

The Mightiest Little Peasant Chapter 2487

In the training ground, the rumbling sounds continued.

Giant beasts were constantly killed, and divine light filled the sky as treasure chests dropped.

After opening it, the things inside were the same, they were all Emperor essence pills.

“Why is it another Emperor Yuan pill?”

The venerable sovereigns from the sacred zone were a little disappointed.

To them, the Emperor essence pill wasn't anything particularly rare.

“I heard that the sanctum brought a few aperture opening pills and used them in the trial. They must be here!”

“Continue searching!”

Their target was the aperture opening pill.

For Emperor realm Saints, the aperture opening pill was the true treasure. It was extremely rare even in the Saints.

Soon, the beasts from one to three apertures were all killed. The remaining beasts were four apertures or above.

By then, most of the local venerable sovereigns in Pangu had stopped. Most of them had only opened one aperture. There were not many who had opened two apertures like the master of numinous treasure path. Even if they had opened two apertures, they had no chance of winning against a giant beast with four apertures.

Although these giant beasts were souls, they were all formed from the souls of the ancient nine tribulations. In addition to the support of the formation, their strength could not be underestimated.

Based on the same cultivation, these giant beasts were only slightly weaker than the xiuzhe.

It was still extremely difficult to cross realms and kill.

“I didn't expect that ... He has already opened three apertures!”

“What terrifying speed!”

The master of numinous treasure path and the others gathered together and looked into the distance at the figure who was fighting a four-acupores giant beast. They were shocked and emotional.

They still remembered that the last time they were in the ruins of the Tathagata divine sect, this person's cultivation was still at the first aperture realm, the same as most of them.

But now, he had opened two apertures in a row and advanced to the realm of three apertures, leaving them far behind.

This speed was truly terrifying!

"This kid ..."

Old Daoist Xu Yuan smiled bitterly.

Back in the divine tomb, this kid was only at the 7th tribulation and he had to call him senior. But now, it was his turn to call this kid senior.

He was depressed when he thought about how the kid was not even a hundred years old.

Why was there such a huge difference between people?

"I've long known that fellow Taoist Haotian was not ordinary. Back then, the Cangjie clan used a secret skill to find out his whereabouts, but it was to no avail. At that time, I knew that his fate was not ordinary."

"Also, during the treasure fall, his luck was extraordinary. It surpassed young master Taixu and the other geniuses ..." Numinous treasure path master stroked his long beard and smiled smugly.

Among all the venerable sovereigns, he was the first to have a good relationship with this person, and his friendship with him was also the deepest.

"Tsk, you can keep bragging!"

"I also saw through it long ago!"

The Dao Masters of the various heavens all chimed in.

"Although fellow Daoist Haotian is powerful and his fate is like that of a demon, the opening of the Holy region this time is also a Great Tribulation for him. I'm afraid that there are many ancient clans in the great void heaven who will take action."

The group of venerable sovereigns sighed with emotion. Suddenly, one of them said.

It was the Vermillion Bird path master. His brows were slightly furrowed, and he had a worried expression.

"Yup! Before I came in, I heard that he had a falling out with the Tang clan's emissary. That's not good news."

“Also, the emissary from the great void heaven is quite powerful. He has a cultivation base of six apertures and is famous in the upper province for being ruthless. His divine powers are unpredictable.”

The group of venerable sovereigns discussed in a low voice and looked a little worried.

“We can’t help him now. He can only rely on his own luck!”

Numinous treasure path master looked into the distance and sighed.

Bang!

A deafening explosion erupted in that direction.

Tang Hao exchanged a punch with a divine ape in front of him.

The divine ape’s body flew out and exploded the moment it fell to the ground, turning into golden light.

Among them, a treasure chest fell.

“It’s still the Emperor Yuan pill!”

Tang Hao opened it and took a look.

He was still somewhat happy. To him, Emperor essence pills were good things. He had a large family and business, and he still had many people to feed. He didn’t know how many people there were in Kun Lun and the creation sect. Naturally, the more Emperor essence pills he had, the better.

However, the venerable sovereigns from the four sanctuaries were a little disappointed.

They all withdrew their divine senses and continued to fight the giant beasts in front of them.

Every time a treasure chest appeared, they would pay attention to it.

“Eh? What’s that?”

Tang Hao put the pill away and looked around for his next target.

Suddenly, his eyes narrowed. He saw a silver stream of light rapidly moving through the forest in front of him.

This streak of light was even faster than lightning, so fast that it was somewhat inconceivable.

“It’s the marten tribe!”

Tang Hao narrowed his eyes and activated his heaven’s eye to take a closer look. Only then did he manage to catch a glimpse of an afterimage. It was a silver-white Marten.

Unlike the giant beasts, this Sable was very small, only about three feet long. Compared to the giant beasts, it was as small as an ant and was not eye-catching at all. Moreover, its cultivation was only about three apertures.

“He’s the one!”

Tang Hao’s body moved, and he gave chase.

He pushed his speed to the extreme and turned into a stream of light, following closely behind the silver stream of light.

The silver ferret noticed him and immediately sped up, shaking him off in an instant.

“So fast!”

Tang Hao was shocked.

He had never seen such a fast speed.

He had already pushed his speed to the limit, but that silver ferret’s speed was at least twice his. Even if he wore the clear sky armor and had the formation of the battle armor, he would not be able to catch up.

“There it is!”

Tang Hao had an idea.

He activated his heaven’s eye and stared at the flowing light, trying to predict its trajectory. Then, he tore open the void and entered. When he came out, he was already in front of the flowing light.

“Where are you running to?”

“Run!” Tang Hao shouted when he saw the light turn around and try to escape.

The stream of light stopped for a moment.

This moment was enough.

Tang Hao immediately dashed forward and threw a punch.

With a screech, the purple Silver Mink’s body exploded, and a treasure chest fell from it.

In an instant, countless spiritual senses came from all directions and landed on the treasure chest.

“It should be the Emperor Yuan pill again!”

Tang Hao mumbled.

This silver ferret wasn't very strong, only having opened three apertures.

He casually opened the box, but when he looked inside, he was stunned.

Inside the box was another golden elixir, but the aura it exuded was completely different. This was not an Emperor essence pill, but an aperture opening pill!

A single one was enough for a venerable sovereign to open an immortal aperture.

"I'm rich!"

"It's him!" Tang Hao exclaimed. His eyes were burning.

The other venerable sovereigns from the sanctuary were also in high spirits.

They all stopped what they were doing and looked from afar. Their burning eyes were filled with greed.
