

The Mightiest Little Peasant Chapter 2514

“That’s too dark!”

Tang Hao was speechless.

Being an elder here without a salary, how could he still be called an elder? wasn’t he just doing free work for the temple?

Upon seeing this, the Supreme martial artist laughed even more happily.

“Then ... What are the duties of an elder?” Tang Hao said.

“Duty! You have to follow the rules of the Holy sanctum. Sometimes, the Holy sanctum will issue some tasks for you to complete. If there is a situation, you may be urgently summoned. ”

The Autarch said.

Tang Hao’s mouth twitched when he heard that.

Black!

He was too F * cking black!

The Supreme-being smiled to himself and led the group outside, arriving at a large hall.

“This is the place to release and accept missions. For cultivators of every level, missions are different. Also, you can’t take missions that are of a higher level.”

On the left side of the hall, there were stone tablets with lines of small words carved on them.

“This is the 8th tribulation stone tablet. Killing an enemy 7th tribulation, 1 merit point. Ten thousand blood level, 2 merit points. Killing an enemy 8th tribulation, 1 Xun level, 100 merit points. Two apertures, 200 merit points ...”

Emperor Xu Yuan walked to a stone tablet and read it out.

As he read, he revealed a speechless expression.

It only took one point to kill a 7th tribulation.

Although it was easy for an eighth tribulation to kill a seventh tribulation, they might not necessarily encounter it!

Moreover, killing an enemy of the eighth tribulation only gave him 100 points.

Everyone knew how difficult it was to kill a venerable sovereign. It was almost impossible. Even a nine apertures master would find it difficult to kill a one aperture master.

The other venerable sovereigns were also shocked.

“Senior, how many merit points do I need to exchange for one aperture opening pill?” The arch golden scales could not help but ask.

“Look here!”

The Supreme-being pointed to the other side, where there were stone tablets erected again. On them, the exchange prices of various treasures were written densely.

The cultivators found the aperture opening pill at a glance.

After seeing it clearly, he couldn't help but take a deep breath.

“500 points?”

“What?” The arch golden scales couldn't help but cry out in shock.

Killing a one aperture realm venerable only cost 100 merit points, but one aperture opening pill cost 500. He had to kill five one aperture realm venerable sovereigns. This was too much!

How could this be possible!

Even Tang Hao was left speechless.

He was lucky to have killed Xu mie last time. Now, he might not be able to kill someone at the level of one aperture.

He was really f*cking black!

He cursed in his heart.

The Supreme Being smiled, “you must know that the aperture opening pill is a divine pill for the Emperor realm. One pill can raise one's cultivation level by one. It's naturally not that easy to exchange for. You can exchange it for the Emperor Yuan pill. Two merit points for one.”

“Emperor Yuan pill?”

The venerable sovereigns all smiled bitterly.

For a seven tribulation divine Lord, the monarch Yuan pill was a divine pill, but for a great emperor, it was not very effective. Who would exchange their hard-earned merit points for a monarch Yuan pill? it was a huge loss!

“Senior, is there no other way to earn merit points other than killing the enemy?”

Thearch golden scales said.

“There are! You can also refine pills, tribulation weapons, formations, and other treasures to exchange for merit points. We have different exchange standards for treasures of different grades. You can take a look at them in detail.”

The Supreme martial artist pointed at another stele, which was once again densely covered with small characters.

“Refining an eighth tribulation weapon only costs one merit point?”

When the cultivators saw this, they were speechless.

Refining a weapon was a very taxing and time-consuming task. Refining an eighth tribulation weapon would take at least a few days. If the quality was good and the power was great, the time would be multiplied.

Not to mention the mental effort spent, just the time alone was a huge cost.

“One merit point is not bad. Killing a seventh tribulation is only one point. If I refine a hundred pieces, it will be equivalent to killing a venerable sovereign. As long as I refine five hundred pieces, I can exchange it for one aperture opening pill.”

Said Emperor Xu Yuan.

He was very good at forging weapons, so it was not difficult for him to forge an 8th tribulation weapon.

To him, he could exchange 500 of them for one aperture opening pill and increase his cultivation by one aperture. It was already not bad, much better than the lower realm.

“That’s true!”

Thearch golden scales and the others agreed after some thought.

Although it was a little hard, he finally had a stable way to improve.

“In fact, most of the venerable sovereigns in the Holy region are like this. The aperture opening elixir is too rare, and most forces don’t have it. Only the five great sites and the eight great families can have it. The venerable sovereigns of these forces have a much higher chance of obtaining the aperture opening elixir than the other venerable sovereigns.”

The Autarch said.

As he said that, he intentionally glanced at Tang Hao, as if he wanted to ask, ‘do you regret it now, kid?’

However, Tang Hao’s attention was completely focused on the monument. He did not notice the man at all.

“Mm! Interesting ...”

Tang Hao’s eyes brightened as he read through them.

He was still troubled over how to obtain merit points earlier, but it seemed like it was too easy now!

To him, this was too easy.

Wasn’t refining pills, refining weapons, and refining arrays what he was good at?

He looked at the stone tablet and rubbed his chin. His eyes were getting brighter and brighter.

He had decided that he would start to earn money, no, merit points later.

Here, merit points were actually money. He would first make a small goal, raise his cultivation to nine apertures, and then empty the treasure House of the Temple.

Tang Hao could not help but laugh.

“Eh? Elder Tang is still very happy!”

The Supreme-being was stunned.

Shouldn’t this brat be regretting it now? why was he smiling?

Was he an idiot?!

“Oh! That’s right! He was quite happy! Of course, I’m happy to have so many treasures!” Tang Hao said with a smile as he returned to his senses.

“Of course, the temple has many treasures. However, you’ll have to have merit points to exchange for them!”

The Supreme martial artist raised his eyebrows and said.

“That’s easy, it’ll be easy to earn!” Tang Hao waved his hand and smiled.

The other venerable sovereigns were stunned and looked at him strangely.

It was so hard to earn merit points, so why did he say it would be quick? for example, he had to refine 500 pieces of equipment, which would take at least 1500 days to exchange for one aperture opening pill.

“Hmph! This kid really knows how to brag!”

Old demon desolate evil snorted and mocked.

The Mahesvara Buddha was also a little disdainful.

“Woof! Elder Tang, you’re quite arrogant!”

The Supreme-being laughed.

However, he felt that this kid was just casually boasting and didn’t pay much attention to it.

His temple’s exchange standards were extremely strict. Even the five prologue geniuses could only earn little by little. There was no shortcut.

“Let’s go! Next, I’ll take you to see the pill Pavilion, tool Pavilion, and array Pavilion. If you want to refine these things, you’ll have to go to these places to get the materials. ”

Then, he brought everyone out and toured the three pavilions.
