

## The Mightiest Little Peasant Chapter 2647

That's true! If he wasn't brain dead, how could such a powerful person be suppressed here?

Tang Hao mumbled to himself.

"Senior, you can let this one try. In any case, senior won't lose anything, right? If it really is solved, then senior will be free." Tang Hao said.

"Alright! However, I have a condition!"

The Black Dragon said.

"What condition?"

Tang Hao was surprised.

"Don't send this broken soul here. If you want to see it, then come here yourself. If you have the guts, I'll let you see it." The Black Dragon laughed sinisterly. "Don't worry. I will give you three days. If you can't undo it in three days, I will eat you!"

Tang Hao's expression changed.

It was too dangerous for his main body to come.

This Black Dragon had brain damage and was brutal by nature. He said it would take three days, but he didn't know when it would swallow him in one bite.

Besides, three days was a bit short. This was a true immortal formation. Even if ten thousand years had passed, it wouldn't be so easy to break.

"Ten days!"

Tang Hao shouted.

"No! Ten days is too long, I don't have the patience! Five days! If you can't, then forget it!"

The Black Dragon said.

"Then seven days! In seven days, I will definitely break this formation!" Tang Hao said.

Just now, he took the time to glance at the cave wall and the dark gold chains and made some discoveries.

Seven days should be enough.

“Alright! Then seven days! Remember, if you can’t undo it in seven days, I’ll eat you!” The Black Dragon said.

“It’s a deal!”

Tang Hao said.

Then, he collected his thoughts and stood up in the array.

Clang clang clang!

Rays of light flew out and instantly assembled into the Haotian armor. Then, he flicked his sleeve and Jade bottles flew out. These were all elixirs used to save his life.

This trip was too dangerous, and he had to be fully prepared.

“Let’s go!”

After sorting out the pills, he took a light breath, withdrew the formation, and flew towards the Black Dragon crypt.

“Senior, I’m here!”

He entered the cave and called out to the Black Dragon.

The Black Dragon looked up and smiled sinisterly. “Then come down quickly and start!” You only have seven days!”

“Okay!” Tang Hao replied and descended.

He was extremely careful and constantly observed the Black Dragon’s reaction. If there was anything unusual, he would immediately withdraw and escape.

The Black Dragon didn’t show any signs of abnormality even after he landed on the ground. It only stared at him with a pair of blood-red eyes, and its gaze was extremely terrifying.

After a while, Tang Hao was slightly relieved when he saw that he did not move. He began to study the true immortal formation.

Tang Hao nodded after studying it for a while. He seemed to understand.

This formation could be broken!

He was completely confident that he could break this formation.

“Are we really going to let this guy out?”

Tang Hao turned around and glanced at the Black Dragon. He was hesitant.

In fact, he had initially wanted to use the excuse of studying the array to steal the treasure chest when this guy wasn't paying attention. However, he changed his mind later on.

After all, this Black Dragon was a ninth tribulation. It was too difficult and risky to snatch the treasure chest while he was not paying attention. Therefore, he was prepared to let this guy out. This guy was brutal and bloodthirsty by nature. Once he went out, he would definitely turn this level upside down.

At that time, when there was chaos, he would be able to fish in troubled waters.

He finally knew where the treasure chests were hidden. They were all on these great beasts. He had sent a split soul to explore just now and found another treasure chest on another great beast.

His target was these treasure chests.

How could a mere rainbow treasure chest satisfy him? he wanted all the treasure chests!

"Let's go all out!"

Tang Hao gritted his teeth and shouted.

As the saying goes, wealth comes from danger. This time, he had no choice but to risk it.

"Senior, please wait a moment!"

He smiled at the Black Dragon and said, "in less than five days, you will be free, senior!"

"Oh?"

The Black Dragon raised an eyebrow in surprise.

Could this eight tribulation little bug really break the formation set up by a true immortal?

That's impossible!

"Good! I'll wait and see!"

He snorted and said.

Anyway, it was only five or six days, so there was no harm in waiting for a while. Anyway, the little worm was not going to escape.

Tang Hao began to move. He walked around the cave wall and finally picked one talisman.

"It's this one!"

The perfected immortal formation was quite ancient and looked very complicated, but Tang Hao, who was an expert in formations, could immediately see the mystery. As long as the talisman in front of him was broken, the entire formation would be out of order, and its power would be greatly reduced.

Of course, it wasn't easy to break this talisman. After all, it was carved by a true immortal, and this wall was refined by a true immortal, so it was extremely hard.

However, he had a sharp weapon like the bloody Butcher knife and the world-destroying sacred Thunder, so he could still break it.

He summoned the blood butcher knife and tried to slash at the wall.

Clang!

There was a loud explosion, and sparks flew everywhere.

Not even a trace was left on the wall.

"Hahaha! You little bug, do you still want to dig this wall down? This was made by a true immortal? If you can leave a mark, I'll call you Grandpa!" The Black Dragon burst into laughter.

Tang Hao did not say anything. A golden light flashed in his eyes, and the bloody butcher's knife in front of him flickered with golden lightning.

"What ... What kind of lightning is this?"

The laughter stopped abruptly.

The Black dragon's eyes widened as it stared at the lightning in front of Tang Hao. It was extremely shocked.

This lightning bolt actually made him, an ancient great evil, feel a trace of fear!

"World-destroying sacred Thunder!"

Tang Hao turned around and chuckled.

Clang!

The bloody butcher's knife, accompanied by golden lightning, struck the wall heavily. With sparks flying in all directions, a faint mark was left on the wall.

"Mother of God!"

When the Black Dragon saw this, his eyes widened again, almost popping out of their sockets.

F \* ck!

It really left a mark!

What was the origin of this little worm? it was too heaven-defying!

Clang clang clang!

Tang Hao continued to attack. Each time, he left a shallow mark on the ground, which soon became a deep one.

“Soon! It’s almost there!”

Tang Hao mumbled.

As long as this talisman was broken, and then the other five talismans were broken, the formation would basically be useless. The Dragon-binding rope would lose the support of immortal Qi, and with the Black Dragon’s strength, it could break free.

“I’m afraid this little crawlers has some background. He’s the successor of one of the human race’s super forces. He might really be able to break this array!”

“Hahaha! That’s great! I’m finally free!”

The Black Dragon was overjoyed.

He had been suppressed for too long, and even the slightest hope of escaping was enough to make him overjoyed.

“Little bug, in order to thank you, I’ll eat you first after I break free. Then, I’ll kill all the living beings in this world and eat them all!”

He looked at Tang Hao, licking his lips. His eyes were bloodthirsty.

Such an outstanding human genius would definitely taste good!

Clang clang clang!

The noise lasted for four days, and Tang Hao finally broke all the talismans.

Just as the last talisman was broken, the entire array was broken. The Dragon binding chains lost their divine light and became extremely dim.

“Hahaha! I’m free!”

The Black Dragon immediately laughed and began to twist its body wildly, struggling.

With a few more clanking sounds, the chains were broken one after another.

This ancient beast had finally broken free.
