

The Mightiest Little Peasant Chapter 2590

“What?”

Tang Hao was stunned. He wondered if he had heard her wrong.

This guy's expression changed too quickly, and he was still not used to it.

“I said, whatever my Ji clan has, I can give it to you!”

Ji Xuan said with a charming smile.

“What a prodigal!”

The Ji race elders all had the urge to vomit blood.

What do you mean we can give whatever we have? have you ever considered the feelings of our people?

“It's over, I'm 80% sure he's taken a fancy to this guy!”

“This guy's not bad, but he's not interested in our xuzi!”

They whispered to each other.

“You can really give it to me?”

Tang Hao was still suspicious.

“Of course! You can still leave after taking the things!” Ji xuanmei said. The smile on her beautiful face behind the veil grew even wider.

F * ck! Was there such a good thing?

Tang Hao was surprised.

“Then I won't be polite. I want a branch of the three-pure-divine wood!”

Tang Hao said after a moment of hesitation.

He really needed this thing.

The three purities divine wood was an extremely rare soul nourishing divine wood. Its leaves could be used in elixirs to help him improve the quality of his true spirit pills.

As long as there were enough leaves, the three purities liquid could be extracted after being crushed.

Adding a drop of divine liquid into a cauldron of pills could increase the quality by more than 30% to 40%.

If he wanted to raise his true spirit to 30000 meters, he would need hundreds of millions of true spirit pills. As long as he could raise the quality by 10%, he would be able to save a lot of materials and time.

Moreover, the three pureness divine liquid would not only increase his strength by 10%, but by 30% to 40%.

“Mu Zhi?”

Ji xuanmei was stunned.

Venerable seven kills frowned, looking confused.

What’s the use of a branch?

This was a Divine Tree. Let’s not talk about whether it could be planted or not. Even if you were lucky and successfully sprouted and sprouted, it would take at least three to five hundred years to grow it, consuming an astonishing amount of spiritual essence.

This was also the reason why these divine trees were so rare. It was because the difficulty of planting them was too high, and the price was too high.

He came here for the three-purities divine wood, but he didn’t want the branch. He wanted a divine fruit.

If he refined the divine fruit into a pill and consumed it, his true spirit would become stronger, increasing his chances of transcending the Tribulation.

“That’s right! It’s just a wooden branch!”

Tang Hao nodded.

“I was wondering what it was! So it’s just a branch. That’s too simple. Elders, who among you will cut it down!” Ji Xuan smiled as he looked at the elders.

“I’ll go!”

The Ji race elders were also very direct. Someone immediately stood up and went to get the branches.

At first, they were worried that the guy would demand an exorbitant price. They didn’t expect it to be a piece of wood. He was one of the eight great families, and a piece of wood was nothing to him.

“You don’t want anything else?”

Ji xuanmei said.

“I don’t want it! I don’t want it anymore!”

Tang Hao waved his hands.

This guy was too enthusiastic. There must be a problem.

When he got the wooden branch, he cupped his hands, said goodbye, and left as if he was escaping.

“Ah! Senior, wait for us!”

Qi Lingxiao and the others also moved to leave.

Tang Hao ignored them and left quickly.

They were also stopped by the people of the Ji clan and asked about this senior’s identity.

Qi Lingxiao and the others naturally didn’t know anything.

“The temple! He’s gone to the temple!”

After a while, the elder who had gone to get the branch suddenly shouted.

He had deliberately left a trace of mark in the branch. At this moment, following the mark, he could sense that the figure was heading towards the sacred Hall.

“Holy temple? He was from the divine temple? Interesting, looks like I have to go to the Holy sanctum more often!”

Ji xuanmei raised her head and looked up at the sky.

“You won’t be able to escape from my palm!” She clenched her white fingers and muttered.

Then, his figure flickered and he returned to the palace, urging the seven-colored Luan to leave.

“Senior is actually a member of the divine temple!”

“Senior, you can even subdue a woman like Ji clan’s xuzi. You’re my idol!”

The people from sky sword Mountain also looked up at the sky with admiration.

It might not be difficult to win first place in the selection of consorts, but to capture the heart of this Ji clan’s prologue was simply an earth-shattering and heaven-blowing thing!

They could already imagine what kind of commotion it would cause when the news spread!

“Did you guys see that? senior looked straight at the six desires heavenly demon’s illusion and was completely fine. He’s a man among men!”

“I think this is a trap set up by senior. You’re playing hard to get, so you’re deliberately rejecting her and then attracting her interest to capture her heart?”

“There’s such an operation? This is too amazing!”

Many of the male cultivators around also revealed looks of admiration.

Soon, they dispersed and spread the news to all sides of the Holy region.

The Holy region was in an uproar.

A mysterious venerable sovereign from the divine temple won first place in the selection and rejected the one from the Ji clan on the spot. No one had expected this result.

What he didn’t expect was that this person had won the heart of the Ji clan’s one!

Without a doubt, Ji xuanmei was the most popular female cultivator in the Holy region. She was also publicly acknowledged as the most difficult to pursue. Many young and handsome men had fallen for her, but in the end, they had only become tools for her to absorb. They could not even touch her.

Not to mention moving her heart.

“What’s so special about this senior? Could it be that he’s world-shaking handsome?”

The world was curious about who this venerable sovereign was.

“It’s broken!”

Tang Hao returned to his cave abode and took out the branch. He examined it carefully and found the mark left by the Ji clansmen.

“However, I should be fine. There are too many half-step Supreme martial artists in the sacred Hall. Many of them are still in seclusion. They won’t be able to find me.”

He quickly felt relieved.

He first entered his own medicine garden and planted the branch.

After being watered by a large amount of celestial water, tender shoots quickly appeared on the branches and began to grow.

“Let’s Nurture old crocodile and the others first. By the time they learn how to refine it, this tree will probably have grown well.”

After leaving the herb garden, Tang Hao went to see old crocodile and the others.

An old crocodile, an old silver Dragon, and the demonic soul, there were three nine apertures.

He could also refine an origin core clone. After all, they were one. Whatever he knew, his origin core knew as well. As long as he had a true fire, he could try to refine pills.

As for the Joss flame clone, he was still a little lacking. He needed to continue guarding the Buddhist Kingdom and absorb the power of Joss flames, so he didn't need to pull him in.

As for sis Xiangyi and the others, Tang Hao didn't want to trouble them. After consuming a large amount of Nirvana Qi, they had all succeeded. They just needed to collect enough wood element tribulation tools to safely pass the Tribulation and reach great emperor realm.

For the next half a month, Tang Hao cultivated the divine Tree while guiding mo hun and the others in alchemy.

Under the guidance of the alchemy ancestor, mo hun and the others' standards improved by leaps and bounds.

They didn't learn any other elixirs except for the true spirit elixir.

It didn't matter if one furnace was ruined. He could continue to refine, and he couldn't stop refining. Anyway, there were a lot of materials, and there was an endless supply.

Under such conditions, even a mediocre person could learn it, not to mention that mo hun and the others were all talents.

After more than half a month, they had already grasped the basics of true spirit pills, and they were pretty good at refining them.
