

The Mightiest Little Peasant Chapter 2485

After entering the immortal estate, there was a large hall.

There were several exits that led to different directions.

Next to Tang Hao, xiuzhe continuously poured in and scattered in all directions.

Tang Hao narrowed his eyes. He activated his heaven's eye and scanned the palace.

This godly Thunder immortal abode was quite large, with thousands of palaces densely arranged in rows.

But there were no xiuzhe in between these palaces.

It's been almost two days since the immortal mansion appeared. At least tens of thousands of people have passed the trial in the sea of Thunder and entered the immortal mansion, so this situation is really strange.

"I'm afraid there are small worlds set up in these palaces. Each Palace is a trial."

Tang Hao guessed.

This godly Thunder immortal abode was built by the Saint Palace in the upper province, and it was used for trials. It was very different from ordinary ruins.

The sea of lightning just now was a kind of trial, so there must be many trials set up in this immortal mansion.

"I'd like to see what the Saint Palace of the upper province has up their sleeves!"

Tang Hao grinned. He picked a random path and went through it.

As soon as he stepped into the passage, he noticed that the void beside him was changing violently.

"It's a teleportation formation!"

Tang Hao exclaimed in his mind.

The next moment, he looked around and found himself in a wild land.

With a single glance, there were majestic mountains that were hundreds of thousands of feet tall everywhere. Giant beasts were walking in these mountains. There was the Golden Lion Clan that was shining with golden divine light, and there was also the Suan ni clan that was enveloped in lightning and had a body as large as a mountain ...

Tang Hao also saw many familiar giant beasts, such as the ancient divine ape, the cloud wing Tiger, the nine colored divine deer, and so on.

When he raised his head and looked up into the sky, he could see many huge figures. There were blue Luan, nine-headed Eagles, and even the ROC clan.

“What’s that?”

Suddenly, Tang Hao’s eyes narrowed. He saw an enormous figure looming in the sea of clouds at the end of the sky.

It was hidden in the sea of clouds and its body was so long that one couldn’t see the end. It stretched for more than a hundred thousand feet and was shockingly huge!

“It’s Ying long!”

Tang Hao was shocked when he saw it.

It was a giant dragon that looked very much like the Guardian beast of Kunwu.

“The ROC clan and the winged Dragon, why are there so many primeval beasts here?”

Tang Hao was shocked.

The winged rain-Dragon and the ROC clan were the top existences in the untainted land. How could they exist in the trial ground?

“So it wasn’t true!”

He activated his heaven’s eye and carefully examined these giant beasts. Only then did he realize that these ancient giant beasts were not real. They were not flesh and blood, but a kind of soul.

In this world’s special environment, when these souls materialized, they looked no different from real souls.

“These souls are very powerful. The weakest is at the eighth tribulation level, and some have even reached the level of seven or eight apertures. Especially that Winged Dragon, who has opened nine apertures ...”

“They should be formed from a trace of the ancient nine tribulation beasts” spirit, just like the divine sense of the Saint Buddha in the Buddha shrine. Moreover, there should be a formation in this world to enhance their strength. ”

Tang Hao quickly understood the rules of this realm.

At the same time, he also realized that this immortal mansion had its own screening ability. Cultivators of different levels would be sent to different trial grounds.

And the one in front of him was the trial ground for eight-tribulation venerable emperors.

Tang Hao released his divine sense to explore the world and found a few figures. One of them was the emissary from the Tang Clan in the Holy region.

Sensing his aura, the Tang Clan emissary glanced at him and snorted coldly.

Then, he turned around and continued to fight with the Golden divine ape in front of him.

Tang Hao watched from a distance.

Although the divine ape was a soul, its strength was not inferior to a real divine ape under the support of the magical formation of this realm. It fought back and forth with the four apertures Tang Clan emissary for more than 15 minutes before it was defeated.

Tang Hao's Messenger threw a punch and the divine ape's soul body exploded, filling the sky with golden light.

In the golden light, an object fell and was taken by the Tang Clan envoy.

"Another treasure chest!"

Tang Hao's expression turned odd when he looked at the screen.

There was a treasure chest in the black and yellow tower. He didn't expect there to be one in this trial ground. Could it be designed by the same person? How much did people from the sanctuary-realm love treasure chests?

He ridiculed in his heart.

However, he had to admit that the setting of the treasure chest was indeed very classic, and it was often addictive to open it.

"Emperor essence pill ... Not bad!"

The messenger opened the treasure chest and looked a little disappointed.

The Emperor essence pill was suitable for great emperors and was used to increase cultivation. It was an upgraded version of the origin nurturing pill. It was also valuable, but it was far inferior to the aperture opening pill, which could increase cultivation by a large amount.

An Emperor essence pill could only increase a venerable sovereign's cultivation level, while the aperture opening pill was a super pill that could open an immortal aperture for a venerable sovereign. The two were not on the same level of rarity.

"Emperor Yuan pill! This is good stuff!"

Tang Hao's eyes were burning with passion.

He had already opened three apertures. To him, an Emperor essence pill didn't bring much improvement, but to a seven tribulations expert, an Emperor essence pill was a divine pill. One pill could increase his blood by more than a thousand.

He had used the ten thousand bloodied fiendbeasts to refine a large number of nourishing pills, and each pill's medicinal effects were similar to this Emperor essence pill.

But in Pangu, there weren't that many ten thousand bloodied fiends, so pills of this level were extremely rare.

"There are so many soul beasts, how many Emperor essence pills are there ..."

Tang Hao's eyes glowed as he looked at the beasts.

"Mine, all of them are mine!"

Tang Hao couldn't help but attack.

His figure moved and pounced towards the Golden Lion closest to him. He didn't even use the Tribulation weapon and directly threw a punch.

The ancient Golden Lion, which had a huge body and a ferocious appearance, was blown up.

A treasure chest fell from the golden light.

Tang Hao grinned when he opened it.

It really was an Emperor essence pill!

"This Golden Lion has opened around one aperture, and that divine ape has opened four apertures, but the rewards are both monarch essence pills. The rewards for these levels may be similar, but what if it's seven, eight, or even nine apertures? What kind of reward will it be?"

Tang Hao raised his eyes and looked at the winged Dragon at the end of the sky.

He was a nine acupores Overlord, so the reward must be extraordinary.

"First, I'll collect the one apertures, then the two apertures, then the three apertures. This will be the most efficient way."

Tang Hao flicked his sleeve, and a few beams of divine light flew out. They were the demonic soul and the two 8th tribulation clones.

"Emperor essence pill? What a great treasure! What? There might even be aperture opening pills?"

When the demonic soul heard this, he was extremely excited.

He rushed out without Tang Hao's urging and beat up any beast he saw. He had opened two apertures, and with the ancient devil Gu and the nine tribulations halberd, he could easily kill a beast at the first aperture level.

Soon, he had killed a few.

His two clones followed closely behind and began to harvest.
