

The Mightiest Little Peasant Chapter 2663

Tang Hao's expression changed when he heard that.

Only now did he realize the dangers of this world.

The Dragon count not far away and the few on Qi Yuan star were at the peak of the ninth tribulation, close to the level of a genuine immortal. They were at a similar level to the Black Dragon in the black and yellow tower.

Because of their powerful bloodline, their strength might even be a bit stronger than the Black Dragon.

These were already very terrifying, but what was even more terrifying was that there was a group of true immortal monsters fighting in the distance. If he was affected, he would die without a doubt.

Moreover, in this battle, the great gods of the ancient times, the great void, Emperor Yan, and Pangu were all present. No one knew where in this world they were fighting fiercely with the Dragon count clan. Just thinking about it was terrifying.

"Pill ancestor Tang, this realm is far too dangerous. Half-zhizun realm cultivators like us are just going to die! I need to quickly find a place to hide. You should also find a safe place to hide!"

The man said.

His tone was a little vexed. He had wanted to take advantage of this opportunity to get some treasures and improve his strength, but he didn't expect that he would be assigned to this world. It was simply bad luck.

He didn't want to look for treasures at all, he only wanted to save his life.

To be able to stay alive in this world was already not an easy thing.

"Take care!"

He cupped his hands at Tang Hao, then turned around and rushed toward planet Qi Yuan.

Compared to the starry sky, Qi Yuan star was undoubtedly a safer place. There were only nine tribulation Dragon counts there, and they would not be easily affected by the battle between true immortals.

Tang Hao stood where he was with a grave expression on his face.

This Jie was indeed too dangerous!

That person just now should be one of the ten thousand ancient emperors, which was why he had come in several times. If even he was so afraid, it was enough to show how terrifying this world was.

However, he had already come in, so there was no other way.

He couldn't get out at all, nor could he change worlds.

It was said that in every world, there were some treasures that could change worlds. However, these treasures were hidden very deeply and were very difficult to find.

"Forget it, I'm already here!"

Tang Hao mumbled helplessly.

Since he had already entered, he could only accept it and adapt to the environment of this realm. He would first save his life before searching for treasures.

Since this world was so dangerous, there were naturally many treasures, and their grades were also extremely high. It would be a great harvest to find even one.

"I wonder where the treasures are hidden?"

Tang Hao looked around but did not know where to start.

BOOM!

At this moment, a deafening sound came from the distant starry sky. Another star was blasted apart, and its fragments shot in all directions, turning into dazzling meteors, many of which were rushing toward Tang Hao.

Ah!

Some xiuzhe couldn't Dodge in time and were hit by the meteors. They instantly exploded and died.

These meteors were wrapped in the aura of true immortals. Even an eight-tribulation venerable Emperor would be turned into ashes if they were hit.

Tang Hao's expression changed when he saw that.

He turned around and ran, heading straight for planet Qi Yuan.

This place is too F * cking dangerous!

If he stayed any longer, he was afraid that he would lose his life if he was not careful.

He summoned the clear sky gang and pushed his speed to the extreme. He passed through the battlefields and dodged the divine lights. Finally, he entered the atmosphere and entered planet Qiyuan.

At this moment, Qi Yuan planet was also in chaos. Giant gods stood tall and fought fiercely with human cultivators and primeval beasts.

The mountains crumbled and the earth cracked.

Between heaven and earth, there was a dazzling divine light everywhere.

“Owwuuu!”

A Dragon’s Roar reverberated through the world.

Tang Hao looked toward the source of the voice. He saw a Golden Dragon at the end of the world. It was fighting a Dragon count. There were also balls of sun-like light in the surroundings.

“It’s Kunwu!”

Tang Hao mumbled.

That was the mountain Gate of Kunwu, and that Golden Dragon was none other than senior Winged Dragon.

He had seen this scene before when he was dreaming of Aeon, but now he had a different perspective.

Tang Hao looked into the distance for a moment, then retracted his gaze.

He couldn’t participate in a battle of this level, so it was better not to take the risk.

Then, he cast his gaze in another direction.

“That should be where the Dao Lake is!”

Although the terrain of the ancient times was very different from the current terrain of Qiyuan, the general direction was the same. He thought back for a moment and found the location of the Dao Lake.

Right now, it was not a Lake. A great battle was still going on.

A giant God Dragon count was fighting fiercely with the people of Emperor NVWA’s Palace.

“That’s senior locust tree!”

Tang Hao saw a locust tree. It was different from its dark and ugly appearance. This locust tree was golden all over. It was tall, and its roots were deeply rooted in the ground.

His branches were covered with golden lightning. With a gentle shake, lightning filled the sky.

Tang Hao was dumbfounded.

The difference was too great!

Tang Hao stood where he was. He looked at her for a while, then retracted his gaze.

He couldn't afford to get involved in this battle.

"Where is the treasure?"

"Which are fake and which are real?"

Tang Hao furrowed his brows and pondered.

If one wanted to find treasures, one had to first distinguish between what was real and what was fake. Which were created in this world, and which were real things that could be taken out.

He tried to activate his heavenly eye and look in all directions, but there was no effect at all.

Everything around him was very real, and he couldn't see anything unusual.

"Could it be hidden in these things?"

Tang Hao's gaze swept across the vegetation and living creatures around him. Suddenly, his mind stirred.

In the great void realm, treasures were hidden in those souls, and they would fall after being killed.

However, when he tried, he was greatly disappointed. He killed a few fierce beasts, but there was nothing.

"It can't be in the bodies of those Dragon counts, right?"

Suddenly, Tang Hao raised his eyes and looked at a Dragon count in the distance. His expression changed.

If that was the case, then what was the point of playing?

Even if old Supreme martial artists like old man Taixu were to come, they would only be serving food to these Dragon counts!

Tang Hao was at his wit's end, so he strolled around.

On Qi Yuan star, it was relatively safe. He just had to avoid those Dragon counts.

"Al! Pill ancestor Tang, you're here too! Hey! What's the point of loitering around, hurry up and hide! This place is too dangerous!"

"You should know that there were a few half! Zhizun realm experts who died in this world in the past. They either died in battle or were killed by the aftershocks of other people's battles. Don't you think it's tragic? don't you think it's a waste!!

Along the way, Tang Hao ran into a few fellow Daoists, all of whom were half-zhizun realm experts. All of them were panicking as they searched for a place to hide.

That was what they said when they saw Tang Hao.

“You guys hide first! I’ll wait!”

Tang Hao waved his hand and smiled.

“Alright! Then take care!”

They bade their farewells and left in a hurry. They found a place that was as safe and hidden as possible and hid.

Tang Hao continued to stroll around.

“Eh? What’s the situation?”

Not long after, Tang Hao saw that the sky in the distance was filled with figures. Two groups of people were fighting, and both sides were humans!
