

The Mightiest Little Peasant Chapter 2452

“What a heavy Yin Qi!”

After the six of them had traveled for a distance, they could sense the thick Yin Qi in their surroundings.

“It seems that the news is correct. There is indeed a corpse of an ancient great wizard in the ancient sorcerer realm!”

The leader said.

This person was the great void sect master.

The other five were Shen Mang, the two Dao Masters of the South Pole, and the devil Dao ancient Emperor.

The great void sect master looked at the South Pole sect master as he spoke.

“The information recorded in the ancient books of the South Pole is naturally not wrong!” The South Pole path master stroked his beard and laughed smugly.

This time, he had heard that the Zhu Rong clan was about to open the passage to the Magus world. He had read the ancient books in the sect and found this opportunity.

“I hope I can find some real treasures this time!”

The devil Dao ancient Emperor sighed.

Hearing this, the other people all frowned and their expressions dimmed.

During this period of time, they had been running around, looking for opportunities to improve their own realm so that they could deal with that little demon.

However, after running around for so long, the effect was not obvious. They still had not found a treasure that could allow them to break through.

As long as he did not break through, they would not be able to do anything to that monster!

Previously, in the ruins of the Tathagata divine sect, the six of them couldn't deal with that monster even when they joined forces. They were even beaten up badly. It was truly a humiliation!

“The ancient wizard was a high-level creature like a god. There must be some rare spiritual essence in his body. If we can find it, it will help us break through to the second aperture.”

The great void sect master said, “by then, we can easily suppress that brat when he comes out of seclusion!”

“You’re right, fellow Daoist!”

The South Pole path master and the others chuckled as their furrowed brows relaxed.

The only good news was that the kid was severely injured by the fairy weapon and was still healing in the mountain of fortune. This was their chance.

“If there’s an opportunity this time, and everyone can break through, I would like to ask everyone to help me with something.”

The great void sect master added.

“Oh? What is it, brother great void?”

The path master of the divine incantation path laughed.

Now, the six of them were in an Alliance, attacking and defending as one. If it was not a very important small favor, there was no harm in helping.

“It’s about that old demon blood!”

The great void sect master said, “as you all know, old demon Xue and that little demon are the same. They both came from the lower worlds and are in cahoots. If it wasn’t for old demon Xue’s protection, that brat would have died long ago. If we want to get rid of that little demon, we have to get rid of old demon Xue first!”

“That’s true!”

The divine incantation path master and the others pondered for a moment before nodding.

Xue qianchi, this old monster, was also a scourge.

It was obvious that old demon blood was easier to deal with compared to the two.

“Good! If we can get rid of this old demon Xue, that would naturally be the best. This old demon has a lot of good things on him!” The South Pole path master said.

“Then it’s settled!”

The great void sect master laughed.

He was overjoyed. The secret of the great void seal was only known to the great void heaven. There were already seven seals in the great void heaven. As long as he got rid of old demon Xue and that little demon, he would be able to gather all the seals and open the divine treasure left behind by the great void God.

That was the treasure left behind by the great God Taixu, a true ancient giant. There must be countless rare treasures. If he could get it, he would have the hope to advance to the ninth tribulation and even have the chance to become an immortal.

The realm of true immortality was a fatal temptation for any cultivator!

He would not give this opportunity to anyone, including his fellow disciples.

A few days ago, he had heard some news, which made him anxious to gather all the imprints as soon as possible.

If it had been a little later, this opportunity might have fallen into someone else's hands.

As they spoke, the few of them swept along.

The yin Qi in front of them became more and more dense, turning into a solid fog. If a Saint with lower cultivation came in, he would be eroded by the yin Qi and lose his mind.

The six of them exuded immortal radiance and blocked the yin Qi as they continued forward.

About an hour later, a vast mountain range appeared in the fog ahead. They could sense that the source of the yin Qi was this mountain range.

"This isn't a mountain, this is a corpse!"

The great void sect master exclaimed after a moment of observation.

It was not a mountain, but a huge corpse. The corpse fell to the ground and turned into a vast mountain range.

"This pressure ... That's right, this really is the corpse of an ancient great wizard!"

They sensed it again, and they all looked excited.

The ancient great wizard was a living being at the level of true immortal.

This kind of creature only existed in the ancient times!

It could be said that this was a true immortal level corpse. The green wood celestial race corpse that had appeared in the eight desolates last time was not at the true immortal level.

"That's great! That's great!"

They clenched their fists and were extremely excited.

At this moment, another figure on the other side was looking at the corpse with excitement.

"Wahaha! I didn't come to the wrong place! I'm really rich this time!"

This person placed his hands on his waist and laughed out loud. He was so happy that he was about to go crazy!

“An ancient great shaman? A real immortal’s corpse!”

Another figure came from another direction and discovered the corpse. It was Tang Hao.

He stared at the corpse in front of him with a burning gaze.

This was the first time he had encountered a real immortal corpse!

There must be a treasure in this immortal corpse!

After a while, he suppressed his excitement and flew up to look down at the corpse.

“His head was smashed, his chest was broken, and even his limbs were broken. It’s really miserable. It can be seen how tragic the battle was back then!” Tang Hao mumbled.

The one who had killed this immortal level great Magus must be a Dragon count God of the same level.

The battle between two true immortal level beings was bound to be earth-shattering.

“Eh? There’s someone else ... There’s more than one person!”

Just as he was about to dash forward to investigate the immortal’s corpse, Tang Hao’s mind flickered. He sensed the fluctuations of a few auras in the distance.

He thought it was Liu heihu, but his expression turned strange when he checked.

There were actually six people!

They were the great void sect master’s group of six!

“It seems like they’re very well-informed. They’re always in places with treasures.” Tang Hao said to himself.

He muttered to himself for a moment before he concealed his aura and his tracks.

“Eh? Why is there still someone else? isn’t there just one person? I’ve really seen a ghost!”

On the other side, Liu heihu couldn’t hold back his excitement and was about to pounce forward. In his eyes, this immortal corpse was like a naked, sexy fairy. He couldn’t hold back his desire.

However, at this moment, he noticed an abnormal aura in the distance.

“Six! F * ck! Don’t tell me it’s that six-man Group of bastards!”

Liu heihu looked again and was stunned.

“Alright! I’ve bumped into you six bastards again. This time, you’ll see how I’ll deal with you!”

Liu heihu gritted his teeth and smiled eerily.

Just like Tang Hao, he also hid his tracks.

At this moment, the great void sect master and the others, who were completely unaware of what was going on, were excitedly rushing towards the immortal corpse. Their faces were all red and they could not stop smiling.
