

## The Mightiest Little Peasant Chapter 2656

“How have you been?”

Tang Hao said as he nodded at the person.

“Everything is going well. Master, the divine cores you brought in have been integrated. The various resources you brought have also been distributed. During this period of time, many have broken through. There are five or six more eighth tribulation great emperors and even more seventh tribulation ones.”

Jiang Yang said respectfully.

“Not bad!”

Tang Hao said.

After creating the demon God race, he had come here several times with many treasures.

“I’ll go take a look!”

Tang Hao’s body moved and he flew toward Mount bloody massacre.

He walked around and looked around.

Everything here was on the right track. The entire Demon God race was like a sect, and it began to operate as usual.

“You can encourage the demon God clansmen with low cultivation to mate and produce the next generation.” Tang Hao walked around and sat down in the main hall.

He had obtained more than 40 million divine cores from the nine-colored realm. If the demon God race wanted to continue to grow, they would have to reproduce and expand their population.

In the process of reproduction, it was possible to give birth to all kinds of geniuses.

“Yes! My Lord!”

Jiang Yang replied.

“As for you 8th tribulation cultivators, you should find a few Daoist partners and give it a try. The power of your bloodlines is the strongest, and when you were modifying it, you used the best demon blood. You should be able to produce excellent offspring.”

Tang Hao said.

“This ...”

Jiang Yang's face turned red and he was embarrassed.

He used to be very down and out and was a low-level disciple in the bloody massacre sect. No female disciple would like him. Now that he was suddenly promoted to a high position, he had not adapted to it yet. How could he have the time to think about the matter of reproducing the next generation?

"I prepared this pill for you. It's very effective!"

Tang Hao took out a few bottles of children divine pills and placed them on the table.

"What ... What kind of pill is this?"

Jiang Yang was stunned.

"This is called the many children divine pill. Not only can it strengthen one's yang, but it can also greatly increase the chances of being hit by the pill." Tang Hao said with a smile.

Jiang Yang's mouth opened wide in shock.

There was actually such a divine pill in this world?

"This ... There's no need for that!" He was a little shy.

"Oh! That's right, I almost forgot that you've fused with the bloodline of the dragon clan. The dragon clan is lustful and their fertility is extremely strong. They're a strange species among all the higher-grade creatures. With your bloodline, perhaps you don't need this pill. "

Tang Hao looked at him and suddenly understood.

"However, you can still give it a try. This pill ... Its effects are really very strong!"

Tang Hao smiled again and pushed the pill over.

Jiang Yang declined it but still accepted it.

"And this thing, I prepared it for you!" Tang Hao flicked his sleeve, and that true God weapon flew out, floating above the table.

"This ... This is ..."

Jiang Yang took a closer look and was shocked. He could feel the aura of a true immortal from the halberd, which was the same level as his master's immortal blade.

"That's right! This is a true God weapon!"

Tang Hao smiled."As the leader of the demon God clan, you need a treasure. I'll make you a suit of armor after a while."

“Master, this ... Is really for me? This is too precious!”

Jiang Yang was still in disbelief.

This was a divine artifact! A treasure that he didn't even dare to dream of!

“Take it! The demon God clan needs a treasure that can keep them in check!” Tang Hao waved his hand and pushed the divine halberd over.

Jiang Yang took it and trembled with excitement.

He felt like he had been in a dream for the past few months. He was a low-level Saint. Although he had made a name for himself in the sect, he was still a nobody.

But now, not only was he the clan leader, he had a cultivation base of half-step Supreme venerable and even had a fairy weapon-grade treasure!

If this wasn't a dream, then what was it?!

“Go and gather 10000 seven tribulations Warriors and wait for me at the square in front!” Tang Hao said.

“Yes, my Lord!”

Jiang Yang put away the divine halberd, bowed respectfully, and left the hall.

Tang Hao sat there and sipped his tea. He was in deep thought.

There was a lot of flesh on his body, especially the flesh of the black ape, which was at the level of a nine tribulation Supreme. As long as a part of it was taken out, there was a chance to raise Jiang Yang to the level of a ninth tribulation.

The demon God race was different from the human race. They were more like the nine-colored God race. There were not many obstacles in their advancement. As long as they had enough resources, they could advance.

Of course, as a God, they needed several times more resources than humans to advance to the next realm.

Tang Hao gave it some thought and decided to give up on the idea for the time being. He would think about it when he reached the ninth tribulation.

The most important thing now was to raise the cultivation of the demon God clansmen.

Soon, the 10000 seventh tribulation Demon God clansmen were all gathered.

“Greetings, exalted immortal!”

When Tang Hao stepped out of the hall, the demon God clansmen all knelt down and bowed respectfully.

These were the original members of the bloody massacre cult.

“Get up!”

Tang Hao nodded at them and called out.

Then, he strolled over to the first person. With a flick of his sleeve, a pile of flesh and blood flew out. “This is for you!”

The man was stunned at first, but when he felt the amazing energy contained in the flesh and blood, he was so excited that he knelt down and shouted, “Thank you for your kindness, exalted immortal!”

Tang Hao smiled and walked to the next person.

After sizing this person up, he flicked his sleeve and a pile of flesh and blood flew out.

“Thank you for your kindness, exalted immortal!” This person also knelt down emotionally and thanked him.

Tang Hao looked at them one by one. He gave them some flesh and blood according to their cultivation base.

This amount of flesh and blood was enough for them to advance to the eighth tribulation.

After the meat was divided, Tang Hao waved his hand at them and dismissed them.

He looked at his ring again and saw that there was still a lot of flesh left.

The cultivation of these 7th tribulation cultivators was not low and they were not far from the 8th tribulation. They did not consume much blood and flesh. Even with 10000 people, they had only consumed less than one-fifth of their blood and flesh.

“Call ten thousand more!”

Tang Hao turned around and shouted at Jiang Yang.

These 10,000 7th tribulation cultivators had used up another one-fifth of his flesh.

Tang Hao finally stopped.

Although he had a lot of flesh and blood, he could not use them all here. The gate of fortune and Kun Lun also needed this flesh and blood.

“These 20000 people should be able to advance to the 8th tribulation very soon. These people will be the backbone of the demon God race in the future. We must focus on cultivating them, understand?” Tang Hao said.

“Yes! My Lord!”

Jiang Yang said respectfully.

“There are 20000 now, but there will be more in the future. I plan to train 100000 8th tribulation experts to form a team and call it ... The demon God Army! You have to supervise them and test them. You can't miss out on any spells or divine abilities. It's best if you torture them to death.”

Tang Hao flicked his sleeve, and countless Jade slips flew out. They were all cultivation techniques and secret techniques that he had collected.

“Also, these are some battle formation techniques. Study them.”

Tang Hao took out another batch of ancient books.

Since they wanted to form an Army, they had to practice battle formations. Only then could they unleash their Strongest Battle power.

“Yes!”

Jiang Yang replied, looking a little excited.

100,000 eighth tribulation powerhouses forming a battle formation, how spectacular would that be!

“Also, I'll set up some arrays for you later to gather spirit energy. I'll make a field for you to plant more medicine. This is a book on alchemy and this is about craftsmanship. You have to get them all together.”

Tang Hao said as he threw piles of books to the ground.

This Demon God World would be his base camp in the future. He had to transform it according to his own ideas.
