

The Mightiest Little Peasant Chapter 2789

Boom! Boom! Boom!

The surface of the sea was shaking.

Huge waves surged wildly.

In the surging waves, the ships were like floating duckweed, shaking violently.

Gasps of shock rang out from the ship. After stabilizing themselves, all the cultivators of the Ji family widened their eyes and looked forward in shock.

On the surface of the sea in front of them, there was a blazing sun, releasing a shocking divine might.

The sea around him surged crazily with him as the center.

This horrifying scene, this terrifying momentum, this ... This is not an eight tribulation Emperor realm at all, this is a F * cking nine tribulation!

This was a nine tribulations Saint ancestor!

The black-robed man's eyes widened in shock, as if he had seen a ghost.

Then, his body swayed and he almost fainted.

This was actually a nine tribulations Saint ancestor, and he actually spoke rudely to a nine tribulations Saint ancestor!

"Senior ... Senior, please forgive me!"

The old man with six apertures opened was stunned for a long time before he knelt down and prostrated himself on the shaking deck, his whole body shaking like screening chaff.

He was scared out of his wits!

The divine power of the nine tribulations Saint ancestor was so terrifying that he could kill all of them with a wave of his hand. If this senior was so vengeful and vengeful, he might even affect the Ji family and bring about a great disaster.

How could there be nine tribulations here?

He was even more puzzled and depressed.

Not only were the number of nine tribulations divine ancestors extremely small, but there were only two or three of them in the entire continent. Moreover, all of them were elusive figures. It was

impossible to encounter them on normal days. This was also the first time in his life that he had encountered one.

And yet, he had offended him. This was simply his bad luck.

“Hmph!”

Tang Hao glanced at them and grunted.

With a wave of his sleeve, the ships exploded one after another, and the Ji family members on them fell into the sea while screaming in panic.

But they did not dare to use their immortal essence to get out of the sea, they could only struggle and float on the surface of the sea in a sorry state.

“Get lost!”

“Shut up!” Tang Hao scolded coldly.

The group of Ji family cultivators felt as if they had been granted Amnesty. They hurriedly got up and fled in panic.

Tang Hao only looked away after they had run far away.

He didn't want to fight at first, but the words of the Ji family's venerable sovereigns were too unpleasant, so he took action and punished them.

“It's your turn!”

He looked at the old octopus and waved his hand. The divine furnace flew out and instantly expanded to cover the old octopus.

The old octopus had long been suppressed by the nine tribulations divine power and could not move. It was easily taken into the furnace.

BOOM!

The divine flame was refined and easily turned into a golden divine liquid.

Tang Hao opened his mouth and sucked in the divine liquid. Then, he put away the divine furnace and continued to run toward the next beast.

In the distance, the members of the Ji family looked on with pale faces and lingering fear.

It was too terrifying!

With a wave of his hand, he killed an ancient giant octopus with six apertures opened.

This divine power had already exceeded their imagination.

“This ... Which divine ancestor is he?”

“I don’t know!”

They looked at each other and could only smile bitterly.

It was supposed to be a normal hunting trip, but they actually ran into a nine tribulations Saint ancestor and almost offended him. Although they managed to keep their lives, the sea Dragon warships were gone. It could be said that they had suffered a heavy loss.

“Forget it! That’s a divine ancestor, it’s already a great fortune that he managed to keep his life and not affect the family. It’s just a few large ships, I’m sure the family head and the others will understand!”

Thearch Liu Qiao sighed.

“That’s true!”

The other two people echoed, their expressions still a little frightened.

“I don’t know if this divine ancestor is just passing by or if he’s here to look for something. If it’s the latter, then we’ll be in trouble.”

The old man with six apertures opened looked in the direction where the Holy ancestor had disappeared and frowned, his face full of worry.

Today, they were just lucky that they didn’t offend this person too much, so he didn’t kill them and only gave them a small punishment. If they had rashly attacked just now, the consequences would be unimaginable.

If the other clansmen were to meet this person again and offend him, it would still be a great disaster.

This wasn’t impossible. The Ji family was used to being arrogant and domineering. It was easy to offend people and cause big trouble.

“Hurry up! Let’s go back and report to the patriarch that we must restrain our clansmen during this period of time and not cause any trouble!”

Then, he scuttled up and rushed back to the clan.

Tang Hao had found a giant whale and killed it with ease. He then refined it.

“There’s more over there ... There’s more over there ...”

He stood above the sea and activated his divine eyes to scan the surroundings again.

Under the illumination of his divine eyes, every inch of the sea could not escape his eyes. In all directions of the sea, he found giant beasts.

His figure flashed out, killing these giant beasts one by one before refining them.

His speed was extremely fast. As long as he found his target, he would be able to arrive very quickly. Killing them was even easier. In just half a day, he had already killed more than 50 eighth tribulation beasts.

There were all kinds of species, such as shrimp, crabs, and even some fish.

After looking around and not finding any eighth tribulation beasts in this Sea area, he left directly and went to the nearest true spirit. In half a day's time, the true spirit had found many eighth tribulation beasts and killed many.

He collected them and refined them all.

"I've recovered one Dao!"

After swallowing the divine liquid formed by over 50 ferocious beasts, a crack near his dantian's sea of Dao in his lower abdomen had already healed.

"Three more!"

Tang Hao continued to refine the next strand of true spirit.

Eight tribulation beasts were continuously sucked into the furnace and then turned into divine liquid for him to absorb.

The three cracks on his body were also gradually healing.

Three days later, after refining another batch of 8th tribulation beasts, the last crack in his sea of the path finally healed.

"Hahaha!"

Tang Hao laughed out loud. He was overjoyed.

Now, he finally didn't need to seal the sea of the path anymore. He could freely mobilize his celestial core power and use all his spells.

"It's already been seven days! The trade fair should have started by now, but there's no rush. This trade fair will last for several days, so we can still make it in time. "

Tang Hao calculated the time and said, "now, I need to get a ring and some money. Right, there must be a lot of treasures in the nests of the giant beasts in the deep sea. I'll take them all."

These eighth tribulation beasts had eaten many human xiuzhe, so their nests must have accumulated some treasures of the human race.

He immediately dove to the bottom of the sea and searched around. He found a few nests and plundered them. He really did find a few rings, a pile of battle armor, and tribulation weapons. Although nearly half of them had decayed, some could still be used and could be sold for a lot of money.

In the ring, he also found some crystals.

“Let’s use it first!”

He picked the most pleasing silver Coiling Dragon Ring and put it on. Then, he transformed into a divine light and headed toward the spirit Whale Island.
