

## The Mightiest Little Peasant Chapter 2630

“You’re a human?”

“Which celestial realm did you come from? don’t you know that this is the territory of my gods race? you humans can’t enter! You even dare to slaughter my gods race people, How dare you!”

After the initial shock, the nine color race’s venerable sovereigns were enraged.

A lowly human had dared to come to the territory of the gods race and slaughter the people of the gods race. He was truly audacious!

“Kill him!”

The person in the lead shouted and took the lead to attack.

His body shook, and a black armor appeared around him. Then, he grabbed a black battle spear and turned into a flash of lightning, shooting forward.

The three people beside him also moved, drawing their weapons and charging over.

“You’re unlucky to have met me!”

Tang Hao glanced at the four nine color venerable sovereigns and shook his head.

“Hahaha! What a big tone!”

The four of them were stunned for a moment before they burst out laughing.

A mere human at the eighth tribulation realm dared to be so arrogant in front of the Celestials. It was ridiculous!

The only reason this guy could live so freely until now was because he was too cunning. Now that he had been found by them, only death awaited him!

“The Wu family? It seems like his bloodline is very strong!”

Tang Hao mumbled to himself. His eyes glowed.

The deity family was the top family among the God races, so their bloodline was naturally the most powerful.

His body trembled, and with a deafening dragon roar, seven true dragons emerged from his back and charged toward the nine color race’s venerable sovereign.

“This is ...?”

The nine color race's venerable sovereign was stunned.

Was this the true spirit of the human race?

How could there be so many?

Before he could figure it out, the seven true dragons had already pounced over, completely suppressing his spirit. He only felt his mind instantly go blank, and his vision became blurry. He could vaguely see a white palm reaching out and touching the space between his brows.

Then, he completely lost consciousness.

"What is this?"

"Heavens!"

When the seven true dragons appeared, the three people behind him stopped in their tracks, their faces filled with shock.

Then, a scene that made them even more shocked and even more frightened appeared. The human cultivator swept over and pointed at the tribe member's forehead. Then, the tribe member's body withered and collapsed at a speed visible to the naked eye.

This scene made their blood run cold.

When they saw the human dig out a bright divine crystal from the center of his brows, they almost screamed in fear.

What kind of method was this?

It was too strange and evil!

They had never seen such an evil method!

Who was this human?

The three of them froze on the spot, their faces pale and their minds filled with shock.

"This human's strength is too terrifying! Seven true spirits that are all over nine thousand feet tall. This means that they're close to the Supreme level!"

"Run! We're no match for them, so we must send the news back to the clan and have the Hierarch come. "

They looked at each other and made a prompt decision to turn around and leave.

"You want to run?"

“Die!” Tang Hao shouted coldly. The immortal halberd appeared in his hand and he threw it out. It hit one of the nine-colored venerable sovereigns and caused him to stagger.

At the same time, he caught up with the other venerable sovereign and suppressed him with his true spirit. Then, he pointed at him and extracted his blood and divine crystal.

Then, he rushed to another venerable sovereign and killed him.

However, he couldn't care less about the third person. After all, they were all Emperor realm cultivators with powerful divine abilities. Once the distance between them widened, he wouldn't be able to catch up.

“Looks like I'm going to be exposed!”

Tang Hao's expression was grave as he watched the divine light disappear into the distance.

The moment he met these four people just now, he knew that this result was very difficult to avoid.

What awaited him next was the nine-colored tribe's mad pursuit.

“Alright! I can finally do whatever I want!”

Tang Hao mumbled to himself. He turned around and headed toward the next Star.

After entering the star, he quickly swept through the area and killed those with stronger bloodlines before heading to the star next door.

He had already familiarized himself with the strength of these stars. There were no Hierarchy-level figures, the highest was only at the eighth tribulation.

After slaughtering these stars, he quickly left and headed in the direction of the passageway.

It was time to go back. He had nearly 40 million divine crystals, which was enough.

At this time, a shocking piece of news spread among the nine-colored tribe.

The demon that was widely spread was actually a human!

Not only was he extremely powerful, capable of killing eight star great emperors, but he also possessed a strange evil art that could drain the essence of their gods race.

As soon as this news came out, the entire star field was in an uproar.

They had many speculations about the identity of this devil. However, no one had expected that he would be a human. This outcome was beyond everyone's expectations!

They couldn't imagine how a human would dare to barge into the territory of the Celestials and kill their people!

In the past, such things had always been reversed. It was the gods race who had entered the celestial realm and slaughtered the human race. This was the first time since the birth of the gods race that such a thing had happened.

Therefore, they were extremely shocked.

Then it was anger, extreme anger.

This was a great humiliation to the gods race!

“We must capture this human, lock him up, and give him the cruelest punishment!”

“We can’t let him escape from the God World!”

The nine-colored clansmen’s angry shouts could be heard from all directions of the star field.

Divine light constantly swept out from the stars and entered the starry sky in groups. They were all eight-star great sovereigns. Some Hierarch experts were also alarmed. Some of them went into the starry sky with their true bodies, while others released their divine sense to search.

For a time, the entire star field was filled with the nine-colored clansmen’s shadows. One after another, divine senses swept back and forth, searching every corner.

The news spread quickly to the nearby galaxies, causing a huge commotion.

The eight-star and nine-star experts in these star fields also took action and entered the starry sky to search.

“So fast!”

After travelling through a few star fields, Tang Hao found that the news had already reached this place. From time to time, he could see divine light of the eighth tribulation level in the starry sky ahead, and there were also divine thoughts sweeping back and forth in the starry sky.

Tang Hao took out the star map and looked at it. He picked a path to bypass the star field and continue forward.

He walked through the cracks between the star fields. The terrain here was complex, and it was easy to hide his tracks.

They rushed all the way, and soon, they passed through a few more star regions and approached the star region they came from.

As long as he could reach this star field, he would be able to easily pass through the void passage and return to Pangu world.

“Hmph! It’s just as I expected!”

Just as he was approaching the star Domain, a figure sitting cross-legged above a star in the star Domain suddenly opened his eyes, revealing a pair of golden eyes.

His eyes turned and his gaze pierced through the void and landed on the white-robed figure.

Then, he narrowed his eyes, and a dense killing intent emerged.
