

The Mightiest Little Peasant Chapter 2720

In the hall, the divine furnace was still hanging high.

However, the boy was nowhere to be seen.

“What’s going on? Where is he?”

The great void sovereign looked around and was stunned.

If that kid wasn’t here, where could he have run off to?

“Wait, could he be ...”

Suddenly, he seemed to have thought of something. He looked up at the divine furnace.

If it wasn’t in the hall, then it could only be in this furnace!

Is that kid crazy?

That was the Taixu divine fire. This furnace was also used by the Taixu God and could even refine true immortals. You, a mere Dao glimpse stage, entering it, aren’t you courting death?

He looked at the divine furnace in disbelief.

In such a short time, it was impossible for that kid to refine the divine furnace. In other words, he hadn’t taken control of the divine furnace yet. Jumping in under such circumstances would only lead to death. In less than 15 minutes, that kid would be refined to death.

“Something’s wrong! That kid couldn’t be that stupid! Then why did he go in?”

“Could it be because of that pill?”

After pondering for a while, the expression on the face of the great void sovereign changed.

He had almost forgotten that there was a divine pill that had been refined for over ten thousand years in the furnace!

That kid must have swallowed a pill and refined it inside with the help of the divine fire.

“I can’t let this brat succeed!”

As a ten-thousand-year-old monster, how could he not understand what that kid was trying to do!

That pill was his!

And this divine furnace was also his!

This kid can forget about refining it! He wanted to make this brat spit out the pill!

“Stinky brat, get out here!”

He raised his hand and slapped at the divine furnace.

The divine furnace only shook slightly, but there was no reaction from inside.

“Get out here!”

Supreme Taixu roared and attacked the divine furnace crazily. However, there was no reaction at all. The divine furnace was still standing strong.

“Where are you? come out!”

He rushed to the top of the furnace and looked inside, but he couldn't see anything. The divine fire inside was too fierce, and some of the divine fire had transformed into Dragons, phoenixes, and all kinds of strange beasts. They circled in the furnace, making it even more difficult to see clearly.

“No! This divine flame is too ferocious!”

He wanted to go in, find the kid, and drag him out. However, as soon as he got close, he was forced back by the divine fire.

Unless he had the immortal armor to protect himself, he would not be able to charge in. Otherwise, he would be courting death.

“Stinky brat, I know you're inside. If you're not afraid of death, then continue to stay inside. I'll see how long you can stay here. After I refine the divine furnace, I'll refine you into a human pill!”

He shouted into the furnace and slammed his palm on the furnace, trying to refine it.

However, after a long time, there was no reaction from the furnace. When his mind entered it, it was like a stone sinking into the sea.

He knew that the treasure did not acknowledge him and did not give him any chance.

“It must be because this kid is inside. Perhaps this is a trial given by the divine furnace ... No, I can't let this kid continue. If he really passes and refines the divine furnace, it will be bad!”

Sovereign great void muttered as his face turned frighteningly dark.

“You little brat, you don't want to come out, right? Just watch me refine your clone and then dismantle your puppet. Let's see if you can still sit still!”

“Hmph!” He snorted angrily, then turned around and left the hall.

His aura burst forth as he lifted the immortal cauldron and smashed it toward the clone.

He vented all his anger on the clone and the puppet.

At this moment, inside the divine furnace.

Tang Hao sat cross-legged, naked.

There was a golden divine liquid flowing all over his body. It was the medicinal power of the pill in the furnace.

This was originally an ordinary Taixu golden pill. However, after tens of thousands of years of refinement, it had accumulated a shocking amount of medicinal power.

With the help of the divine flame, he was able to suppress the medicinal power and refine it. Otherwise, his body would have exploded.

As he absorbed the medicinal power, he used the divine fire to temper his body. His body was undergoing a shocking transformation.

The composition of his physical body was very mixed. In the beginning, he embedded a piece of Winged Dragon divine bone, followed by ROC blood, and then, the blood of Immortals, Buddhas, gods, Devils, demons, demons, xuanhuang ancient Qi, Yin Yang ancient Qi, and so on were all refined in one pot.

After refining so many things, his physical body was indeed very strong. There was almost no human who could match him.

However, it was also because of the complexity that it did not reach the extreme.

Now, he was using the medicinal power and the divine fire to refine everything in his body and merge them perfectly.

Under the reflection of the Golden fire, his body gradually became crystal clear, and even the bones inside could be seen. Each bone was a dazzling gold, and the more he refined, the more resplendent this gold became.

Outside, the rumbling sounds continued, but he ignored them.

The avatar was one with him. If it was in danger, he would know. The God of apes was just a giant God he had refined. If it was broken, he could just refine it again.

“Is that kid still not coming out?”

Outside the main hall, Supreme Taixu was getting more and more anxious.

Fifteen minutes had already passed, and a large portion of the pill should have been refined!

“I’m going to destroy your broken puppet!”

He shouted and pounced on the huge puppet again. He swung the iron sword in his hand and cut a huge crack on the puppet.

However, even though he had torn off one of the puppet's arms and turned it into dust, the kid still did not move.

He became even more aggressive and began to attack the puppet crazily.

Soon, two hours passed, four hours passed ...

Just as he was about to go crazy, he heard a loud boom in the hall.

"You're out?"

The great void sovereign was stunned for a moment, and then he was overjoyed.

That stinky brat had finally come out!

"I'll cut you into pieces!" He shouted and rushed into the hall with the cauldron and sword in hand.

In his opinion, even if that kid refined the pill, at most, his physical body would become slightly stronger, because in this realm, basically all pills were useless for the improvement of the realm.

As for the puppet, he had already destroyed more than half of it. It could be considered useless. As for the clone, it had also been severely injured and had escaped. This kid was left alone. Could he still escape from his palm?

He was going to capture this brat, stuff him into the furnace, and refine him!

"Who ... Who are you?"

However, as soon as he entered the hall, he was stunned. There was a strange person standing in the hall. His entire body was transparent, and his body was like crystal. His internal organs could be seen clearly, and he was also wearing a golden bone armor.

Looking at it this way, it was really extremely strange.

"Oh! I'm so sorry!"

The man smiled and his physical body began to transform, gradually returning to his normal appearance. Then, he took out a set of clothes and put them on.

"It's that kid, but why do I feel like his aura is a little different?"

The great void sovereign stared at it and could not help but feel his heart palpitate.

It was as if the person standing in front of him was a terrifying mighty figure like an ancient God or a true immortal.

“Hmph! I’m afraid he’s just bluffing. Just sit in the furnace and refine for a while, and he’ll become a true immortal!” Then, he sneered with a look of disdain.

It was obvious that he was overthinking.

“Brat, spit out the pill!”

“Die!” He shouted, threw the sword in his hand, and attacked.

Whoosh!

The sword Qi was so sharp that it seemed to be able to cut the sky and crack the earth.

However, the figure stood there unmoving, allowing the sword to strike his chest.
