

## The Mightiest Little Peasant Chapter 2603

Not long after he left the Yushi clan, Tang Hao met with Master Li.

“He’s no longer in the Yushi clan!”

Tang Hao shook his head.

“In the divine Spirit Mountain?”

Li gongzi’s face changed.

This was undoubtedly the worst situation.

“I’ve told them to pick her up at the divine Spirit Mountain in three days.” Tang Hao said.

“This ... Is too risky, right?”

Li gongzi said anxiously.

The divine Spirit Mountain was different from the rain master clan. They had a superior status, and no matter what they did, they had to take their face into consideration. How could they agree to come to their door just like that?

“I guess this is the only way!”

Tang Hao furrowed his brows.

The marriage was initiated by the Yushi clan and they even sent her to the divine Spirit Mountain. It was obvious that the matter had been decided and the higher-ups of the divine Spirit Mountain had agreed. Now, he wanted to bring her back and break the marriage. How could the people of the divine Spirit Mountain agree to this?

So, in the end, the only way was to fight and get her back.

Moreover, he had a faint feeling that there was a Black Hand behind this matter, and everything was directed at him.

“You don’t need to worry. I’m an elder of the divine Hall. The divine Spirit Mountain won’t do anything to me.”

Tang Hao smiled at li gongzi and comforted him.

“This ...”

Li gongzi’s brows were tightly knitted, and his eyes were full of worry.

“You can go back! Three days later, I will definitely bring her back!” Tang Hao advised.

“Alright then!”

In the end, she nodded and looked up at Tang Hao, then turned to leave.

After watching her leave, Tang Hao turned around and glanced at the desolate continent above.

His face gradually darkened.

He had already found out about the descent of the great void sovereign’s clone to the lower realm through the Joss flame clone. Old man Taixu must have been furious and embarrassed after suffering such a huge setback down there. This matter was most likely his doing.

“If you want to play, then I’ll accompany you to the end!”

He snorted coldly and flicked his sleeve heavily. His body turned into a divine light and returned to the temple.

— —

“What? Did you fail?”

At this moment, on the peak of a divine mountain in the wilderness, Supreme Taixu raised his hand and caught a ray of light. The next moment, his expression changed.

“How could it be like this!”

“This is impossible!”

Then, he cried out and almost jumped off the futon. His face was full of disbelief.

The news that this jade talisman had brought was too shocking and shocking!

His plan had failed!

The three great ancestors of the Yushi clan couldn’t even defeat that brat. The entire Yushi clan was turned into ruins by that brat!

That brat’s true spirit was not just a thousand feet, but five to six thousand feet!

What was even more shocking was that the kid had not just refined one true spirit, but eight!

His eight true spirits had all reached five to six thousand feet!

This ... Was really unbelievable!

How long has it been since that kid came up here? it's already unbelievable that he's a half-zhizun, so how could he have cultivated eight true spirits, and each of them was five to six thousand feet long?

How many resources would it take to achieve this?

How could that kid exchange for so many resources in such a short time?

"It must be that old man Xuan Hong!"

He gritted his teeth and snorted.

It must be that old man Xuan Hong was biased towards that kid and opened the back door for him. This was the only explanation!

"Xuan Hong, you're usually so upright and outspoken. I didn't expect you to have selfish motives!" He looked up at the temple and sneered.

"I'm afraid you've been biased towards that brat from the very beginning. That's why he was able to reach half-zhizun so quickly. And you still have the face to deny it on Mount Meteorfall? a hypocrite like you doesn't deserve to be in charge of the sacred Hall!"

"Do you think that you can be so unscrupulous just because you're in charge of the divine temple and have made contributions to the sacred zone? I can destroy your reputation with this!"

As he said that, his face revealed a hint of ruthlessness.

He had been unhappy with this old man Xuan Hong for a long time. Previously, under the instigation of that kid, he had borrowed the divine wheel from the great void sect and ruthlessly tricked the great void sect. He would not forget this grudge!

Previously, this old man Xuan Hong was too perfect, and there was nothing he could use against him.

Now, he had found a way to use it against him.

To him, this was undoubtedly a pleasant surprise.

"Hmph! Brat, even if you have Xuan Hong's support and your true spirit has reached 50000 to 60000 feet, so what? in my eyes, you're still an ant. I can easily crush you to death!"

"You still want to go to the God Spirit Mountain to snatch people? Hahaha! What a joke! It seems that I don't even need to do anything, and you can play yourself to death!"

As he continued to read, he couldn't help but laugh out loud.

This brat was really too arrogant!

Did he really think that just because he had some talent, some strength, and Xuan Hong backing him up, he could do whatever he wanted in the Holy region?

That was the divine Spirit Mountain, a place that even the divine temple could not control!

“That’s great! Brat, I’m waiting to see how you’re going to throw away your life!”

He laughed nastily, his expression somewhat excited.

“I’ll call the fellow Daoists of the divine Spirit Mountain and ask them to treat you well. Also, I’ll let the whole Holy region know about this and come to see you make a fool of yourself!”

“After I’m done with you, it will be that old man Xuan Hong’s turn! I want him to lose all his reputation!”

He took out a jade talisman, recorded a message, and then threw it into the void.

This was a jade talisman given by the God Spirit Mountain. With this talisman, one could contact the God Spirit Mountain.

This jade talisman would bring his message to the God Spirit Mountain.

Following that, he summoned the elders of the great void sect and gave them some instructions to spread the news.

After the elders left, shocking news spread in the Holy region.

“Have you heard? That Tang Hao, yes, that venerable Emperor Hao Tian, he has cultivated eight true spirits, and each of them is five or six thousand feet long!”

“That’s impossible! Didn’t he just say that he was only a thousand feet? Also, who still cultivates the eight true spirits? it’s too fake!”

“It’s true! The rain master clan was razed to the ground by that brat alone. The three grandmasters of the rain master clan were not his match at all. They were all miserably abused at their own clan’s Gate.”

“No way! Why did that brat go to the Yushi clan to cause trouble?”

This piece of news caused an uproar in the entire Holy region.

Supreme Emperor Hao Tian’s heaven-defying cultivation base and his astonishing battle record of annihilating the entire Yushi clan by himself had shocked everyone.

When they first heard about it, no one believed it.

Because this news sounded too absurd, as if it was made up.

No matter how monstrous a person was, it was impossible for his cultivation to improve so much in just a year.

It was only when someone went to the rain master clan and saw their miserable state and received confirmation from the three ancestors that everyone had no choice but to believe it.

“It’s only been a year, how could he have cultivated to this level? There must be something fishy! Did the Holy sanctum give him a backdoor?”

“Do you even need to think about it? It must be him. Otherwise, how could he be so fast?”

“That’s too unfair! What right does he have to have so many resources without any merit points? he’s not even a prologue, he’s just an ordinary elder!”

Under the guidance of people with ulterior motives, the focus of public opinion was directed towards the divine temple, gradually arousing public anger.
