

The Mightiest Little Peasant Chapter 2441

Si si si!

The great void sect master spat out immortal blood and was sent flying. The divine incantation sect master and the others gasped in shock.

Just now, they had already discovered that this kid's aura was already at the great circle of one aperture, which was already very shocking.

They could not believe that the great void sect master, who was a veteran venerable sovereign, could not defeat the two of them.

Even though this young man had a treasure like the xuanhuang ancient Qi, the great void sect master had many tricks up his sleeve. How could the immortal body that he had spent thousands of years to cultivate be inferior to that of a newly-advanced immortal body?

How could this immortal body be so powerful?

Their eyes shone with divine light as they stared at the figure.

The great void sect master only managed to stop himself after he was sent flying for over a thousand feet. His face was flushed red.

He was actually defeated!

The great master of the great void heaven had actually lost to a barbarian from the lower realm! He's still a young kid!

He could not accept this at all.

"Again!"

He roared and madly urged the Qi in his body. The Golden immortal blood in his body began to boil and surge like a violent wave, releasing a violent force that rushed to his arm.

He hissed and turned into a shooting star, blasting forward brazenly.

Tang Hao grunted. He clenched his fist and met the attack.

Bang Bang Bang!

In an instant, the two of them had exchanged over a hundred punches. The force exploded, tearing out pitch-black cracks in the surrounding void.

Pfft!

Another sound of blood being spat out.

The great void sect master was sent flying again, and the undying immortal radiance on his body dimmed a little, revealing his crazy and ferocious face.

Ever since he had become the Dao master, he had never been in such a sorry state.

On the side, the other five great sovereign emperors looked extremely solemn.

Fellow Daoist great void's immortal body was made up of the great void divine body and the blood of hundreds of ferocious beasts. It was extremely powerful, and no one dared to say that they were stronger than him.

Since even fellow Daoist great void was defeated so thoroughly, they couldn't either.

Although they had many Dao Masters who owned the treasures of an ancient orthodoxy, this kid's luck was heaven-defying, and the treasures on him were no less than theirs. He had a basket of nine tribulations weapons.

Even if they didn't fight with their bodies and used tribulation weapons, they wouldn't be a match.

Therefore, in terms of one-on-one combat, none of them were a match for this kid.

"Everyone, please work together to suppress this fiend!"

The devil Dao ancient Emperor raised his arm and shouted.

The others nodded in unison. They had to attack together, and with all their might at that. Otherwise, they would not be able to do anything to this monster.

The divine incantation Dao master took the lead. His immortal body glowed, and mysterious incantations appeared on it. They were so dense that there were probably billions of them.

This was the talisman immortal body of the divine curse heaven. The more runes he carved, the stronger he would be.

With the power of billions of incantations, he tore open the void and punched out.

Immediately after, the devil Dao ancient Emperor made his move. He cultivated the devil Dao immortal body, half black and half white, like yin and yang. The two auras, one Dao and one devil, perfectly fused together.

He also threw a punch and fought with his body.

Almost at the same time, the South Pole path master and the others attacked at the same time. They attacked from all directions and bombarded the figure in the middle.

For a moment, six shooting stars broke through the sky, representing the six venerable sovereigns. Before they arrived, the pressure of six venerable sovereigns pressed down madly, suffocating people.

If it was a venerable sovereign, facing six of the same level at once, he would also be terrified and flee in panic.

However, Tang Hao did not show any fear on his face. In fact, he seemed to be excited.

He had yet to fully release all the power he had accumulated during the battle with old man Taixu, and the six of them attacking him at the same time was just what he wanted.

He howled into the sky and threw a punch in front of him, sending the great void sect master flying again. Then, he turned around and threw five punches at the other five.

A few muffled groans were heard.

The five venerable sovereigns were sent flying backward.

Their faces paled, and their minds were shocked to the extreme.

He had punched the six of them almost at the same time and even sent them flying. How ... How was this possible?

Their minds were almost blank, and they could not figure out what was going on!

This brat's strength was at most a level stronger than any one of them. If two or three of them joined forces, this brat would definitely not be a match for them. But now that the six of them had joined forces, why was it that they still could not do anything to him?

Where did he get so much celestial core power to repel six people at the same time?

"Look, his aura hasn't weakened at all!"

"What?!" The devil Dao ancient Emperor exclaimed in shock.

It was unbelievable that the kid's aura was not reduced at all after receiving their joint attack.

"Now ... It's my turn!"

Tang Hao grinned and smirked.

In the next moment, his body flashed and he appeared in front of the great void sect master. He then punched out.

The great void sect master was shocked. He hurriedly blocked the attack, but he was still sent flying. Before he could recover, Tang Hao rushed forward again and punched him again and again. His punches were like a storm.

The great void sect master retreated in defeat. The immortal radiance on his body weakened continuously, and his posture became more and more pathetic.

Bang! Bang!

Another punch.

Kala!

The great void sect master's fist exploded, and golden blood and flesh splattered everywhere.

Ah!

The great void sect master cried out in pain.

Although an eight-tribulation venerable Emperor was not afraid of physical damage and could be reborn in an instant, he could still feel pain.

He retreated in a panic. The flesh on his hand had just regenerated when his opponent punched him again, blowing up his flesh.

Kala! Kala!

His entire arm exploded, and immortal blood splattered everywhere.

He cried out in pain again, looking even more embarrassed.

"You're Reborn!"

Tang Hao roared and threw a punch at his opponent's face.

Bang! Bang!

Half of the great void sect master's head exploded, and red and white matter flew in all directions.

Ah!

The great void sect master shrieked madly. He was furious. He had never been in such a miserable state before. This brat was humiliating him!

However, the crazier he was, the more excited Tang Hao was.

His resentment towards the great void heaven was not something that had just happened for a day or two. Back when he was young master Taixu, he had already hated the great void heaven. Today, he could finally vent his anger.

He aimed at the great void sect master's face and attacked continuously. As the face reappeared time and time again, he exploded it again and again, allowing the immortal blood to splatter.

The path master of the divine incantation path and the others were stunned.

This kid's current appearance was truly somewhat terrifying. He was like a Demon God, incomparably fierce, and abnormally brutal.

"Bastard! I'm going to kill you ... I'm going to kill you!"

The great void sect master shrieked madly as his face contorted into a hideous expression.

A Scarlet light shot out from his eyes.

Ah!

Suddenly, he raised his head and howled. A bright divine light burst out from his newly reincarnated forehead and turned into the mark of a wheel.

"Brat, you forced me to do this!"

The great void sect master roared as he raised two fingers on his right hand and pointed at the seal.
