

## The Mightiest Little Peasant Chapter 2722

Tang Hao returned to the main hall.

He walked around and found that there was only one divine furnace in the entire Hall.

“A divine pill and a divine furnace, that’s pretty good! However, I’ve eaten the pill and refined the divine furnace. What should I give brother Xue?”

Tang Hao looked at the empty Hall and could not help but scratch his head.

He had promised to split the treasures.

“Oh right! These were also treasures! These floor tiles, pillars, and tiles all have the aura of a true immortal. They can be considered immortal materials!”

Tang Hao’s eyes lit up when he looked around.

After all, he was the great God of the great void, the most powerful man in the ancient times. Even if he casually used a Palace to store treasures, it was not made of ordinary materials.

He lifted a tile and knocked on it, carefully identifying it.

It couldn’t be compared to his divine turtle armor and immortal’s sword bone, but they were still immortal materials, and he could use them to make immortal-level armor.

He had yet to knock open the gate of immortality and was not in the true immortal state. Of course, he could not forge a true immortal weapon.

However, he could make use of his powerful talisman Dao skills and these immortal materials to refine immortal level armor that was comparable to Immortal Weapons.

In the past, he couldn’t refine immortal materials, but now that he had the great void divine furnace, he could refine any immortal material.

He did as he said.

Tang Hao sat down immediately. He took out a few Warframe designs and made some slight changes to them.

Then, he pried open the floor tiles, tore apart the pillars, and removed all the tiles, ransacking the entire Palace.

Then, he began to refine it.

He planned to refine three first. One for himself, one for sis Xiangyi, and the last for The Blood King.

He had refined his own armor according to the clear sky silk, sis Xiangyi's was refined to look more gorgeous, and the last one for The Blood King was refined to look more handsome and mighty.

"Alright!"

A few days later, Tang Hao was done with work.

He had forged countless armors and was very familiar with them. Even if it was an immortal grade armor, he was very fast in forging it.

After making one more round and making sure there was nothing else, he put giant God away and went out.

The moment he exited the passageway, he saw The Blood King and Yun Rong.

The two of them were waiting anxiously.

"My Lord! Are you alright?"

When Yun Rong saw Tang Hao, she quickly walked up to him with a concerned look on her face.

"Where's that old freak?"

The Blood King stepped forward and asked in confusion.

He had no idea what was going on inside.

When the origin core avatar escaped and was severely injured, he felt his heart clench. He had thought that the old monster had killed him and that he was going to die.

But later, the clone said that he was fine and that he didn't need to worry. Then, he left.

"I'm fine!"

Tang Hao smiled at Yun Rong.

"He ran away!" Then, he said to The Blood King.

"He ran away?"

The Blood King was in disbelief. That was a Supreme old monster who had lived for more than ten thousand years. His cultivation level was probably at the late-stage ninth tribulation Dao integration realm. How could he have escaped?

"There are some opportunities inside. I injured him, but I don't know where he went through the crack in the void. However, don't worry. At least for the next few decades, he won't be a threat." Tang Hao said.

When The Blood King heard that, he immediately revealed a look of shock.

A ten-thousand-year-old Supreme monster was actually injured?

Didn't this person just advance to the ninth tribulation not long ago? he should be at the Dao glimpse realm! What kind of opportunity could there be inside that could allow him to overcome such a huge gap in cultivation level and injure an old monster who was close to Dao integration?

"There's a pill and a divine furnace inside ...."

Tang Hao briefly explained what had happened and did not hide anything.

"It was really dangerous!" The Blood King exclaimed.

"This is a set of armor I refined for you. It's a celestial artifact!" Tang Hao took out the blood-red immortal armor and handed it over. He then took out an immortal artifact and threw it over."This is an immortal sword. It's blood-red in color. It'll suit you very well!"

"Immortal armor? And the immortal sword ..."

When The Blood King received it, he was stunned. He was completely shocked.

A set of celestial artifacts at once. This kind of spending was too frightening!

"Actually, you don't have to give me so much." He shook his head and laughed.

"I should!"

Tang Hao said.

"Alright! Then I'll accept it!" The Blood King took a deep breath and nodded.

Then, he smiled in a relaxed manner and said,"I suddenly feel much more relaxed now. There's no need to hide anymore. Just you wait, kid. I'll definitely break through to the ninth tribulation before the war. At that time, I'll kill the enemy with you!"

"Alright!"

Tang Hao laughed and high-fived him.

"Farewell!"

The Blood King cupped his hands at him and Yun Rong, then turned around and left.

"Let's go too!"

Tang Hao waited until the passage disappeared, then waved at Yun Rong and turned to leave.

“Yes! My Lord!”

“Yes,” Yun Rong responded and followed behind, her beautiful eyes constantly looking at the back of the figure in front of her, full of amazement and respect.

Supreme Taixu was a powerful existence, one of the top Supremes in the Holy region. But now, he had been surpassed and injured by his Lord. His Lord’s divine powers were getting more and more unfathomable.

“What are you thinking? Hurry up!”

“Wait!” Tang Hao turned around and called out when he noticed that she was a little slow.

“Oh!”

Yunrong woke up with a start, blushed, and quickly lowered her head to follow him.

Tang Hao did not return to the clear sky Daoist sect. Instead, he went to the divine temple to meet Supreme Xuan Hong and told him about it.

Supreme Xuan Hong’s face was filled with confusion.

The divine treasures left behind by the great void God?

A divine pill that had been refined for tens of thousands of years and a divine furnace used by the great void God?

Also, even old man Taixu’s head was blown up by this kid and he had no choice but to fake his death to escape?

This was ridiculous!

Supreme Xuan Hong was only convinced when Tang Hao took out the divine furnace and showed it to him, as well as the aura of his physical body.

“You little rascal ... I don’t even know what to say!”

Supreme Xuan Hong was stunned for a long time before he regained his senses and smiled bitterly.

He really didn’t know what to say.

“You’re not to be blamed for this. He deserved it. Don’t worry, I’ll let the other Supremes know. I’ll let Thunder origin take over the great void sect.” Supreme Xuan Hong muttered to himself for a moment before speaking.

“Alright!”

Tang Hao was relieved to hear that.

He took Yun Rong back to great heaven peak and saw the origin core avatar sitting on the peak, absorbing the essence of heaven and earth to heal.

He went to see sis Xiangyi and the others, then returned to the main hall and entered the demon God Realm.

In the battle with old man Taixu, more than half of the ape God was destroyed, and he had to repair it.

He had a lot of immortal materials on hand, so he threw them all in and refined them into ape God's body.

Soon, ape God was successfully repaired, and because of the addition of immortal materials, his strength also soared.

"Next, I should go to the black and yellow tower and meet those ancient beasts and ... That brain-dead Black Dragon!"

Tang Hao left the demon God Realm and went straight to the divine temple.
