

## The Mightiest Little Peasant Chapter 2654

“Who is that?”

“What’s going on?” Daoist Tian Sheng noticed the fight over the black ape’s corpse and was surprised.

The figure that had blown away the sky splitting Sparrow and successfully seized its corpse didn’t seem to be a Supreme martial artist.

This was strange!

The ninth level was so dangerous that even a Supreme martial artist would have to tread on thin ice. How could an eighth tribulation person come up?

Moreover, how could he blow away the heaven splitting Sparrow with only his eighth tribulation cultivation?

Although this heaven splitting Sparrow was injured, it was still a great ancient beast and was extremely powerful.

“Him again!”

Just as he was feeling puzzled, a Supreme martial artist shouted.

“That’s an immortal spear, right? It’s not the broken immortal halberd from before, it should be from the rainbow treasure chest!”

“So many treasure chests and a great ominous’s corpse. This kid is really rich!”

The group of Supreme martial artists spoke out one after another, all of them extremely envious.

The biggest winner of this black and yellow tower trial was this kid!

He had obtained so many treasures on the ninth floor, let alone the eighth floor. He must have gained a lot.

“Who is this?”

Reverend Tian Sheng asked in bewilderment.

“Perfected one, this man’s name is Tang Hao. He’s the famous ancestor of alchemy!” The ye clan’s Supreme martial artist laughed.

“The ancestor of alchemy?”

“Oh, so it’s him!” Perfected Tian Sheng was stunned.

Although he had always been in charge of the black and yellow tower, he had heard some things about the outside world and knew that this person was the most famous figure in the Holy region. A multi-child divine pill had changed the entire Holy region, and his merit was boundless.

Moreover, this person was also a rare monster. He had cultivated the path of self, an immortal Emperor-level magical power, and his talent surpassed his five prologue of the sacred zone.

Now that he had seen it, it really lived up to its reputation!

“Not bad! Not bad!”

Reverend Tian Sheng nodded and praised.

“Little bug, don’t even think about running away!”

The Black Dragon was furious when it saw Tang Hao running away with the corpse. It ignored the Supreme-beings and turned to chase after Tang Hao.

Whoosh! Whoosh! Whoosh!

In his rage, he opened his mouth and shot out dozens of divine lights.

Previously, he was afraid that the human race’s little reptile would evaporate with a ray of divine light, so he had not made a move. He had only chased after it with a playful attitude. However, now that the reptile was really going to run away, he could not care so much.

“Hmph! Evil beast! Don’t you dare hurt the geniuses of our human race!”

“Die!” Reverend Tian Sheng shouted and waved his finger, causing lightning to strike down from the sky.

“Freeze!”

Then, he formed a seal with his hands and shouted. The void around the Black Dragon twisted, forming a cage that imprisoned it.

“Senior! Thanks a lot!”

Tang Hao was already at the exit. He turned around and bowed.

“You’re welcome!”

Reverend Tian Sheng laughed.

Tang Hao cupped his hands again, then turned around and entered the tunnel.

Tang Hao could no longer hold back his smile as he exited the passageway and entered the eighth floor.

This time, he had really struck it rich!

There were a total of 14 rainbow treasure chests, and there was even the corpse of an ancient great beast. He was simply rich!

Previously, he had exchanged so many treasures from the treasure vault and thought that he was already rich enough. Now, he understood that it was nothing. The current him was the real rich.

Tang Hao was satisfied. Not only did he gain a lot this time, but he also tricked old man Taixu and the Tang clan's patriarch. He was satisfied.

He swept forward and saw that there were not many people left on this floor. Moreover, they had already begun to be transported out. He then swept towards the entrance to the seventh floor and entered.

He passed through the levels and exited the black and yellow tower.

"How is it?"

Elder Ling Qing asked when she saw him.

"It's alright!"

Tang Hao grinned and returned to his cave abode.

As soon as he arrived at the cave, he began to count his gains.

On the eighth floor, he had obtained most of the corpses of eight tribulation fierce beasts. There were nearly 130 corpses of various levels, among which the most precious were naturally the corpses of the eight tribulation overlords.

Especially the nine-headed Golden Eagle, it was the strongest and its flesh was the most effective.

There were also many other treasures that came out of various boxes. There were all kinds of pills, nine tribulations weapons, divine materials, and so on.

Then, it was time for the harvest on the ninth floor.

Two of the fourteen rainbow boxes had already been opened.

The corpse of a black ape and some immortal herbs he had collected earlier.

This was all he had gained from this trip.

What made him feel a little regretful was that he did not manage to retrieve the treasure chest on the Black Dragon's body. There was also the crippled Dragon binding rope, which was also a treasure. It was truly a pity to just leave it on the ninth floor.

"Open the chest first!"

Tang Hao took out the remaining twelve boxes and placed them in front of him.

He took out the first box from the left and opened it.

He opened the lid to reveal a Jade bottle. Tang Hao could tell that it was a wisp of primordial Qi.

He opened it and saw that it was indeed a wisp of Black Yellow ancient Qi.

“It’s alright!”

Tang Hao pursed his lips and put the Jade bottle away.

Then, he took the second box and opened it.

The moment the lid was opened, a clear light bloomed from inside. When he opened it, he saw a palm-sized Pearl. It was crystal clear, and he could see spots of light inside, as bright as the Galaxy.

“It’s a celestial artifact!”

Tang Hao mumbled to himself. He was overjoyed.

What he lacked the most at the moment were celestial artifacts.

He didn’t know what kind of treasure this Pearl was. Was it an attack type or a defense type?

He stretched out his hand and held the Pearl.

The Pearl shook and countless information poured out of it and entered his mind.

“Galaxy barrier!”

Tang Hao was pleasantly surprised. This was a rare defensive immortal artifact. As long as it was activated, the Pearl would form an indestructible barrier with rivers of stars surrounding it!

“Good treasure!”

Tang Hao immediately refined the Pearl.

He already had two attack-type immortal Qi, one was the bloody butcher’s knife, and the other was the Yan Luo divine spear. He was just short of this defensive immortal weapon, so it was just in time to make up for it.

“I’m still missing an immortal armor. I don’t know if I can get it!”

Tang Hao looked at the remaining ten boxes with anticipation.

Although the clear sky armor was good, it was not a real Celestial Armor, and there was still a gap. With his current cultivation, it was not enough to refine a celestial artifact-level armor.

If he could get an immortal armor, his treasures would be perfect.

However, he also knew that the possibility of this was very small, because the immortal armor was too rare. There were only a few in the entire Holy region. The chances of getting one from this treasure chest were very slim.

Tang Hao toyed with the soaring Galaxia barrier, then put it away and continued to open the treasure chest.

In the next treasure chest, he found a golden tortoiseshell.

At first glance, he thought it was a treasure, a fairy weapon, because it exuded a trace of genuine immortal aura. But after a closer look, he was stunned. It was not a fairy weapon at all, but a primitive turtle shell.

This was the shell of an immortal level divine turtle!
