

The Mightiest Little Peasant Chapter 2583

“Fellow Daoist!”

The old man in white walked over and called out.

Qi Lingxiao was getting more and more flustered. If this was exposed, he would lose all his face.

“What kind of fire seed did you get inside? Can you take it out for me to take a look?”

However, what the old man in white said in the next moment stunned him.

This person didn’t seem to have any intention of exposing him.

“Oh! What kind of fire seed does senior want?” Qi Lingxiao came back to his senses and mumbled.

“Do you have the Taixu true fire?”

Tang Hao said.

He didn’t know if it was because he had a grudge against the great void sect, but after he passed through this Pagoda, he didn’t give him the kindling of the great void true fire.

“Oh! There are!”

Qi Lingxiao nodded.

In this Earth Fire Pagoda, there would be rewards after passing a certain level. After reaching the 200th level, the rewards were all Fire Seeds of genuine fires. This time, he had obtained many Fire Seeds again, including the Taixu genuine fire.

As he spoke, he took out a Jade box.

He opened the lid of the box, and a fire Lotus was placed inside.

“That’s right! It’s the great void flame, and I’m lacking this. I’ll trade with you, do you want this Vermilion Bird flame?” Tang Hao also took out a Jade box.

“Senior brother, our sky sword Mountain already has a lot of Vermilion Bird flames. Let’s not exchange them! The great void fire sect is lacking in them.”

The woman behind Qi Lingxiao said in a low voice.

“I’ll exchange!”

Qi Lingxiao shouted without thinking.

How could he not change? if he didn't, what if this person exposed him on the spot?

"Senior brother!"

The woman was a little unwilling and tugged at Qi Lingxiao's robe.

She glanced at Tang Hao with a dissatisfied expression.

She felt that this old monster was using his power to bully others. He was using his high cultivation level and seniority to bully the young.

If he wanted the great void fire, he wouldn't have to make another trip himself!

"Al! Yu 'er, this is a senior, we have to respect him. Isn't it just a ball of fire! It'll be fine if I go down again tomorrow, senior brother!" Qi Lingxiao turned around and comforted her.

"Well said, eldest senior brother!"

"Eldest senior brother is so powerful. Going down to get a fire seed is no joke!"

The male disciples of the sky sword sect began to flatter him again.

Tang Hao looked at Qi Lingxiao with a strange expression.

After he came out and heard the discussions from all directions, he figured out the matter. He was too lazy to expose it. There was no point in breaking this kind of record. It was too easy.

As long as this person exchanged the great void fire for him, he would not pursue the matter.

With this great void fire, he would be able to gather all the known true fire Seeds.

These primordial fires were not weak. They were all connate primordial fires, unlike his Red Lotus primordial fire, which was formed from the combination of Dao fires and then transformed.

Previously, in the No beginning virtual tomb, he had devoured a large amount of fire essence cultivated by no beginning. Only then did he evolve the Red Lotus genuine fire into the connate quality and finally surpassed the connate genuine fire of these ancient orthodoxies.

He had not thought of what to do with these Fire Seeds. He was not sure if his Red Lotus true fire could swallow these Fire Seeds and transform further. For the time being, he did not dare to try it.

No one had ever swallowed so many true fire Seeds before, so no one knew what the consequences were.

Anyway, he would keep it for now and try it out later. Or he could give it to blood crocodile, mo hun, and the old silver Dragon for them to make elixirs.

"That's right, let's do it!"

When the thought crossed his mind, Tang Hao had an idea.

That's right! How slow would it be for him to refine pills alone!

These people had nothing to do anyway, so they might as well come to alchemy. Moreover, they were all nine acupores, and their cultivation was enough to refine divine level pills. They only lacked skill.

Of course, they couldn't make a difficult elixir like the aperture opening elixir, but they should be able to learn how to make a simple true spirit elixir. After they learned how to make it, he would ask them to help him make it. He was in desperate need of such elixir.

"Good idea!"

Tang Hao immediately decided on the plan.

"Does senior still need anything else?"

After changing the fire seed, Qi Lingxiao observed his expression and couldn't help but heave a sigh of relief.

This person really didn't have any intention of exposing him.

"Oh! No more! Goodbye!"

Tang Hao kept the box, then turned around and left.

"Al! Eldest senior brother, why did you change! It's not like you don't know that the sect is short of Taixu fire. This Taixu fire is suitable for weapon forging, and weapon peak is in dire need of it."

Seeing that he had left, the woman called Yu 'er stomped her feet and said in a somewhat angry tone.

"Hey! He was fine! Next time, I'll just go in again. He's an old senior, so I'll just take it as a good karma!" Qi Lingxiao said with a smile.

"Eldest senior brother is wise!"

"Senior brother, you've finally broken the record. Let's go and celebrate!"

The few male disciples said.

"Good! Let's go!" Qi Lingxiao laughed, but he was very happy.

No matter what, this reputation was in his hands. When the news spread, he would be able to show off.

"Al! Eldest senior brother, I heard that the Ji clan is going to hold some kind of conference. Have you heard?" It's that person from the Ji clan. It's said that this time, those who get it can really get intimate with her!"

"I heard that too. It's true. There are many men going to the Ji clan now. Sigh, they should take a look at their own faces. How can those stinky fish and rotten shrimp be worthy of that person from the Ji clan?"

"Senior brother, I think you're the only one in the Holy region who's worthy of the Ji clan's one. Let's go! Take down the one from the Ji clan, and our sky sword Mountain will become even more famous!"

The group of people got up and flew towards the nearest city.

Along the way, they were in heated discussions.

"Bah! That stinky woman is a lecherous slut, how can she be worthy of our eldest senior brother? eldest senior brother, you must not listen to them!"

Yu 'er was a little anxious as she shouted with a red face.

"This ..."

Qi Lingxiao hesitated.

Of course, he had heard of the conference.

It was impossible to say that he wasn't tempted. The Ji clan's woman was the most beautiful and alluring in the world. Which young male cultivator in the Holy region wouldn't be tempted? more importantly, she was the prologue, the prologue of the Ji clan.

As long as it hit, he could press the prologue under his body and ravage it.

It was exciting just thinking about it!

"Cough, cough! Let's ... Go and take a look first!"

Qi Lingxiao coughed lightly.

"Eldest senior brother ..." Yu 'er was a little anxious.

However, it was useless for her to protest. The group turned around and headed toward the Ji clan's continent.

The Ji clan was one of the eight clans and occupied a continent.

"A beauty pageant?"

At this time, Tang Hao, who had just come out of the earth Fire abyss and visited a Tavern in a nearby city, had also heard about this Grand meeting.

He was a little confused.

Was there a beauty pageant in the Holy region that was so trendy?

“Ji clan’s prologue, Ji xuanmei?”

After asking around, he raised his eyebrows and his expression became as strange as it could get.

This Ji clan prologue was a little wild!

“Interesting!”

After asking around for a while, he was somewhat tempted. After drinking, he directly went to the Ji clan’s continent.
