

The Mightiest Little Peasant Chapter 2440

“Kid, don’t be arrogant. Do you think we can’t do anything to you just because you’ve advanced to the eighth tribulation?”

The devil Dao ancient Emperor said hatefully.

He glared at Tang Hao with a venomous expression.

“We were too careless the last two times. That’s why you were lucky enough to survive and advance to the eighth tribulation. That’s what I regret the most!”

The great void sect master snorted in anger.

In the black and yellow tower, they had attacked twice but failed to kill this kid. He was still regretful.

When he was at the seventh tribulation, they still had a chance, but now that this kid had advanced to the eighth tribulation, he had become a big problem. It would be difficult to kill him again.

Even if the six of them joined forces, they might not be able to kill him, but they could severely injure him, making it so that he would not be able to recover for decades or even centuries. In this way, they could interrupt the boy’s growth.

A heavily injured eighth tribulation would not be a threat to their various heavens.

“I’d like to see how capable you old monsters are today!”

Tang Hao clenched his fist and said coldly.

At this moment, an extremely powerful force exploded in his chest, running wildly in his limbs and bones, making his flesh and blood seem to be burning.

The ancient Buddha sarira flower contained too much energy, and he had already completed one aperture. His Dao ocean and first immortal aperture could no longer contain any more immortal essence, this energy could only run around in his flesh and blood, wreaking havoc.

He had to release this power as soon as possible!

“Hmph! You’re really arrogant!”

The great void sect master laughed out of anger with a mocking expression.

A junior who had just advanced not long ago dared to provoke the six venerable sovereigns. He was so arrogant that he was somewhat ignorant.

“The first time, you borrowed the power of the divine craft creation boat. The second time, you used the all-encompassing poison pill. Now, use whatever you have. Today, we will let you know the difference between you and US.”

The great void sect master roared and attacked in the next moment.

He took a big step forward, and his robe fluttered in the wind. The immortal radiance on his body exploded and turned into a pillar of light that pierced through the sky.

Behind him, a huge light wheel appeared and slowly turned.

In an instant, the void in the surroundings froze.

Within a radius of a thousand feet, the flow of time suddenly slowed down.

Tang Hao felt his body grow heavy. The invisible power of time seemed to have turned into a chain that bound him, slowing his movements.

“Hmph!”

He snorted softly. This old fellow had a Supreme great Dao, and so did he. At that moment, a phenomenon appeared behind him as well. A long river of reincarnation was unleashed, and waves of Dao law power spread out, fighting against the time Dao law.

“The power of reincarnation!”

The great void sect master said in disdain.

His great void heaven’s Dao Law of Time was unrivaled in the world. This brat’s power of reincarnation could only barely stop him.

He moved and disappeared. The next moment, he was in front of Tang Hao. He threw a punch with shocking immortal power.

At the 8th tribulation, the strongest thing was the body. Most of the battles between the 8th tribulation were physical fights.

At this moment, he was going to use his physical body to suppress this child.

“Interesting!”

Tang Hao mumbled as he used his divine will to scan the area.

The old man, Taixu, was indeed an old venerable sovereign and the leader of a powerful orthodoxy like the great void heaven. No one knew how many natural treasures this physical body had absorbed and how many years it had taken to cultivate.

Among all the venerable sovereigns, old man Taixu’s physical body should be ranked in the top five.

But unfortunately, this old man had met a monster like him.

Even he himself did not know how strong his body was. The Xiantian black and yellow Qi, coupled with the houtian cultivated chaos Qi, made his body extremely abnormal.

As for their cultivation, both of them were at the great circle of one aperture.

He clenched his fist and gathered all the energy in his body. Then, he threw a punch and released all the energy.

Bang!

A muffled sound rang out like a thunderclap from the nine Heavens.

In an instant, endless immortal radiance burst forth, illuminating the vast heaven and earth.

“You ... You are ...”

In the immortal radiance, the great void sect master’s expression changed. His initial look of disdain turned into extreme shock.

Only then did he realize that this kid’s cultivation was no longer at the early stage of one aperture realm, but was at the perfected realm like him.

‘How ... How is this possible?’

He had cultivated for thousands of years and spent a vast amount of spiritual essence to reach the great circle of perfection, but how long had this kid been promoted for?

“It’s the Baldacchino!”

Then, the great void sect master came to a realization.

The Buddha shrine was a legendary treasure of the Buddhist sect. There must be a peerless treasure of the immortal medicine level inside.

This kid’s luck was too heaven-defying!

He was extremely shocked.

He had just advanced to the 8th tribulation not long ago, but he was already able to obtain this treasure and advance to the great circle of one aperture. How terrifying and heaven-defying was his luck?

He was even a little jealous.

However, he quickly became shocked again because he realized that his opponent’s power was a little too strong. It surged towards him like a stormy wave, and he was gradually unable to resist it.

However, he could not back down. He was the master of the great void heaven, a venerable sovereign of the older generation. How could he lose to a junior?

He gritted his teeth and crazily activated his celestial core power. At the same time, mysterious patterns appeared on his body, shining with a piercing golden light, which increased his power by several times.

Buzzzzzz!

There was a sharp howl.

A fiery-red divine light shot out of his body and turned into a divine Phoenix that danced around him.

Following that, there were the roars of Dragons, Tigers, and snakes. Divine light constantly rushed out of his body, turning into all kinds of ancient fierce beasts.

Every time one of them came out, his aura would increase dramatically.

Those mysterious patterns were the great void divine patterns. They were the great void immortal body that he had inherited from the great void heaven. As for the divine light, it was the blood of various ferocious beasts that he had collected and refined. The more he refined, the stronger his immortal body would be.

“What a big move!”

Tang Hao glanced at it and could not help but praise it.

There were at least a hundred kinds of ancient fierce beasts. Those that old man Taixu took a fancy to were at least eight tribulation Emperor’s blood. Most of them were Supreme blood. This was a big deal.

Back then, in order to refine the blood of chaos, he had traveled all over the world and racked his brains to collect a few types of demon blood, but there were hundreds of them here!

“If I refine this old monster, how much blood will I be able to refine?”

Tang Hao’s heart was burning. He looked at the great void sect master with a green light in his eyes.

However, he was just thinking about it. This was an eight-tribulation venerable Emperor. It was difficult to kill him, let alone refine him. Unless he advanced to the ninth tribulation, it would be possible to do it with a sovereign super power.

“But it’s a pity that your blood is still not as good as my blood of chaos and dark yellow Qi.”

“Die!” Tang Hao roared. His body shook violently. Vast chaos Qi and majestic dark yellow Qi burst out at the same time and swept toward the ancient beasts dancing in the sky.

Accompanied by a series of shrieks, the hundreds of phantoms of the ferocious beasts were all strangled to death.

Then, there was a muffled groan.

The great void sect master's expression changed. His body trembled and he was sent flying like a cannonball.

He spat out a mouthful of golden immortal blood.
