

## The Mightiest Little Peasant Chapter 2571

“Where did the lightning tribulation come from?”

“Who is going through the Tribulation in the battlefield of gods and demons?”

Many people around the battlefield of gods and demons noticed the lightning Vortex that had suddenly appeared in the sky.

They all found it strange. They had never heard of anyone choosing to undergo tribulation in the battlefield of gods and demons.

“That lightning ... It’s a little strange. Why is it golden and so dark?”

Then, they noticed that something was wrong.

There was something strange about this lightning!

This was no ordinary lightning tribulation!

“This aura, it’s the world-destroying lightning!”

Someone recognized it and revealed a shocked expression.

“World-destroying lightning? You must be joking! How can there be any world-extinguishing Thunder now?”

Many xiuzhe still did not believe it.

The world-destroying lightning!

That was something that would only be triggered when a heaven-defying item was born. They had only heard of it in legends and had never seen it in person.

At this time, two figures in a confrontation on the battlefield also noticed the lightning tribulation in the distance.

“That’s ... The world-ending lightning? Why is there a world-destroying lightning?”

A cry of alarm.

It was the reverent-God of the nine-colored God race.

He looked at the sea of lightning, his long and narrow horse face full of surprise.

There had never been a lightning tribulation here, so how could there be a world-ending lightning tribulation?

The other figure looked at the sea of lightning with a look of surprise.

It was a middle-aged man with a handsome face. He wore a white robe, and his white hair fluttered in the wind. He didn't exude the slightest aura, nor did he emit any divine light. In his hand was an iron sword.

The iron sword was simple and crude. It was black and didn't have any aura.

"Hey! Jian, is this the doing of your human race?"

The horse-faced Divine Master turned around and shouted at the white-haired man.

"I don't know!"

The white-haired man turned around and shook his head, his expression indifferent.

He really didn't know.

"Damn it, how come you don't know anything!"

The horse-faced Supreme God was a little angry at the cold face.

He had asked just now who the person who had killed 15 great emperors of the Shen clan and had more than 20 law decrees was. This fellow had used the same tone and replied that he didn't know.

"I really don't know!"

The white-haired man still used the same indifferent expression and said.

The horse-faced Supreme God snorted.

Having dealt with this fellow for a thousand years, he knew that this fellow was just like this. He was like a puppet, cold and not like a human at all.

However, no matter how strange this guy was, he was very strong. He was the best in the human race's sword principle. The iron sword in his hand had killed countless people of his God race.

He didn't gain any advantage in the few moves they exchanged just now.

"Hmph! You don't need to tell me, I know that guy's identity must be extraordinary, and he's an extremely important figure in your human race. Anyway, I've already memorized his appearance, and as long as he dares to appear here again, he's dead! You'd better not let him come up again!"

Hierarch horse face snorted.

"Is there such a person in our human race?"

The white-haired man murmured with a confused expression.

How did he not know that there was someone of such status in the human race!

Weren't the five progressors the highest ranking below the Supreme level?

Why did an even higher level one suddenly appear?

A single person with more than twenty dharmic decrees!

This was the first time he had heard of such a thing.

Now, he was even a little curious about who that guy was.

"Hmph! Don't play dumb!"

Hierarch horse face snorted again, becoming even angrier.

This guy was doing it on purpose.

"I'm done. I'll go and see what that thing is!"

He flicked his sleeve, turned around, and flew toward the sea of lightning.

He didn't dare to get close. He stopped after flying for a while. He didn't even dare to release his divine sense. That was the world-annihilating Thunder. If he was affected, he would be in trouble.

He just activated his divine eyes and looked in that direction.

However, he didn't see anything. Right below the sea of lightning was a huge net-like pit, and the heaven-defying object should be in the pit.

"What is it?"

He looked in the direction of the pothole, but he was extremely curious.

The white-robed man also activated his divine eyes and looked over with a curious expression.

At this time, a scream rang out from the pit.

He was the great void sovereign.

The two bolts of world destroying sacred thunder struck down almost at the same time.

Even a nine tribulations Supreme could not withstand the terrifying world-destroying sacred Thunder. His robe had long been blown to pieces, and his body had been destroyed.

That's right!

It was annihilation.

Those who were struck by the divine lightning were all turned into nothingness, without even a trace of blood light.

The qi and blood in his body surged as he began to regrow rapidly.

At the same time, beams of divine light flew out and rushed upwards. They were all tribulation weapons.

The Tribulation weapons kept exploding to help him block the world-destroying lightning.

The state of the Great void sovereign was somewhat miserable, but Tang Hao was in an even worse state. His body was being annihilated in large pieces.

He gritted his teeth and activated the qi and blood in his body to regenerate continuously. At the same time, he activated the Nirvana Sutra at full force.

At the same time, countless divine lights rushed out of his body to help him resist the world-annihilating Thunder.

“Kid, let go of me!”

The great void sovereign roared at Tang Hao as he struggled to resist the divine lightning.

If he didn’t break free, he would be blasted to death here sooner or later, his body and soul destroyed.

“Don’t even think about it!”

Tang Hao grunted coldly and tightened his grip.

“Crazy! You’re f \* cking crazy!”

The great void sovereign’s scalp turned numb.

He had never seen such a crazy guy who wanted to drag him down with him!

He was a little regretful. He had underestimated this kid. He didn’t understand his situation and acted rashly. He had even confidently thought that he had the overall situation under control. He didn’t expect to fall into such a miserable state.

“I ... I can swear that I won’t kill you. I can cooperate with you, and when we open the divine Treasury, I can even give you a part of it! What do you think?”

He said anxiously.

“Do you think I’ll believe you?”

Tang Hao laughed mockingly.

This guy could even kill his own brother, and his personality was a bit perverted. He couldn't believe a single word of this guy.

"You ... You bastard!"

The great void sovereign was furious and roared madly.

He was still struggling to break free from Tang Hao's restraints and the golden child in his arms. That was the most terrifying thing!

However, he had no way to deal with this self.

At this moment, his golden true self was tightly hugged in his arms. His eyes were narrowed, but his lips were moving, and he spat out a profound incantation.

In his body, golden talismans were constantly forming and turning into meridians.

He was cultivating the life scripture of sky extermination immortal Emperor.

Originally, this was meant to be cultivated slowly. After the cultivation was complete, one could undergo the world-ending lightning tribulation. Once one endured it, one's Dao of self would be complete, and there would be no more world-ending lightning tribulations.

But now, he could only compete in speed.

As long as he could cultivate it and survive the lightning tribulation, he would reach the realm of great completion.
