

The Mightiest Little Peasant Chapter 2523

“One piece for 2000 merit points?”

Tang Hao was shocked when he saw the price.

One crystal core was worth four aperture opening pills.

“You want to change to this?”

Supreme Xuan Hong, who was at the side, frowned.

The star Crystal core was a special material. It was a top-notch divine material. Generally, only nine-tribulation Supremes could use it. Therefore, the exchange price was very high for an eight-tribulation venerable Emperor.

Different levels of Saints had different exchange standards.

For example, the aperture opening elixir required 500 merit points to be exchanged for by a venerable sovereign. A seventh tribulation could also be exchanged, but it would require 5000 to 6000 merit points.

When one’s strength was promoted, their merit points would be reset to zero and reset.

“Of course I want to change!”

Tang Hao’s eyes were burning.

How could he miss such a good treasure?

“How many pieces of this thing are left?”

He asked the old man.

“Only three pieces left!” The old man replied.

“Good! Change all of them!” Tang Hao said heroically, waving his hand.

The old man entered the back of the hall and quickly brought out three boxes.

When they were opened, there was a soccer ball-sized crystal in each box. They were crystal clear and exuded a shocking immortal Qi.

“Not bad!”

Tang Hao stepped forward and took a closer look.

Many ancient books on crafts had introduced divine materials like Star Crystal cores. Therefore, he knew a lot about this material and quickly determined the grade of these pieces.

These three pieces were of Ordinary Grade, and they were also the most common Star Crystal cores.

Further up, there were the high, Supreme, and perfect grades.

However, they were too rare and only existed in the ancient times.

In the current era, it was already very difficult to see an ordinary Star Crystal core.

“Good treasure!”

Tang Hao touched it again and again. He was overjoyed.

He had to keep these three divine materials, so that he could use them when he wanted to refine some treasure in the future.

“This six thousand plus the previous seven thousand only cost thirteen thousand!”

Tang Hao put the crystal core away and did some calculations. He could not help but frown.

It was too slow!

After all that, he only spent so little.

“I have to work hard and spend the remaining merit points as soon as possible!”

Tang Hao mumbled to himself and continued reading.

The crowd had long been speechless.

What did he mean by only thirteen thousand?

This beast!

“Waa! You even have the nine-colored sky Crystal, let’s exchange, let’s exchange, I want as many pieces as you have, and this, the Dragon Bone of the ninth tribulation, I also want it, Oh my God! And the yellow Dragon’s reverse scale, the Phoenix’s feather ... I want it, I want it all!”

Tang Hao became more and more excited as he read on.

There were too many materials in the Treasury, and they were all very expensive. His 100000 points were not enough. He could only exchange one or two of each.

The crowd at the side was drooling just by hearing the names of these materials.

Which one of these items wasn’t a treasure that they had been dreaming of?

As for Supreme Xuan Hong, his eyelids were twitching non-stop.

All of them were treasures of the ninth tribulation level. Ordinary venerable sovereigns could not afford to exchange for them, but this kid had already exchanged for more than ten.

“Alright! I’m only exchanging for this amount of mystical materials. I’ll come back to exchange for more when I earn more in the future!”

Tang Hao only stopped after spending another forty thousand merit points.

Supreme Xuan Hong’s eyelids twitched violently.

This kid really wanted to empty his temple’s Treasury!

If it had been before, he would have laughed at this kid for overestimating his ability. However, he now knew that this kid was not boasting. It was really possible.

He could earn 100000 contribution points in four months!

That would be 300000 Yuan a year.

In just a few years, this kid could really empty out the treasure vault.

Just the thought of it made him panic.

What to do? Should I change the exchange rules?

However, if he wanted to change the rules, he would have to gather the other Supreme martial artists and discuss it together. It was impossible to do so in a short period of time.

Supreme Xuan Hong pondered and pressed his forehead, feeling an incomparable headache.

For a moment, he was at his wit’s end.

It could only be said that this kid was too demonic. He was a pervert, a monster!

“You guys also have a Grand Yan golden pill here! One point for three pills? It was too cheap! Let’s start with 3000! Also, give me five thousand Emperor essence pills ...”

He flipped to the medicinal pills section and started to look for more.

Other than the Grand Yan golden pill and the Emperor essence pill, he wanted a lot of other pills.

“That’s right, a wood element tribulation tool!”

After flipping through the pills, Tang Hao remembered that he needed some wood element tribulation weapons. He flipped to the front and used all his remaining merit points to exchange for 6th or 7th tribulation wood element weapons.

“Alright, I’m done!”

Tang Hao dusted his hands in satisfaction after he retrieved the token from the old man’s hand.

He had gained a lot from this trip.

He had exchanged 100000 merit points for a large amount of divine materials, spiritual medicine, medicinal pills, and tribulation weapons. With so many treasures, he felt even richer.

Especially the 12 aperture opening pills, which could help him and his avatar to advance to the nine apertures level.

This was a huge boost to his strength.

Upon seeing this, the crowd heaved a sigh of relief.

It was finally over!

100,000 merit points had been squandered away just like that!

“Elder Tang, congratulations! I exchanged for so many treasures!” Supreme Xuan Hong laughed heartily and said, “what are your plans next? Is it still refining the God slaying banner?”

He naturally felt that this person would continue to refine the God slaying banner.

That was because he had already refined 10000 of them, so he must have gotten used to it and refined them very quickly.

This was also a good thing for the Holy Temple. Because of the difficulty of making Warframes, few people were willing to make them, which led to a shortage of Warframes in the warehouse. They could take this opportunity to replenish a large batch.

“No!”

Tang Hao shook his head.

Supreme Xuan Hong was stunned.

“If you’re not going to refine the God slaying banner, then what are you going to refine?” He asked in surprise.

“Concoct the pill!”

Tang Hao enunciated every word.

“Pill refining?”

Supreme Xuan Hong was stunned when he heard this.

‘This kid is stupid!’

Why did he refine pills instead of the God slaying banner?

Not to mention his alchemy skills, just the efficiency of making money from alchemy was far from comparable to the God slaying banner. He could refine the God slaying banner above his rank, which increased his efficiency by ten times. That was why he could earn 100000 contribution points in four months.

If he were to concoct pills, would he have such high efficiency?

The xiuzhe in the surroundings were in an uproar.

They had the same puzzled expression on their faces.

From their point of view, it was an unwise choice for him to abandon the God slaying banner and turn to alchemy.

“That’s right! It was pill refining! Aperture opening pill!”

Tang Hao grinned. “You don’t have any aperture opening pills, do you? I’ll make some for you.”

As soon as he said this, the surroundings suddenly fell silent.

Everyone’s expression became somewhat dazed.

Aperture opening pill?

Did he know what he was saying?

The aperture opening pill was a divine pill that could only be refined by alchemy gods. There were no more than five such people in the entire sacred Hall.

Just him?

How was that possible?
