

The Mightiest Little Peasant Chapter 2455

Tang Hao found a place and sat down.

He wasn't afraid of old man Taixu and the others catching up to him. Now that he had opened two apertures, he wasn't afraid of them at all.

He counted the treasures in the ring and organized them.

There were quite a few treasures. Among them, there were a few nine tribulations Supreme weapons that he could still use. There were also some rare spiritual medicines that he could plant in his own medicinal garden. The rest would be left for the gate of fortune and the disciples of Kun Lun.

Tang Hao took out the five divine fruits after he was done with the ring.

These divine fruits were rather big, and he had to carry them with both hands.

"Witch Qi ..."

He sensed for a while and found that these few divine fruits were all condensed from pure magic power, and they were the magic power of the Zhu Rong clan, which was made for them.

"The methods of the Sorcerer tribe are really magical!"

Tang Hao praised.

He could also absorb the Sorcerer Qi inside. After all, both sorcerer Qi and immortal Qi were a kind of energy between heaven and earth and were interconnected. However, if he absorbed them, the transformation efficiency would not be as high as that of the Sorcerer tribesmen.

He estimated that he didn't need five, only two or three, and he would be able to open a new aperture.

"Right, if I let the origin core avatar absorb it, will the efficiency be higher?"

Tang Hao suddenly remembered his origin core clone.

The origin embryo of heaven and earth was a rare divine embryo that could easily absorb the origin Energy of heaven and earth. If he let his clone absorb it, he might be able to completely absorb all the energy.

"Just in time! I'll use three of them and give the remaining two to my origin core so that it can smoothly advance to the 8th tribulation."

Tang Hao pondered.

Previously, he had placed his origin core on the Kunlun star and merged it with the star core. He had used the star's power to absorb the Qi of heaven and earth to improve his cultivation.

At the same time, it could also change the environment of Kunlun and increase the density of the immortal Qi.

After such a long time, his cultivation should have improved by quite a bit. He should have three to four thousand HP!

Two divine fruits were enough to advance his origin core.

As long as one's spirit essence was sufficient, the strength of one's origin core would increase very quickly, and there was no threshold at all.

Once his clone also advanced to the eighth tribulation, his strength would double. By then, even if those venerable sovereigns who spread the news really came back, he would not be afraid at all.

Tang Hao put the divine fruit away and took out the pig slaughtering knife.

He had embedded several immortal pearls he had collected during this period of time into the saber. There was already immortal Qi on the saber, and it had become sharper. The blade was shiny, but he still could not activate it like an ordinary tribulation weapon.

Ordinary tribulation weapons could be activated by divine sense and controlled from a distance. Even close combat weapons like King Roc halberd could do it. However, this thing couldn't do it. It had no reaction at all.

He could only carry it and cut it himself.

"He just looks a little shabby!"

"It's so beautiful!" Tang Hao sighed after studying it for a long time.

This saber was good in every way, but its appearance was too ugly. It was simply too horrible to look at.

"Forget it! Since it's a celestial artifact, I'll forgive it!"

Tang Hao sighed and put the knife away.

Who asked him to be so poor? he didn't have a second celestial artifact, so he could only use it reluctantly.

Then, he stood up, dusted his hands, and dashed toward the exit.

He had checked this Jie and there was nothing else. It was time to leave.

At this moment, the great void sect master and the others were standing beside the Spirit Tree with extremely ugly expressions.

Not only were the divine fruits gone, but two of them had also lost a body full of treasures. The losses were too heavy.

“That kid ... How is he completely fine?”

“Did you notice that the boy’s aura seems to be stronger than before? Has he broken through to the second aperture?”

As they discussed, they found it unbelievable.

Their expressions became even more dejected.

Last time, they had paid a huge price to injure that kid. They thought that this could temporarily suppress his growth and buy them time. But they didn’t expect that it was completely useless and all their efforts were in vain.

Now, they had been tricked by this kid again.

This incident was like a slap to their faces, causing them to feel dizzy and at a loss.

“And that Black Tiger, why is he here? Did he collude with that kid to ambush us?”

“Hmph! That must be the case. Otherwise, how could there be such a coincidence? Two of them appeared one after another.”

They also hated the black Tiger thief.

Especially the devil Dao ancient Emperor, when he talked about the black Tiger thief, he looked like he wanted to eat him.

If Liu Heihu was here, he would have vomited blood.

F * ck! Who is on the same side as that pervert? Your entire family is on the same side as that pervert!

“Let’s go!”

After cursing a few times, they turned around and left.

When they came, they were all overjoyed, but when they left, they were all like frostless eggplants.

“Fellow Daoist, did you gain anything inside?”

After leaving the Magus world, Tang Hao returned to the ancient city of Zhurong.

Elder Zhu Rongshan came up to him and said with a smile.

“There are! This time, I owe you a big favor, and I’ll definitely repay you in the future!” Tang Hao smiled at Elder Shan, then cupped his hands.

The direction he cupped his hands in was not towards elder Shan, but behind him.

Tang Hao's words were meant for the man from the Zhu Rong clan.

The Zhurong family had a profound background. They even had the corpse of a celestial level great wizard. They must have grown many similar divine fruits over the years. There must be an eight-tribulation venerable Emperor in the family who had a high cultivation base. He must be at least an old monster with two or three apertures opened, or even higher.

Although this person had yet to appear, he might be observing in the dark. His words were also to make good friends.

"Ah! Fellow Daoist is too polite! The gains inside are all your own opportunities, no need to thank me!"

Elder Shan said with a smile.

Tang Hao left after exchanging some pleasantries.

Before he left, he even reminded elder Shan to look after the clan's treasure vault to prevent it from being patronized by lowly people.

After leaving the ancient city of Zhurong, he found a place, set up a formation, and sat down cross-legged.

He took out three divine fruits and swallowed them one after another. Then, he started to absorb them and break through his aperture.

A few days later, he retracted the array and walked out of the valley.

The aura on his body was much thicker, and the immortal radiance was even more dazzling.

He was not in a hurry to leave. Instead, he walked through the Wildlands in search of the celestial Pearl.

After that, he returned to the gate of fortune and gave many treasures to Zao Huazi.

After passing through the dimensional passage, he arrived at the Kunlun star. He greeted the old locust tree and went straight into the Star core to awaken his origin core avatar.

"5000 HP ... What a fast speed!"

Tang Hao was shocked when he saw the clone's cultivation base.

How long had it been? his cultivation had increased by three to four thousand blood. If those old monsters were to turn into stars, they would have to cultivate for a few hundred years.

"Many thanks, fellow Daoist!"

The clone received the divine fruit and stuffed it into his mouth. He did not need to sit down to refine it. He merely rubbed his stomach and burped, and the aura on his body began to soar.

Six thousand, seven thousand, then eight thousand ...

In a short while, his aura rose to the peak of ten thousand blood.

After that, he broke through easily and advanced to the eighth tribulation. Everything was as simple as drinking water and eating.
