

The Mightiest Little Peasant Chapter 2786

Ye Siyao's mouth was wide open at this scene, and she couldn't believe it.

These people ... Were all her people?

They were all venerable sovereigns! Their identities were also extraordinary. They were the Masters of a sect!

The great fate sect's people were all extremely envious.

With such a group of venerable sovereigns as his subordinates, he could completely do whatever he wanted in the nine Heavens regions.

She had suddenly transformed from a puny three-tribulation Saint to the most powerful and most prominent figure in the nine Heavens regions!

Such an opportunity was too shocking!

Seeing this, ye zhenglong's expression became more and more bitter.

"And this, here you go!"

Tang Hao reached out and picked up the sacred ancestral token that had fallen to the ground. He erased the mark on it, then sent a wisp of his true spirit into it.

With his true spirit protecting her, he didn't have to worry about the girl's safety.

"Remember, you can't leave this token!"

Tang Hao said seriously.

"Mm! I'll definitely keep it on me!"

Ye Siyao took the token and clenched it tightly in her hand.

"Are you ... Not coming with me anymore?" After a pause, she continued, her expression a little dejected.

Tang Hao nodded. "I still have things to do. I'm still injured, and I need to recover."

"Oh!"

She replied in a low voice, "I won't leave then. I'll stay here. If you remember me in the future, you can come and find me." And xuexi, do you want to see her before you leave?"

"She'll be sad if you just leave like this. "

“There’s no need!” Tang Hao smiled. “We’ll meet again in the future.”

“En!”

“Okay,” she replied softly. Her eyes were red as she looked at Tang Hao.

She rubbed her eyes and widened them a little, as if she wanted to take a few more looks at him and remember him.

“Why are you crying? It doesn’t look good anymore. ”

Tang Hao smiled. He reached out and patted her head.

She could not help but throw herself into his arms and burst into tears.

“Don’t cry!”

Tang Hao said gently as he patted her shoulder.

After a long time, she finally stopped crying. She looked up and saw that her clothes were wet with her tears. Her face immediately turned red in embarrassment. When she looked down again, her beautiful face immediately became even redder and more beautiful.

Her body was particularly graceful and fiery, and this hug made her feel squeezed.

She hurriedly let go and backed away. She lowered her head and did not dare to look at him.

“Remember to come and see me, and Xuezi!”

With that, she turned around and walked into the mountain Gate with a red face.

“You guys ... Take care!”

Tang Hao glanced at ye zhenglong and the red Cloud Sage and shouted coldly. Then, he flicked his sleeves and turned to leave. “You two, follow her. I’ll be back.”

“Yes, divine ancestor!”

“Farewell, divine ancestor!”

The emperors outside knelt down again and called out in unison.

Tang Hao nodded, then leaped into the air and turned into a divine beam of light.

After flying for a distance, he stopped.

“Next ... Let’s go to the East!”

He pondered for a moment and looked up to the East.

The nine heaven regions was located in the northeast of the cloud continent. Further east was the sea area, which was also called the cloud Sea. It was vast and boundless. It was said that there were many fierce beasts in the sea, especially in the deep sea, where there were many fierce beasts. It was very dangerous.

Tang Hao had his eyes on these beasts.

The level of his physical body was too high, and he was invincible below the true immortal realm. Now that he was injured, it would be difficult for him to fully recover. There were not many ninth tribulation cultivators here for him to refine, so he could only look for spiritual essence everywhere.

The grade of the spiritual essence could not be low either. For example, the immortal herbs he had swallowed in the nether Rift were all over a thousand years old, so they did not have much effect.

Higher level immortal herbs were rare and almost impossible to find.

That was why he had set his eyes on the fierce beasts. The flesh and blood of the fierce beasts were also a kind of spiritual essence, especially those with the bloodline of the ancient times. The purer the bloodline, the better the effect.

After making up his mind, he turned into a divine light and headed east.

After traveling for a while, he caught a Skylark and sealed the sea of the path. He sat on the Skylark and continued on his way.

It was already a day later when they arrived at the beach.

“No wonder it’s called the cloud Sea!”

He sat on the Skylark’s back and looked ahead. He could only see a vast sea of clouds, and he couldn’t see the surface of the sea at all. He had to fall down to see the blue sea.

On the surface of the ocean, there were beams of divine light flying, and some ships sailing on the ocean.

“There’s a city there. Let’s go take a look first and find out where there are the most ferocious beasts.” Tang Hao looked around. He saw a city on the surface of the ocean in the distance. It was built entirely in the ocean, and there was a lot of spiritual light gathering there.

“Big wave City!”

Tang Hao saw the three words on the city gate when he got closer.

Upon closer inspection, the city was quite majestic. The city walls were made of some kind of metal and were engraved with talismans. There were also claw marks and blood stains all over the city.

“It seems that sea beasts often attack this place!”

Tang Hao said as he looked at the claw marks.

As long as there were many ferocious beasts, there was a risk of being attacked in a city that was near the sea or a mountain.

Then, he grinned. For him, the more sea beasts there were, the better. Moreover, the stronger they were, the better. He could not wait to hide dozens of ninth tribulation beasts in this sea so that he could recover easily.

He had to pay five Jingshi to enter the city, which had pained him for a while.

He didn't have many crystals on him. They were all leftover from buying Soul Source crystals and the materials for refining needles. He only had a thousand or so.

“It's too inconvenient!”

Tang Hao closed the storage bag and walked into the city.

Looking at the storage bag in his hand, he grinned. He had no cultivation now, so he could only use this lowest level storage bag, which could be opened without immortal essence. The space inside was very small, and it was very inconvenient to open it every time.

“If you recover earlier, you won't need to use the sea anymore.”

Tang Hao mumbled to himself. He tied the storage bag to his waist and walked down the long Street.

Great wave City was located near the sea, so it was naturally different from clarity city. Be it the medicinal pills, beast materials, or even the cultivation techniques sold in the shops, they were all very different. For example, most of the cultivation techniques were of the water element.

As for the beast materials, they were all sea beasts.

“This is ... The skeleton of an Aurora Ray!”

“This is ... The void whale's bone?”

Tang Hao was dazzled by a beast material store.

He stopped in front of the bone and stared at it for a while.

He was very familiar with this void whale. Back in Qiyuan, the true form of the East Sea demon Lord was a void whale. Later on, he killed him and used his bones to refine a void treasure.

However, back then, the East Sea demon Lord was only at the Dao seeking stage. In this sea, he couldn't even be considered a low-level demon. He was pitifully weak.

He sighed with emotion and continued to shop.
