

## The Mightiest Little Peasant Chapter 2631

“The young master is wise and wise!”

Not far behind the man with polycoria, a few figures stood, all of them wearing black battle armor.

They looked into the distance and saw the white-robed figure in the void. They immediately bowed and expressed their heartfelt admiration.

“I knew it. The black horn star area is the key!”

The man with polycoria stood up and said arrogantly as he flicked his sleeve.

He was dressed in a golden robe with Nine Dragons embroidered on it. It was extremely luxurious.

These nine true dragons all had Dragon Souls attached to them, appearing and disappearing at times as they circled around his body.

He was tall and sturdy, his face sharp like a knife. He was extremely handsome, and there were nine divine crystals shining between his eyebrows.

“The first time this guy appeared was in the black horn star field. This place is very far from the human race’s celestial realm. It’s hundreds of star fields away. How could he not be discovered and come here?”

“Therefore, there must be a passage here that connects the divine world and the celestial realm. If that guy wants to escape, he has to come back here.”

He said as he looked ahead.

“The young master is wise!”

The few people bowed again and complimented.

“Hmph! A mere human dares to step into my God World and slaughter my God race? this guy deserves to die ten thousand times!”

The man with polycoria narrowed his eyes, and his eyes were filled with killing intent.

“Young master, you’re a Hierarchy. You don’t have to deal with such a small character yourself. It’s enough for us to deal with him. Please wait a moment, young master. We’ll go and kill him now!”

The few of them said respectfully.

“Alright! A mere human at the eighth tribulation is indeed not worthy of my personal attack!” The man with polycoria pondered for a moment and nodded. “However, you should still be careful. I heard that

this person's strength is extraordinary. The fact that he was able to escape to this place means that he has many tricks up his sleeve. Be careful not to let him escape."

"Young master, you're overthinking. He's just a half-zhizun human!"

"If the few of us join forces, we can even exchange a few moves with a reverent-God, let alone a human!"

The few of them patted their chests and said proudly, their expressions somewhat disdainful.

It was said that the human had already cultivated the true spirit, which was nearly 90000 feet in size. He was a top half-step Supreme Being, but they were not weak either. Each of them was an outstanding half-step Hierarch.

In addition to the advantage of their bloodline, that guy was no match for them at all.

With the four of them working together, that fellow wouldn't even have the chance to escape.

"Alright!"

The man with polycoria nodded.

He was very confident in the strength of his four divine generals.

"Young master, please wait a moment!"

The four of them bowed again, then tore open the void and entered.

At this time, in the distance, Tang Hao's expression suddenly changed. He sensed ripples in the void not far ahead, as if someone was tearing open the void and descending.

"I've been discovered!"

Tang Hao was shocked.

Before he could tear open the void again and travel through it, four figures had already rushed out from the ripples in front of him. They were all wearing the same black armor and looked ferocious. They also held the same black battle Spears in their hands.

The four of them moved in unison, holding their battle Spears and attacking.

Whoosh! Whoosh!

Four sharp air-piercing explosions were heard. It was the sound of the spear tip tearing the void.

Tang Hao's eyes narrowed, and his expression turned grim.

These four were far more powerful than the eight tribulation experts of the deity Wu family. They were the top eight star Emperor realm experts of the nine color clan.

Moreover, the armor and Spears of these four people were all of the same standard. They were all top-notch nine tribulations weapons of extremely high grade, equivalent to the level of the bell of no beginning.

Tang Hao made a prompt decision. He activated the clear sky armor, summoned the immortal halberd, and launched four halberds at the four black beams.

Clang clang clang clang clang!

In an instant, four earth-shaking explosions rang out.

The four balls of divine light exploded simultaneously.

Tang Hao's body trembled slightly and he took a few steps back. The four figures, on the other hand, trembled violently and retreated at the same time. They only managed to stop after retreating more than thirty meters.

Their expressions changed.

Previously, they had been looking down on him, thinking that the combined attack of the four of them would be enough to severely injure this human. But now, their faces were all extremely grave, and their hearts were even slightly shaken.

The human didn't even use his power of true spirit and only relied on his body to block their combined attack!

'How ... How is this possible?'

They were all half-step Hierarch and were from the nine-colored God race. They were born with bodies many times stronger than humans. How could a human compare to them in terms of body?

"How did this happen?"

In the distance, the dual-pupiled young master frowned in shock.

How could this human's physical body be so strong?

Then, he narrowed his eyes and stared at the halberd.

"A broken celestial artifact? It's not a very good treasure, but that armor is a little strange. Even I can't see through it."

He glanced around for a moment, and finally, his eyes fell on the armor. He was a little shocked.

He had never seen such a profound and strange armor!

“Who is this human? Which celestial realm are you from?”

At this moment, he was extremely curious.

This human was too strange. Not only was he extremely bold, daring to enter his God World and slaughter his gods race, but his strength was also astonishingly strong. Even the treasures he had were different from the rest.

Just as he was thinking, the four of them attacked again, turning into four black lights and charging forward.

Tang Hao’s body trembled. Seven true dragons pounced out from behind him toward the two black lights. Then, he grabbed the immortal halberd and attacked another person. Finally, the blood butcher sword appeared and unleashed a shocking blade light toward the last person.

“Aaah!”

A few muffled groans.

The four figures were stunned, especially the one who was hit by the saber Light. His body shook violently, and blood spurted out of his mouth as he flew backward.

Si si si!

The four of them all sucked in a breath of cold air, their expressions extremely shocked.

This guy had once again blocked their joint attack!

Seven true spirits that were more than nine thousand feet long!

There was also an intact celestial artifact!

How could this human’s strength be so terrifying!

“I’ll kindly accept your bloodlines and treasures!”

Whoosh!

Tang Hao’s figure flashed and appeared in front of the nine-colored venerable sovereign who was spitting blood.

The nine-colored venerable Emperor was shocked. He waved the spear in his hand and was about to attack.

Tang Hao’s eyes turned cold, and he thrust his palm forward.

Bang!

The nine-colored Emperor's body trembled violently. The armor on his chest couldn't withstand the force and caved in. Then, his body flew back like a cannonball and he spat out another mouthful of blood.

Tang Hao's body flickered. He caught up to her and pointed a finger at her forehead.

The nine-colored Emperor's eyes widened in fear.

He had heard rumors that this human knew a strange evil art that could suck the essence of their Celestials dry, condense it into a divine crystal, and dig it out from the center of their brows.

Obviously, this guy was going to use this evil technique on him now.

He wanted to escape, but he couldn't move at all. Even his divine soul was suppressed and became a little blurry.

"Young master, save me!"

He struggled helplessly and shouted.

"Stop!"

In the distance, that dual-pupiled man was jolted awake. Seeing this scene, his face could not help but reveal a look of shock.

How did the situation become like this in the blink of an eye?

"Die!" He shouted, and his eyes suddenly opened wide. His pupils began to spin.

The time and space around Tang Hao froze.
