

The Mightiest Little Peasant Chapter 2620

“Elder lingqing!”

Supreme Taixu retracted his hand and looked at the leader.

The divine temple’s people came just in time, saving him the trouble of having to take this kid to the divine temple.

“You’ve come at the right time. I was just about to go to the Holy Temple to find you!” Supreme great void said, “I’m sure you’ve heard that Supreme Xuan Hong went with this kid and broke the rules. I’ve discussed with the other Supreme martial artists and decided to suppress this kid for ten years as a punishment!”

“If you don’t believe me, you can ask them!”

As he spoke, he pointed to the group of Supreme martial artists beside him.

“There is such a thing!”

The group of Supreme martial artists all nodded.

“Fellow paragons, I’ve come for this very matter!”

Elder Ling Qing rushed to the front and cupped her hands at the group of Supreme martial artists.

“That’s great. I’ll take this kid and you guys will be locked up in the ice hell for ten years!” The great void sovereign said.

“Don’t worry, Supreme martial artist. I’m here to clarify something!”

Elder Ling Qing looked at Supreme Taixu and smiled.

“Eh? Clear what?” Supreme Taixu’s face darkened. “Are you trying to say that your master and this kid did not break the rules?”

Elder Ling Qing smiled and nodded. “Naturally!”

“Hahaha!”

Supreme Taixu laughed out loud. “Everyone, listen to this. This is Supreme Xuan Hong’s direct disciple, the person in charge of the divine temple. Do they really think that we are all fools?”

With a whoosh, the surroundings instantly boiled over.

Everyone was in disbelief.

That kid's matter had already been confirmed without a doubt, and now this temple elder actually dared to clear his name. This was too absurd!

Was this still the fair and just temple?

The faces of the group of Supreme-beings darkened.

This pair of master and disciple, Xuan Hong, had gone too far. It was not enough to open the back door for that brat, and now they even wanted to protect him. Did they really think that the divine temple belonged to them?

"My master has always been fair and just. In these ten thousand years, he has never broken any rules!"

Elder Ling Qing looked around and shouted, "you said that he broke the rules, so please show us your evidence. Don't you think it's ridiculous to make such a wild guess?"

"Ridiculous? I think you two are the ridiculous ones! This matter is clearly irrefutable evidence. Just now, this brat had already admitted in front of everyone that it was Xuan Hong who gave him tens of millions of merit points. How do you all still want to deny it!"

The great void sovereign roared in anger.

"That's right! We all heard it!"

"That kid admitted it! Tens of millions of contribution points!"

Many xiuzhe in the crowd shouted excitedly.

"Tens of millions of contribution points, there is indeed such a thing!"

Elder Ling Qing nodded.

"Hahaha! You see, you've already admitted it. How do you want to clear your name?"

Sovereign great void sneered.

Looking at elder lingqing, he was secretly happy.

At this moment, Xuan Hong's disciple had jumped out to clear that kid's name. It was simply perfect.

After today, the reputation of this master and disciple would be completely ruined!

"However, these tens of millions of merit points were not given for free. He earned them himself!" Elder Ling Qing said.

"Hahaha! You're still trying to quibble, who's going to believe you!"

The great void sovereign laughed even louder.

As long as it was a normal person, it was impossible to believe this kind of nonsense. Earning tens of millions of merit points in two years, who the hell could do this!

“You said he earned it. Fine, show me the evidence! Tell me, what did he do? did he kill the enemy Supreme God on the battlefield of gods and demons?” Otherwise, how could he earn tens of millions of contribution points?”

Supreme Taixu laughed again with a mocking expression.

“Hahaha!”

Hearing this, the xiuzhe all laughed.

There was only one enemy Supreme God on the battlefield of gods and demons, and he was extremely powerful. Even sword Supreme, who was guarding the battlefield, could not kill him, let alone this kid!

This was simply impossible!

Therefore, it was impossible for this kid to earn tens of millions of contribution points.

“No, I didn ‘t!”

Elder lingqing did not get angry. Instead, she smiled and said, “however, he refined a lot of pills. That’s why he earned tens of millions of merit points!”

“Pill? What kind of pill is worth tens of millions of contribution points?”

The sneer on Supreme Taixu’s face became even more intense.

The crowd also laughed.

To rely on alchemy to earn tens of millions of merit points in two years, wasn’t this a joke?

This difficulty was no less than killing a reverent-God of the enemy race!

“Many children divine pill!”

Elder Ling Qing smiled again as she spoke word by word.

“Many children divine pill? what the hell ...!”

Supreme Taixu immediately sneered.

However, as soon as he said that, he was stunned and his face froze.

The next moment, his expression changed drastically. “What did you say? Many children divine pill? That was impossible! This was a divine pill! Did he know how to refine it? Besides, is this many children divine

pill worth so many merit points? it's not like he's the only one who can refine it. It's all because old man Xuan Hong is biased towards this kid!"

"He refined the many children divine pill?"

"I can't earn too many merit points by refining a child divine pill! I still can't earn tens of millions!"

The cultivators discussed in low voices.

"He's the only one who can concoct this pill!"

Elder Ling Qing shouted in all directions,"that's because he was the one who invented this pill. He's the only one who has the ingredients and can refine the pill!"

"What? He invented the pill?"

"That's impossible! Wasn't this pill invented by the pill ancestor?"

When the cultivators heard this, they were all dumbfounded and filled with disbelief.

When the many children divine pill was first born, it had shocked the entire Holy region. Everyone thought that this pill was invented by one of the alchemy gods in the Holy Temple's alchemy Pavilion. This was also the consensus of everyone.

Now, this Saint Hall elder was actually telling them that this pill was invented by this kid?

This brat was the widely spread alchemy ancestor?

How ... How could this be possible?!

How old was this kid!

In their eyes, this guy who was not even a hundred years old was just a young kid. How could such a kid have any alchemy Foundation? it was impossible for him to invent such a peerless divine pill!

"Impossible!"

"You're lying!"

They didn't believe it.

In their hearts, the alchemy ancestor who invented this divine pill was a highly respected alchemy Dao senior. It was absolutely impossible for him to be a yellow-haired kid!

This was ridiculous!

"Hahaha!"

The Taixu sovereign was stunned for a moment. Then, as if he had heard the funniest joke in the world, he laughed so hard that his body swayed.

This kid ... Invented the many children divine pill?

Was it that so-called pill ancestor?

This was definitely the funniest joke he had ever heard in his life!

“You might not believe me, but what about these people?”

Elder Ling Qing smiled and pointed to the figures behind her.

The few of them withdrew their immortal radiance and stepped forward.

All the cultivators looked at it and trembled as if they were struck by lightning.

“Isn’t ... Isn’t that alchemy God Lu?!”

“And that one over there, I’ve seen him before. He’s Daoist dan Wu, and that one over there is an old antique of pill Dao! He became an alchemy God thousands of years ago. His alchemy skills can definitely rank in the top three of the Holy region!”

Then, everyone cried out in shock.

The Holy Temple’s few great alchemy gods practically all came!
