

The Mightiest Little Peasant Chapter 2751

“There’s only the star map of the origin immortal realm?”

Tang Hao searched in various shops, but could only find the star map of the origin immortal domain.

However, he knew that there was more than one immortal domain here. From the memories of the nine-colored tribe, he knew that there were at least a dozen such immortal domains.

The origin immortal domain was just one of them.

Just the celestial realm alone had several hundred level-nine stars. With so many stars added up, the number of nine tribulations would be astonishing!

With so many nine tribulations, there must have been a true immortal!

Tang Hao wasn’t worried about that. Even if there were true immortals, there wouldn’t be many of them, and they couldn’t be on Azure meteor.

After figuring out his position, Tang Hao began to inquire about the Azure meteor star’s situation.

“Nine great continents ...”

“This is the cloud continent, which is divided into 18 regions. According to their location, they are divided into heaven and earth regions, which are named after numbers. For example, this is the nine heaven regions, which is located in the northeast of the cloud continent.”

“Every region in the cloud continent has thousands of clans and sects, and they are very prosperous. Among them, the Gu God sect, the divine fire sect, and the heaven slaying sect are the three most powerful forces. They are all super forces with nine tribulations. ”

“Here, the 7th tribulation can be considered to have some strength, the 8th tribulation is a strong master, and the 9th tribulation is an ancestor-level figure who can suppress a continent and is invincible!”

Tang Hao had a rough understanding of the situation.

“With such a high immortal Qi concentration, there should be a lot of spiritual essence. I’ll go find some spiritual essence to recover faster.”

Tang Hao planned to stay in the great fate sect for a few more days before leaving. He would go around and look for spiritual essence to recover his strength.

“Eh? What is this?”

Tang Hao walked around a shop when his eyes were suddenly attracted by a rock.

It was a purple crystal, clear and exquisite, with fine sand flowing inside, like a Nebula.

“Isn’t this ... The cosmos stone?”

Tang Hao stared at it for a while and was stunned.

Ever since Qi Yuan came out, he had not seen the cosmos stone. However, he could still remember its appearance clearly. It was almost exactly the same as the crystal in front of him.

“Could it be the cosmos stone that came from Qiyuan?”

Tang Hao said to himself.

“What cosmos stone? These are soul crystals!” Behind the counter, the shopkeeper looked up and said.

“Soul Source crystal?”

Tang Hao was surprised.

He was well-versed in craftsmanship and knew all sorts of spiritual and divine materials in the world. However, he had never heard of the name Soul Source crystal.

“Natural ore?”

“No!”

The shopkeeper glanced at Tang Hao. He explained patiently, “this was made the day after tomorrow. It’s used to store souls. It’s very effective. It’s used to make high-grade soul beads or magical treasures related to souls.”

“The day after tomorrow!”

Tang Hao was surprised.

He picked up this crystal, touched it, and tried to pour a trace of his soul into it. There was no reaction. There was no sign of his divine soul being separated and entering the great void realm.

“But this material is almost exactly the same as the great void Stone. Perhaps this is the material used to make the great void Stone. When the great void God created the great void realm, he used this stone to make the great void Stone.”

“And this secret refining technique was lost in Qiyuan and Pangu. Only an ancient power that rebelled from Qiyuan still has this secret technique, so it can still refine this crystal.”

Tang Hao pondered for a while, but his guess was pretty close.

“This is good stuff!”

He held the crystal and gently rubbed it.

How bad could something that caught the eye of the great God of Taixu be?

“Could Qiyuan’s great void realm have been created using this material?”

Suddenly, Tang Hao’s heart skipped a beat.

The function of the great void Stone was to strip a person’s soul and bring it into the great void realm. But where did the great void realm itself exist?

That was not a small world, but an illusory world. Therefore, it would not exist in this world. There must be something to rely on. Could it be a huge Void Stone?

One mother stone, followed by countless child stones. This might be how the great void realm was formed.

“Then, can I use this material to create something similar to the great void realm?”

Tang Hao muttered to himself.

The moment he thought of this, he was a little excited.

The great void realm was too magical. It was a completely virtual world that transcended reality.

In history, only the great God Taixu had ever refined such a magical thing.

If he could refine it, he would be the second person in history.

Once such a world was created, it would be popular everywhere and become a Second World. At that time, he, who controlled this virtual world, could influence the real world through this world.

“Interesting! This is so interesting!”

Tang Hao was excited just thinking about it.

After a while, he calmed down.

This was something that no one had been able to do for tens of thousands of years. It was naturally very difficult. He did not have the strength of the great God Taixu, so it was probably even more difficult.

He still had to think about how to refine it.

“How ... How much is this?”

Tang Hao asked the shopkeeper.

“This one is a little expensive. It’s just a small piece, three hundred thousand!” The shopkeeper said.

Tang Hao was surprised. Three hundred thousand Yuan was indeed a little expensive for the prices here.

Here, golden core, nascent soul, Dao seeking, and Dao severing cultivators were all low-level cultivators. Their personal wealth was estimated to be only a few hundred or thousands of crystals. After reaching the Saint realm, they would only have tens of thousands of crystals.

Second or third tribulation saints might not even have three hundred thousand crystals.

For example, with his current identity as a handyman, he only received ten Jingshi a month, and a hundred or so a year.

Every place had different currencies and prices. That was the first thing Tang Hao learned about when he arrived in clarity city.

“Do you want it?”

The shopkeeper said.

He didn't think that this person couldn't afford the price of 300000. After all, this person's temperament was too outstanding. With one look, he could tell that this person was a genius or a descendant of a large clan. He didn't need to think to know that this person was definitely rich.

“How many ... Do you have here?” “Do you have a bigger one?” Tang Hao asked after a moment of silence.

“I'll only take this one for now!”

The shopkeeper said, “it's not cheap. In clarity city, not many people can afford it, so I only have one. If you want more, I can get a few more. The four treasures Chamber of Commerce is a big Chamber of Commerce. You don't have to worry about our strength.”

“Good! Then I'll come back in a few days!”

Tang Hao said.

“Alright! I'll get you a few first!”

The shopkeeper readily agreed.

It was just transferring the goods, there was no loss. If it could be sold, it would be a big order, and it was still very cost-effective.

“Where Can I Get some money?”

Tang Hao rubbed his chin and pondered as he walked out of the four treasures shop.

It had been a long time since he had been worried about money.

He had to earn a few million Jingshi in these few days.
