

## The Mightiest Little Peasant Chapter 2557

"I'll dig! I'll dig! I'll dig, dig, and dig!"

Tang Hao was having a lot of fun digging in the pit.

He held the immortal saber and waved it quickly, digging up the blood-colored crystal Soil.

Xu Yuan and Thearch golden scales were on top of it, piling up the soil.

This Crystal Soil could also be considered a treasure.

Soon, Tang Hao dug another twenty to thirty Zhang down, but he found nothing.

"It seems like there's really no more!"

"Daoist Tang, why don't we go somewhere else?" sovereign Xu Yuan asked in disappointment. "It'll be easier to find treasures if no one else has dug it before."

"I'll try to dig a little longer!"

Tang Hao said.

Digging for treasures in this place was purely based on luck. It was the same if they changed locations.

Even a Supreme martial artist couldn't sense what was beneath the ground. They had to dig it up to know.

Moreover, he felt that the more powerful the treasure, the deeper it should be buried.

Because the more powerful the figures were, the bigger the battle formation would be. When their treasures fell, they would definitely smash into the ground and be buried deep. Not to mention a thousand feet, it was possible that they would be buried ten thousand feet, or even ten thousand feet deep.

"Alright!"

Xu Yuan and Thearch golden scales nodded.

They didn't mind since fellow Daoist Tang was the one doing all the work.

Tang Hao continued digging.

Soon, he was another 500 feet.

Ding! Ding!

Suddenly, his saber struck down, and an explosive sound of metal clashing rang out.

This Crystal Soil was hard, and there was a sound when it was shoveled, but it was completely different from this crisp sound.

“It’s sold!”

Tang Hao was overjoyed.

Xu Yuan and Jin Lin’s expressions also changed as they looked down.

Tang Hao carefully dug out the crystal Soil and saw a piece of bronze-colored metal.

“It looks like a cauldron!”

Tang Hao said.

“Is it a celestial artifact?”

Xu Yuan and Jin Lin were excited.

Anything that could be dug up in this place was not of a low grade. It was also a nine tribulation weapon, and even a celestial weapon.

Of course, most of the fairy weapons unearthed here were broken, and some were even completely useless. Because of the tragic battle, there were only a few fairy weapons that could be preserved.

It was said that in the past 10000 years, only five celestial artifacts had been dug out.

On the other hand, there were more than ten damaged celestial artifacts and more than thirty crippled celestial artifacts.

“It’s hard to say!”

Tang Hao reached out to touch it, but he could not sense any aura.

It looked like it was useless, but that wasn’t necessarily the case. Even if it was a complete celestial artifact, it was easy for such a situation to occur. For example, his Bloody Butcher knife didn’t have any aura at all.

“I’ll dig it up and take a look!”

It was not a small object. Tang Hao had to put in a lot of effort to dig it out. It was not a cauldron, but a large bronze jar.

The tank was broken, and a huge hole appeared.

Tang Hao looked at it and shook his head.

It was so broken that it was obviously crippled.

“Al!”

When the two people in the higher-ups saw this, they both sighed in disappointment.

If it was in good condition, how good would that be? he would be rich immediately!

“It’s not bad!”

Tang Hao said with a smile as he touched the jar.

This material was still good. It was not wasted and could be recycled. It could be used to refine a nine tribulations weapon or to refine a celestial weapon in the future. It was a priceless treasure.

Of all the treasures he had, none could compare to this piece of bronze.

“That’s true! After all, it’s an immortal material, and it’s well-preserved in this immortal land, so it’s still very valuable!” Emperor Xu Yuan came down and touched it before grinning.

“This bronze is amazing. I wonder how it was made.”

The arch golden scales followed him down. After touching it, he was shocked.

“To be able to dig up this treasure, it means that this place can still produce goods. As long as we continue digging, we will definitely be able to dig up a treasure!” Tang Hao put away the immortal jar, picked up the bloody Butcher knife, and continued digging.

“Yes! It’s extreme!”

The two of them nodded repeatedly, their expressions somewhat excited.

They continued to help sort out the crystal Soil.

The three of them were all very enthusiastic.

At this time, not far away, a group of people flew over. When they flew past the pit, they heard the sound coming from the hole and were all startled.

“Did you guys hear anything?”

“It seems like someone is digging for treasure there!”

They listened and all looked at the pit not far away.

Then, their expressions turned strange.

How many years had it been since anyone had dug this pit? why was someone still digging here?

Did they not know that the treasures here had long been excavated clean, and what was left was only the layer of Crystal Soil, which could not be excavated at all?

“Where did this fool come from?”

“Go! Let’s go and take a look!”

Immediately, they swept forward and arrived at the top of the pit. They looked inside and saw the three people below.

“It’s the elders of the divine temple!”

They were all surprised to see the three of them in yellow robes.

Since they were from the divine temple, they should know that there were no more treasures here. Why were they still digging here?

“I’ve never seen him before, he’s probably new! I heard that the passage below has opened and many people are coming up!” One of them said.

“It should be!”

The group of people looked down, and their gazes became somewhat disdainful.

Even if the xiuzhe below became the elders of the divine temple, they were still a group of country bumpkins. They didn’t know anything and actually dug for treasures in this broken place. Wasn’t it a waste of effort?

“Look, his blade is so sharp!”

Suddenly, someone pointed down and exclaimed.

“What kind of blade is that? Oh my God! Even Crystal Soil can be easily dug out!”

The others also looked and exclaimed in shock.

This was crystallized deity ground. Ordinary nine tribulations weapons would not be able to dig through it at all. However, this saber could dig through it with ease.

“A celestial artifact! That’s a celestial artifact!”

“Oh my God!”

When they sensed the immortal Qi on the saber, their expressions became a little dull.

Fairy artifacts were extremely rare. Only the Supremes, the five prodigies, and a few others had one. This guy should have come from the lower realm, so how could he have a fairy artifact?

“What’s going on?”

“I don’t know either. I haven’t left this place for three years. How would I know?”

They looked at each other with blank expressions.

They had actually seen a celestial artifact on a xiuzhe that had come down. This was too shocking.

Then, their eyes became a little fiery.

In fact, there was even a hint of greed in the eyes of a few people.

That was a celestial artifact!

A treasure that all xiuzhe dreamed of!

“Do you want it?”

They looked at each other with killing intent in their eyes.

“You can ‘t!”

One of them shook his head.

A fairy weapon was indeed tempting, but the risk was too great. These three were all venerable sovereigns and elders of the divine temple. If they were not killed, it would only bring them great trouble.

They were not confident that they could kill three venerable sovereigns at the same time, even if their opponents were only low-level venerable sovereigns who had opened one or two apertures.

The others muttered to themselves and calmed down.

They all sighed, feeling that it was a pity.

He could only miss out on a celestial artifact.

At the same time, they were a little jealous. They were all venerable sovereigns from the eight major families, but they didn’t have a single fairy weapon. However, a guy from a lower rank had one. It was really unfair.
