, “the great Qin divine dynasty will also follow you and move into the Kunlun star.”

“Alright!”

Tang Hao said.

After discussing with the Qin Emperor and leaving behind some treasures, Tang Hao left. His next stop was the Nanli great astral. He descended on the Nanli sacred planet and gathered all the major forces on the planet to select talents and spread the news of them moving to the upper worlds.

As the news spread, the Nanli sacred planet was soon in an uproar. All forces and geniuses were eager to sign up.

Then, Tang Hao went to the northern and western heavenly realms.

In the end, he returned to the Donglin sacred planet and went to the equal heaven courtyard.

In the past few years, the heaven-equal courtyard had changed a lot. It had expanded more than a hundred times in size, and it now dominated the entire Donglin sacred planet, its position as the number one faction unshakeable.

With the support of the large amount of resources he had left behind, the Academy had produced many experts. The number of third and fourth tribulation saints far exceeded that of the Qin divine dynasty, and there were even fifth tribulation saints.

“Yo! You’re back!”

In the Qitian Academy, he met the Taoist masters of Mao mountain whom he had not seen for a long time.

These few people were still dressed the same. One was sloppy, the other had an Afro, and looked very trendy ...

Their cultivations were also at the fourth tribulation.

They had taken the minor creation divine pill and entered the Saint realm a long time ago. However, the effects of the minor creation divine pill were limited. After reaching the Saint realm, it was not of much use, so these people's cultivation did not improve very quickly. They had all relied on his resources to achieve this.
