

The Mightiest Little Peasant Chapter 2541

“It’s decided then. The normal version costs 1000 Yuan each, and the luxury version costs 3000 Yuan each!”

Supreme Xuan Hong said.

Then, he asked again, “how many do you have now? give them all to me. You don’t know, but a group of people have been waiting in the hall for a long time for this pill! They won’t leave until they get the pill. ”

“Not a lot. There are a hundred of the luxury version and a thousand of the normal version.”

Tang Hao took out a bag.

“This isn’t much?”

Supreme Xuan Hong was a little speechless upon hearing this. He had thought that there would be no more than a hundred pills!

“Let me count. A total of 1.3 million contribution points!”

After he finished calculating, Supreme Xuan Hong grinned.

That was more than a million contribution points!

This kid was going to empty out a corner of the temple’s Treasury again.

“I have to make those guys bleed a little!” Supreme Xuan Hong muttered as he cast a glance in the direction of the Great Hall.

He had spent a lot of money to get this pill, so he naturally couldn’t give it away cheap.

“These are your contribution points!”

Supreme martial artist Xuan Hong received the token from Tang Hao and returned the merit points.

Then, he took the pill and rushed to the main hall.

Above, the guards were dumbfounded.

What kind of pill was that? one pill actually cost 1000 merit points, and there were even Pills that cost 3000 merit points each?

What shocked them even more was that elder Tang had earned 1.3 million merit points in the blink of an eye!

This number was too frightening!

“I’ve earned money again!”

Tang Hao hung the token on his neck and headed to the Treasury with a smile.

It’s time to go to the treasure vault and have a good time!

He was very happy when he thought about how he would have more treasures and become richer.

“One ... One million and three hundred thousand?”

When they saw the number on Tang Hao’s token, the people in the Treasury were so shocked that they thought they were blind.

“Tang ... Elder Tang, did you place a knife on a Supreme martial artist’s neck and snatch the merit points?”

They were all suspicious.

He had spent over 100000 merit points on his last trip here. It had not even been a month. How could he have earned over a million merit points in such a short time?

“Am I that powerful?”

Tang Hao was speechless.

He was only a mere nine acupores master. How could he have the ability to threaten a Supreme martial artist?

Wasn’t this courting death!

“Don’t talk nonsense. This, and this, give me ten portions of each. No, sweep them all away!”

Tang Hao pointed at each line in the booklet.

Three hours later, he had spent all his merit points and left the treasure vault with a satisfied expression.

Previously, the value of the treasures he exchanged for was only 100000, which could be piled up into a mountain.

But this time, it was 1.3 million, which could be piled into a dozen mountains.

“Aiya! There are so many treasures that the ring is almost full. What should we do?”

Tang Hao was troubled.

The immortal execution king ring on his hand was already almost filled with a mountain of treasures. Perhaps when the immortal execution King senior was refining this ring, he never thought that one day the ring would be filled with treasures!

Moreover, they were all high-level divine materials, such as nine tribulations Dragon Bone, nine-colored sky Crystal, nine tribulations tadpole bone, and so on.

“Al! Being too rich is also a kind of trouble!”

Tang Hao raised his head and looked up at the sky at a standard forty-five degree angle. He sighed with sorrow.

At this time, a few xiuzhe that passed by immediately swayed and almost fell down.

Heavens, listen to this, is this guy speaking the human language?

Why don't you just strike him with a world-ending lightning bolt and kill him?

However, they did not dare to scold him. Instead, they squeezed out a smile and called out with a smile, “elder Tang is back!”

He was the most popular person in the divine temple and the most popular man!

“I'm back!”

Tang Hao nodded at them, then returned to the cave abode.

This time, he didn't just go to the upper continent. He also went to the middle continent and had a more detailed understanding of the Holy region.

Originally, he had wanted to walk around for a while longer, but he heard that the news of the pill had spread a little too quickly, and many people had gone to the divine temple, so he could only come back.

Before he returned, he had prepared many sets of materials, enough for him to refine for a period of time.

After he finished refining this batch of pills, it would be time to go to fallen Dao mountain.

There were many true immortal inheritances there, and he might be able to find a suitable cultivation method for his true spirit.

After returning to the cave, he began to refine pills.

This refining process lasted for several days.

In just a few days, the entire Holy region was in an uproar.

After the leaders of the major forces obtained the divine pill from the Holy Temple, they took it back and tried it. The effect shocked everyone.

The previous rumors were all true. This pill was very effective. Even an eight tribulation venerable Emperor would be hit by it easily, let alone a seven or six tribulation one. It was almost a hundred percent guaranteed.

“It really is a peerless divine pill!”

“Supreme Xuan Hong from the sacred Hall said that this pill would be effective even if a nine tribulations Supreme were to consume it!”

The discussions of the people became more and more heated.

In their eyes, this pill had already been sealed. It was the most valuable pill that the Dao of alchemy had produced in the past 10000 years!

It had the power to benefit the common people and change the situation of the Holy region!

As the world became more enthusiastic, the reputation of this pill spread even wider. It had spread to the various floating islands, divine mountains, and even the five great sites and eight great clans.

It was said that the Supreme figures of the five great sites were all shocked and went to the sacred Palace to see Supreme Xuan Hong.

A few Supreme martial artists from the eight great clans had also gone.

Even supreme beings were shocked by the energy contained in the pill.

“Who is the alchemy God who created such a divine pill?”

The people of the world were even more curious about the creator of this pill.

The divine temple did not reveal that the creator of the pill seemed to have intentionally hidden it. This made everyone even more curious.

“It doesn’t matter who he is. With this pill, he can become a God in one move. It’s not a simple title like alchemy God, but the God of alchemy gods. There are eight alchemy gods in the Holy region, but only one can create such a wondrous pill!”

“Right! With this pill alone, this person’s name will go down in the history of alchemy and be on par with the ancestors of the ancient alchemy Dao!”

When this person was mentioned, the world was extremely respectful.

This pill’s contribution was simply too great. It had changed the entire Holy region in one fell swoop!

“Hey! What God of alchemy, what Supreme Alchemist, they’re all too hard to pronounce, especially that Supreme Alchemist, and the Supreme Alchemist of the ninth tribulation. No, I think it’s better to call him the ancestor of alchemy. The ancestor of alchemy, that’s definitely enough!”

“Pill ancestor, that’s a good name!”

In the pill realm, this person’s title had also caused a huge debate.

In the end, in the heated discussion of all alchemists, the title of alchemy ancestor was set, and his status was above the alchemy God.

This was also a Supreme title that had never been heard of in the Holy region pill world for ten thousand years!
