

The Mightiest Little Peasant Chapter 2443

Kala! Kala!

Cracks appeared on Tang Hao's armor. It could not withstand the power of the immortal weapon.

Bang!

In the end, ye Xi exploded.

The nine tribulations armor, which had been crafted by the night race's primogenitor and intimidated Pangu, was now useless.

Tang Hao did not have time to feel sorry for the loss. He retracted the core of the armor and frantically activated his immortal essence to resist the divine light.

Fortunately, after being weakened by the layers of defense, the power of this beam of divine light had weakened a lot. Otherwise, it would have killed him in an instant. Even if he had the ability of rebirth of an eighth tribulation, he would have died.

Even so, Tang Hao was still having a hard time blocking the attacks. The flesh and blood on his body continued to disappear.

Almost at the same time, his flesh and blood were regenerating.

Destruction, rebirth, the two were constantly alternating.

"Old man Taixu, just you wait!"

Finally, he had worn out more than half of the divine light's power. After he was reborn, his figure flashed and he entered the crack in the void in front of him.

In an instant, he cut out tens of thousands of souls and poured them into the crack in the void. Soon, he found his way back to Pangu.

He went in, shuttled through layers of the void, and returned to Pan Gu.

"He didn't die?"

The great void sect master stood in the shattered Void and stretched his head out into the void. His expression was extremely ugly.

Even though he had used a true immortal weapon, he still couldn't kill that monster?

"What a pity!"

The divine incantation path master and the others were vexed.

“However, this attack was not without any gains. At least he was seriously injured. He won’t be able to recover without a few years of effort. Moreover, his armor and King Roc halberd are all useless, so his combat power is greatly reduced.”

The devil Dao ancient Emperor said.

“This kid has already perfected one aperture. We must break through as soon as possible and open the second aperture. Otherwise, when he recovers, we’ll be helpless again.”

After a pause, the devil Dao ancient Emperor continued.

“It’s not that easy to open the second aperture. There were only a few aperture opening pills in the xuanhuang tower. We didn’t get any.” The path master of the divine incantation path shook his head.

If it was so easy to open the second aperture, they wouldn’t have been stuck at the great circle for so many years.

In the 8th tribulation realm, it was harder to open one aperture after another because there were too few top-grade spiritual essences suitable for them in the world today.

“I can only try my best. I might be able to gain something if I explore some more hidden ruins.”

The devil Dao ancient Emperor said.

“Let’s go!”

Then, they flashed and disappeared from the void.

“He’s indeed a peerless monster. Even a celestial artifact can’t kill him.”

In the distance, the group of venerable sovereigns were watching. They were all shocked to see that fellow Daoist Haotian had successfully escaped.

This was an attack from a celestial artifact. None of them were 100% sure that they could block it.

“This time, the great void heaven is going to hurt his bones and muscles. Just this attack alone has burned God knows how much spiritual essence and medicinal pills. I’m afraid he won’t be able to recover his vitality without a few decades.”

“Fellow Daoist Haotian, you’ve destroyed a lot of nine tribulations weapons. What a pity!”

They discussed for a while and then left.

“You didn’t die? what a pity. But it’s good. When I recover my divine power, I’ll kill you myself!”

With an angry Hmph, the pagoda shook and disappeared.

In the sky above the desolate north, a beam of divine light streaked across.

Tang Hao returned to the gate of fortune as quickly as he could.

He sat down in the cave and checked his condition.

Fortunately, the ancient Buddha's sarira flower provided him with an endless stream of celestial core power. His injuries were not serious, and his Foundation was not damaged. However, the continuous regeneration had consumed a large amount of vital Qi in his flesh and blood, so he needed a few months to recover.

"The losses this time are too great!"

Tang Hao's face fell as he took out the broken treasure.

These were all 9th tribulation treasures. If they were thrown out, all the major ancient clans in the eight desolates would break their heads. But now, five or six of them had been destroyed.

Ye Cha and the king Roc halberd were his best treasures, but they were all gone.

"Old man Taixu is too much of a bully!"

Tang Hao looked up at the sky and cursed under his breath.

Sooner or later, he would kill that old geezer of the great void sect and refine him. The treasures of the great void heaven would all be his.

"It's alright. The harvest this time is not small, and I didn't lose much. "

He took out the nine ancient Buddha sarira flowers.

Two of them had lost their petals, and there were only seven left.

"Seven ... That's enough to open an aperture!"

He estimated.

He entered the mobile immortal's cave and took care of the spirit herbs inside. Then, he dug a pond in the garden and put the nine sarira flowers in it. He then placed the sarira that he had taken from the shrine around it.

There was not much energy left in these relics, but they could still be used for a period of time.

At that time, he would use the celestial water to irrigate it.

This celestial water was extremely magical. As long as it was a plant, it could water it. This sarira flower was also a plant, so it could naturally be watered as well.

After leaving the herb garden, he went out of the cave abode to see Zao huaizi.

After a while, a divine light flashed in the sky, and a figure appeared. It was the Lord of numinous treasure.

After the spirit treasure path master, the Vermillion Bird path master also arrived. There were also a few venerable sovereigns who were close to Tang Hao. They had all come to check on his injuries.

Seeing that he was fine, she left with a peace of mind.

After sending them off, Tang Hao went into seclusion.

It took him three months to recover his body to its peak state. Then, he started to open the second aperture.

The principle of opening an immortal aperture was simple, it was to use immortal essence to blast an aperture out of the immortal body, this required a huge amount of energy.

The aperture opening elixir contained a huge amount of power that was enough to open acupoints, which was why so many venerable sovereigns were after it.

Tang Hao could achieve the same effect as the aperture opening pill by using seven sarira flowers.

He plucked all the petals, rolled them into a ball, and swallowed them.

Next, he guided this energy to open up his acupoints.

Everything was going smoothly.

The first acupoint was above his dantian's sea of Dao, while the second acupoint was on his right arm.

With this aperture opened, not only did the celestial core power in his body increase, but the strength of his right arm also became stronger.

Half a month later, he came out of seclusion.

His second immortal aperture had already been successfully opened.

If he were to face the great void sect master and the others, he could blow them up with a single punch. However, he still could not kill them.

"The ROC King's divine halberd is gone, and the first clone still has the celestial Spear of fighting heaven ... Forget it, I won't need any treasures for now. The most important thing now is to find the immortal pearls. As long as I can gather all the immortal pearls, I can make a true immortal weapon."

He had only obtained one of the seven celestial beads on the pig slaughtering knife. The blue celestial bead was obtained from killing old demon mu. There were still six celestial beads left, but he didn't know where they were scattered.

“Let’s go and find it!”

After informing Zao huaizi, he left the mountain Gate, transformed into an ordinary cultivator, and left.

The pig slaughtering knife’s sensing range wasn’t large, so he could only do this and personally search the places one by one.
